Udaipur on a development spree

RH Team Udaipur is going through a development drive and many projects rolled out this week. Most of these projects either are aimed at making the city beautiful and increasing facilities for the citizens. The most important of all is 24 hour milk vending machine which will provide a great facility to the citizens round the clock. Having run out of the milk or the milk ejac-

ulation normally leaves people in a difficult state, especially if there are toddlers in the house. Now in case of emergency and even otherwise, the milk will be available round the clock. Milk federation has launched a milk pouch vending machine which can be used to get a half litre pouch in one go after the coins are inserted in slot of the machine.

A glitzy 'Opening Nite' celebration on Tuesday, 7 April 2015, at the Salt Lake Stadium, Kolkata, will kick start this season of the Pepsi IPL. Entertainers will come together on one stage to mark the start of the eighth season of the IPL with the evening's proceed-

ings being hosted by Saif Ali Khan. Matching the energy, verve and spirit of the competition is a dazzling line-up of Bollywood stars, including Farhan Akhtar & Band, Shahid Kapoor, Anushka Sharma, Pritam & Band and Hrithik Roshan. All eight team

captains will be present to take the MCC Spirit of Cricket pledge, reaffirming the values in IPL's commitment to the Spirit of Cricket, which has been on display since the competition's inception in 2008. Gautam Gambhir, captain of de

fending champions Kolkata Knight Riders, will put the trophy back in play, signalling the start of the 2015 season of the competition. The two-hour evening's performance will start at 7:30 pm and the gates of the venue will open at 5:00 pm. Tickets for the Pepsi IPL

2015 Opening Nite (prices starting at '200) can be purchased from iplt20.com. The Opening Nite will be telecast live on Sony Max and Sony Six. It will be streamed on Hotstar. courtesy Anurag Thakur (IPLT20.com)

Mahaveer Jayanti celebrations!

Udaipur is the city where festivals are way of life and in this series, the Mahaveer Jayanti last week was celebrated with great zeal and fervour by people of all classes with harmony. The Thursday belonged to Mahaveer Jayanti painted entire city with spirituality and slogans. A grand pro-

cession was carried out across the city and this amazing cavalcade of people was wished and respected by all the people on the way. Administration ensured that traffic remains well managed and thus a big thanks should go to traffic police. It was 2614 th birth anniversary of lord Mahaveer and Ma-

haveer Jain Parishad completed a nine day celebration on the occasion of Mahaveer Jayanti on Thursday. Both wings of Jain community celebrated this event demonstrating a strong unity. Rajkumar Fattawat of the Parishad apprised that Jeevan singh Mehta who has been conferred with Taponidhi Alankaran was honored by dignitaries of the city. In the start of the procession, Kailash Manav of Narayan Sewa Sansthan also participated in the procession. The entire procession was presenting an amazing view. As many as 108 welcome gates were adorned at main places of the city by various tent houses. Rajkumar Fattawat also said that 111 talented people were felicitated.

INS Mumbai evacuates 441 Indians from Aden

RH Team INS Mumbai on Sunday morning reached the Djibouti

harbour with 441 evacuees on board from Yemen's port city of

Aden. Along with Indians, 179 people from 17 countries were

evacuated from Aden on Saturday, tweeted MEA spokesperson

ADORABLE BABY BORN WITHOUT A NOSE

RH Team

An Alabama baby was born with an extremely rare birth defect. He was born without a nose! Baby Eli Thompson came into this world perfectly healthy on March 4, but with one distinction that he didn't have a nose. Weighing 6 pounds, baby Eli was born without a nose, nasal passage or sinus cavities. The disorder, called complete congenital arhinia, is so rare, experts say there are only 38 known cases reported worldwide. This miracle baby's mother Brandi McGlathery said she was at first shocked and upset to hear the news from her doctor. "I pulled him back so I could get a better look at him. Then I said, 'Something's wrong with

him." My doctor said, 'No, he's perfectly fine.' I said, 'No he doesn't have a nose,'" McGlathery said. The baby was then taken to USA Children's and Women's Hospital in Mobile, Ala., where doctors gave him a tracheotomy to help him eat without struggling for breath. McGlathery further added that she and her family have all been trained in controlling her child's equipment, and all received CPR training. Eli will have to grow past puberty before his nasal passages can be rebuilt surgically. His family wants to spare him any unnecessary facial surgeries, because his mom says they think "he's perfect the way he is."
