# State & City of Lakes

#### Successful event "Kesariya" in udaipur today

Udaipur: Harawal Cycle Initiatives organized another successful event "Kesariya" here in udaipur on 15th of august to pay tribute to all the great Indians who made our nation proud. The event started at MLSU university gate at 5:30 am and ended at Rajiv Gandhi park. The cycling group had both young and old participants. The energy of the participants was commendable. After a slow cycling through the city on the joyous morning of Independence day the participants gathered around in a circle bound by cycles. They shared their feelings and thoughts. This was followed by melodious singing by sudeshna sen and Shailesh. Everyone exchanged food. The pleasure of the event was being reflected on their faces. It was time to wind up. What could be a better way to do so than singing the national anthem? The event was over but people carried in their hearts an experience - a unique memory of one morning on independence day. Harawal is organizing another event on raksha bandhan. It's for brothers and sisters to share a day while cycling through the amazing Udaipur

#### DM initiative for tourism

Udaipur: Public Health Engineering Minister Kiran Maheshwari's special effort in Udaipur's Jadhol district expansion and new schemes for drinking water of 13 million to 52 million by the government for approval has ratified. Public Health Engineering Minister Kiran Maheshwari said Jadhol village water supply scheme for expanding the amount of 2.38 crore has been released. On the other hand, 47.94 million for the expansion of the public water scheme, the village of the Lunawats need 91.18 million for drinking water, for Atatia 54.67 million, 43.24 million for Jetawadha, Jadhol Panchayat Samiti Mansi Wakal dam drinking water to 30 villages of the region to benefit from the scheme 868 million to provide drinking water to villages and Jhamarkotda Mines to 16.94 lakh tube wells approval will be issued shortly. She said the district survey of drinking water-scarce areas by creating new motion instructions have been given after which the approval will be made on priority.

#### Students learned the nuances of electronic media

Udaipur: Department of Journalism and Media, MLSU organized a media workshop in which students learnt about the electronic medium and details about reporting. In the workshop, Asst. Director DIPR Dr. Rajesh Vyas addressed the gathering and emphasized the use of creativity in the field to carve a niche in the media and stand different from all other established media houses. All the aspiring journalists were informed about honing the talent to find unique news from all the headlines. Accompanying him at the workshop was Aaj Tak channel producer (New Delhi) Pratibha Mishra who told the students about the situation inside a newsroom. She motivated the students to sharpen their skills in voice and knowledge. The workshop concluded with interactive sessions between the speaker and the students. HOD Dr. Kunjan Acharya thanked the esteemed speakers.

#### Hariyali Amavasya ka Mela

**Udaipur**: Thousands of people from city and surrounding villages gathered to enjoy the Hariyali Amavasya Mela, a much cherished 2-day annual event held at Saheliyon ki Bari to Fateh Sagar Lake road. First day of the mela is open for all while the second day is exclusively for women who enjoy food, shopping, swings. Overflowing lake was an added attraction this time specially for the villagers who were thrilled to see the water flow.

#### Senior citizens must write their wills

Udaipur: Senior citizens must write their wills, thereby earning their property later in life by being in the right hands. These thoughts were put forward by Helpage India's counsellor Mrs. Darshana Sharma at Collectorate complex in Advocacy Program. Under the Maintenance of Parents and Senior Citizens Welfare Act 2007, computer learning and smart phones are the most important thing that senior citizens must know about.

#### Message of hygiene on a 30 feet long sheet

Udaipur: The city's iconic artist Chandraprakash Chittora, on the occasion of Independence Day, made a 'Clean India Healthy India' themed message on a 30-feet-long sheet. Chittora, on this occasion, illustrated country's 'Clean India Campaign'. Through this medium, he depicted the actions and contributions of Mahatma Gandhi and Narendra Modi, the hypothesis, the beginning, and it includes the actions depicted. According to the artist, sheet width is 2.5 inches and the attractive colors of the tricolor has been used.

### Independence Day Celebration

Udaipur: Ryan International School, Udaipur pay homage to countless freedom fighters as we celebrate the 69th Independence Day. The National flag hoisting ceremony was performed by the Principal Mrs. Poonam Rathore & the chief guests of the day Mr. Mahendra Singh-Ex. International Basket Ball Player & Mr. M.K. Sharma- Retd. National Basket Ball Coach. This was followed by the National anthem and the oath ceremony. The students of Ryan International School were filled with patriotism and love for the country. School presented mélange of Patriotic activities which created an atmosphere of national pride. The students presented role play on freedom fighters, a skit on patriotism, patriotic songs, dances & mime.. The spirit of freedom engulfed the whole atmosphere. At the end vote of Thanks was presented in three different languages followed by school song and Anthem. The children took part with enthusiasm and the whole ambi-

## Challenges and resolution in doctoral research

An appropriate research is not a painless and stress-free matter. Although selection process adopted by UGC in Ph.D. and other doctoral degree like M. Phil. Is one of the best processes, some never finish their research work due to lack of facilities, proper guidance, etc.

Doctoral studies have several complex factors, for example, relation of scholar with supervisor. thoughts of existing scholarly community, and supervisor's personal beliefs about research, etc. There is a need to focuses on exploring the problems and challenges in finishing doctoral researches stress-free and full of knowledge and work.

Experience of doctoral students' of problems varied according to the nature of research work, their subject and environment. Most often problems are related to self-motivation, and understanding self-value, therefore more attention should be focused on generic work processes in developing the pedagogical practices in doctoral students. You need keenness, sanguinity, confidence and commitment to finish a long doctoral project.

Hence, positive thinking can be considered the earliest step which may help to overcome difficulties such as the Lack of motivation, Lack of selfconfidence, etc. It is always good to prepare a plan and keep track of mile-

To overcome the above problems, one need to spend time to plan, prepare a time chart to finish the tasks and try to achieve the goals on time. If you feel that your research is wandering, refocus on your main objectives by discussing with your supervisor or rewriting your research proposal or take a short break. Many times, it is also found that difficulties may occur due to lack of communication between a supervisor and a PhD student. This relationship is one of the pillars on which Doctoral researches are constructing. An effective communication with supervisor can create miracles.

You have to get background information on your topic by study and learn constantly to know more about your topic. It would help you to narrow a topic or focus your thesis statement, offer alternative or additional keywords, provide alternative points of view, Identify pros and cons on an issue and give you statistics to support an argument.

Reference databases include academic essays, biographies, primary sources documents, news transcripts, scholarly research, handbooks, subject encyclopedias, images, and more are also helpful to understand the topic. They provide background information, overviews, controversies, chronolo-

only doctoral degree; you'll always feel

How to overcome the challenges

gies, statistics and more. You may even choose to use reference databases to find "hot topics" for your research. Always manage your information. Create a citation list of all vour resources. Good documentation is necessary to avoid plagiarism. Many databases have citations tools that create citations in several styles, such as APA and MLA, then allow you to copy and paste the citation.

Never drop any opportunity of support you find from anyone anytime to understand anything about your research. Relations between you and your supervisor should always be good. You also need to understand that your comfort zone is limited and you have to come out from that. Learn continuously and never fear to be train as a researcher, understand what is required and know where and how can you find the solution and support? Also, try to do something beyond your capacities.

If you are facing problems related to supervision and the scholarly community, you need to create your learning environment more positively, and never lack of interest. Scholars may also feel financial obstacles. To overcome this, go for scholarships provided by many Government and private agencies. You may search them on Internet.

A relationship exists between problems with withdrawal from doctoral degree. Research scholars may feel stress and suffer more often from anxiety and exhaustion than other students. The can be overcome by creating positive environment only. Supervisors have also to focus on the study plans and encourage students to consider seriously their aims in doctoral studies. An extremely structured research work always has less space in becoming heterogeneous, more innovative and creative strategies, which may require due to novel amendments in the areas.

## **Challenges** in Doctoral Research **Studies**

articles in research communities over Internet and good research journals. You should have to acknowledge your achievements and take understand your competencies. The next important task is to stretch you by trying out innovations. Lacking of confidence will affect your professional capacity. Other common problems are Poortime management, Lack of focus or direction, Limited support, Stuck in your comfort zone, Fear of failure/taking risks and Lack of relevant experience. Problems related to supervision and the scholarly communities are also seen usually.

#### Final Remarks and Conclusion

Apart from the above many other challenges are rising to develop the quality of research, its purpose and value. Such as, appearance of immerging doctoral programmes; better research careers; development of generic skills and inter-disciplinary studies: originality of the thesis; revision of supervisor due to his/her competences and responsibilities; the deadline; training programmes, etc. Keeping in mind the continuous development in the subiect areas, which may create new challenges, it is necessary that doctoral research and supervision are regularly reconsider, also training are always require which can provide contents and hands-on practices on reallife working.

## **Empowered Youth: Empowered India**

Independence Day is celebrated with great solidarity and splendor, fervent zeal and deep patriotism. On this day, we are reminded of the heroic stories of freedom struggle for independence. There have been innumerable heroes who sacrificed their life for our freedom. Many of them remain our unsung heroes whom we do not even know. On this Independence Day, let us remember to salute them and pay our tribute and homage to these legends of our country. It is their sacrifice and vision that has pushed us ahead to come a long way on the path of progress and development. India's rich history urges us to continue to march ahead with head held high towards great advancement and progress.

Today, India is considered as the largest democracy and one of the biggest education systems in the world. Indeed. India has a great future ahead as it is blessed with more than 50% of its population, below the age of 25, making it the youngest country in the world. With this amount of human resource available, there is a huge challenge before us to channelize this energy in making India a fully developed nation with leaps and bounds progress in improved socioeconomic prospects. Our Hon'ble Prime Minister, Shri. Narendra Modi, in his address to the nation on Independence Day last year introduced two concepts namely, 'Make-in-India' and 'Skill India' which would accelerate the economic growth by generating employment, skilled manpower and wealth in the country and take India to greater heights. India has the greatest asset – the youth power and this power can

work wonders. It is said that the greatest

wealth of any nation is its youth. Having over 65% people under the age of 35 years makes India a massive powerhouse of human resource in the world. The future progress of India will completely depend on harnessing the youth energy to bring about significant productivity. The energy within our youngsters is like dynamite and if this energy is channelized, India will be among the superpowers of the world in all segments. The empowerment of youth both in urban and rural areas will shape a sustainable future for our country. The words of Kofi Annan, 7th Secretary General of the United Nations are apt: "Young people should be at the forefront of global change and innovation. Empowered, they can be key agents for development and peace. If, however, they are left on society's margins, all of us will be impoverished. Let us ensure that all young people have every opportunitv to participate fully in the lives of their societies."

The quality of human resource is the core of development. In this light, it is mandatory that both private and public sectors invest prudently in empowering and skilling vouth and equipping them to compete on a global platform.

Every educational institute at their level has the responsibility to inspire, energize and strengthen the youth to take up the global challenges in their own stride. Studies indicate that 21st century employers expect employees to possess critical and creative thinking, collaborating, communicating, Media Literacy, Technology Literacy, Social Skills, Leadership, Team work, responsibility and practical application skills. Our youth need to be provided a right platform and a suitable environment to acquire these skills and apply them in real life situations. Equipping our youth with vocational and specialised training in agriculture, various trades and small scale industries will increase the productivity in the coming years. Dr. A.P.J. Abdul Kalam, the "Missile Man" of India had a great vision 'India 2020' to transform the nation into a developed country with talented manpower. He has left a beautiful message for our youth. "My message, especially to young is to have courage to think differently, courage to invent, to travel the unexplored path, conquer the problems and succeed. These are great qualities that they must work towards." He wished that every Indian changed her/his thinking from "what can I take" to "what can I give" to make India competent among the nations of the world.

This Independence Day, the inspiring lives of our freedom heroes together with the visionaries of our country exhort us to fight against poverty, illiteracy, corruption and exploitation and aspire to lead the country become a world giant mainly in spheres of socio-economic progress, education and

## Mahindra Group hands over 3784 toilets under the Swachh Bharat

**Udaipur:** In the first week of completed its target and hand-August 2015, The Mahindra Group successfully implemented its promised Swachh Bharat:Swachh Vidyalaya (SBSV) program when it completed construction of toilet blocks in schools at 1171 locations earmarked for this purpose by the Ministry of Human Resource Development (MHRD).

"The Mahindra Group has

ed over 3784 toilets under the Swachh Bharat:Swachh Vidvalava (SBSV) Program. These toilets are spread over 1171 locations across 11 states and 104 districts," said Rajeev Dubey, Group President (HR & Corporate Services) and Member of the Group Executive Board, Mahindra & Mahindra Ltd. "In addition, over and above the target, we are in the

process of handing over a further 556 toilet units over the next few days, which will make a grand total of 4340 toilet units."

Swachh Bharat:Swachh Vidyalaya is the national campaign driving 'Clean India: Clean Schools'. A key feature of the campaign is to ensure that every school in India has a set of functioning and well maintained water, sanitation and hygiene facilities.

### Sun College of Management Science, Udaipur to offer US CMA in partnership

Udaipur: Sun College of Management Science, are nowned educational institute in Udaipur, will now offer the US CMA to its graduate and undergraduate students in partnership with Miles Professional Education, the official training partner of IMA (Institute of Management Accountants, US) & Wiley in India. As part of the partnership, the students of Sun College of Management Science will pursue US CMA certification using Wiley CMAexcel Learning System-the IMA's official test prep suite, and the training would be delivered by Miles Professional Education.

motivated and confident. You may get positive feedback by sending research

Management Accountant) awarded by IMAUS, is a global professional qualification. The CMA program is designed specifically to validate mastery of the advanced skills required to manage finance functions within an organization, enabling professionals to deliver value in today's complex business environment. This certification empowers students & professionals with skill-sets for global credibility and opportunities with multinational corporations. The US CMA can be achieved in a relatively shorter timeframe as compared to equivalent Indian certifications.

The partnership between Sun College of Management Science & Miles Professional Education is part of IMA, Wiley and Miles' India plans to create a talent pool of young CMAs in India. The objective of this partnership is to help accounting: finance & commerce students in Udaipur pursue the US CMA course along with their graduation or postgraduation. The partnership aims to help students take their careers to the next level with this globally-recognized US certification comprising only 2 exam parts, which can be cleared with preparation over 6-8 months.
