Udaipur: A proposal with layout of the film city was presented to UIT chairman Ravindra Shrimali and mayor Chandra Singh Kothari. The idea is to let the UIT and municipal corporation plan a budget and identify land for the film city. The layout was submitted by the Rajasthan Film Committee. It may be recalled that Rajasthan line Producer Mukesh Madhvani, Anil Mehta, Santosh Kalra and Dinesh Gothwal are working hard for setting up film city in Udaipur. They asked mayor and the chairman to allot land for the film city to setup.

## First Successful Aortic Aneurysm Operation in Southern Rajasthan

Udaipur: Geetanjali Medical College & Hospital has been a boon for the successful operation of aortic aneurysm in recent times. The two recent operations operated are the success cases for the first time in Southern Rajasthan and that too in Udaipur's Geetanjali Hospital.

Geetanjali Cardiac Centre's Cardio Thoracic & Vascular Surgeon Dr. Sanjay Gandhi, Neuro & Vascular Interventional Radiologist Dr. Seetaram Barath and Cardiologist Dr. Ramesh Patel successfully treated a 58 years old female which was having a deadly aortic aneurysm. The operation team includes Cardio Thoracic & Vascular Surgeon Dr. Reenus Demel, Cardiologist Dr. C.P. Purohit & Dr. Harish Sanadhya, Cardiac Anesthetist Dr. Ankur Gandhi, Dr. Kalpesh Mistry, Dr. Manmohan Jindal and Dr. Dharamchand.

Dr. Sanjay Gandhi said that the patient Santosh Devi (Age 58 years) was suffering from high BP since 10 years. She came to hospital with complaint of headache, bleeding from nose and back ache. On investigations she was found to have a dissection of the descending thorax aorta with aneurysm measuring 65 mm which normally is 2 to 2.5 mm. This aneurysm could rupture anytime leading to torrential internal bleed and sudden death of the patient. On discussion with family relatives about the disease and complexity involved, the relatives decided for further treatment in Geetanjali Hospital only. There were two options available for the treatment of the patient. One was Hybrid Endo Vascular and other was open surgery. Since open surgery involves more risk to life it was decided to operate the patient from Endo Vascular procedure which lasted 3 hours. In this procedure a major artery from groin was exposed to surgical and through this a large aortic stent was put inside the dissecting aneurysm and the aneurysm was excluded from the main lumen recovering the patient very well.

In other case, a patient of 55 years of age was treated from ruptured aortic aneurysm. The team members were Cardio Thoracic & Vascular Surgeon Dr. Reenus Demel, Cardiac Anesthetist Dr. Ankur Gandhi, Dr. Kalpesh Mistry, Dr. Manmohan Jindal and Dr. Dharamchand, Nephrologists Dr. Gulshan Mukhiya & Dr. Sandeep Morkhandiker.
