

## Convocation Ceremony for MSME businessmen

**Udaipur:** Renowned entrepreneur coach and founder promoter of Indian Institute of Learning and Development (IILD) Pravin Daryani was in Udaipur for the convocation ceremony of 250 MSME businessmen graduating from IILD's flagship training program 'SPEED'.

Addressing the congregation, Mr. Daryani summed up the underlying essence of SPEED: when a business hires the right people, brings processes and workson strategies for planned growth, revenue growth is guaranteed. The graduating participant businessmen were overwhelmed by the royal presence of the pantheon of illustrious Chief guests: His Excellency Former Governor of Chattisgarh Dr. Shekhar Dutt and Prince of Mewar Maharaj Kumar Lakshyaraj Singh. Speaking highly of the growth trajectory India is witnessing right now, the speakers addressed the MSMEs on how they must realign and recalibrate to gain from this sweeping transformation and take their businesses to the next level. The ceremony was organized for the entrepreneurs from MP, Gujarat and Maharashtra to felicitate them on successful completion of IILD's training. Hosted at Ananta Resort, Udaipur on Monday, the gala event reiterated the contribution of the MSME sector in the country's economy.

## Power of Renewable Energy learnt

**Udaipur:** The team of students studying at the Faculty of Management of the Pacific University visited the Renewable Energy Plant located at Mount Abu as its Industrial Visit Program and known about solar energy and wind power.

Dean Pro. Mahima Birla told about the importance of Renewable Energy At present, most powerful generation is being done using coal. However, coal will end in the coming years. Therefore, it is necessary to develop such resources which have power generation, but they will never end. That is why the energy produced by solar power and wind power is called renewable energy we know that sunlight and wind will never end. Efforts are being made to increase the maximum renewable energy production in India and throughout the world.

She informed that keeping in view of today's scenario, students of the Pacific Faculty of Management have formed a Renewable Energy Club. This industrial visit was organized as an activity of the club. Today, the Akshaya Urja Sector is a major sector for the job and its practical knowledge is obtained by MBA. Students will be able to get a job after completing the course.

During the visit, the students visited the Wind Energy and Solar Power Plant set up at Mount Abu and learned about its functioning and administrative requirements related to the operation of such a plant.

The students who visited the visit said that this industrial visit was very useful to them and they got an opportunity to get important information about the occasional area like renewable energy. 66 students of the school along with faculty Dipin Mathur, Narendra Chawada and Ali yaver Raha were part of the visit.

## GPIL Recruits Three B.Tech Students

**Udaipur:** GITS is proud to announce the selection of a total of 11 B. Tech students in Genus Power Infrastructures Ltd. during the campus recruitment drive. 3 B.Tech. (ECE) students were recruited to the post of Embedded Engineers at an annual package of Rupees 2.4 Lakhs, and 8 students of Electrical Engineering were selected as Apprentice Engineers in the same organization.

Three students from ECE, Ms. Bhumika Soni, Ms. Neha Suthar and Mr. Nishant Soni, along with 8 other students of Electrical Engineering were recruited. The Director, Dr. Vikas Misra, and the Finance Controller, Mr. BL Jangir congratulated the students and advised them to work with full efficiency, diligence and integrity for their better future and make their families and college proud.

# Future Of The Paper Industry Is Bright

**Udaipur:** Harshpati Singhania, managing director of JK Papers Limited said that despite the many challenges, the future of

the paper industry in the country is bright. Long-term changes and their impact of the country's economic

reforms are certain. The fundamental elements of the Indian economy are strong and have the potential to grow

at the fastest pace in the world. There will also be changes in the level of business and education levels. In such scenario, the demand for paper in India is most likely to grow. GST is good for everyone and everyone should support the government by following it. There are also possibilities of a reduction in GST rates in the coming times.

These thoughts were shared by Shri Singhania in two-day whole sellers conference. The conference was also attended by company's full time director O.P. Goyal, president A.S. Mehta, and other office bearers more than 250 whole sellers participated in the conference. Dr. Tuklat Bhanawat,

representative of Udaipur, told that in his welcome address Shri Singhania said that paper import is the biggest challenge. We should promote indigenous paper. He further added that Plantation not only improves the environment but also provides employment to a lot of people. The paper industry is job oriented and the livelihood of the people in large quantity runs through it.

President A.S. Mehta said that the market is going through uncertainty right now. We all have to counter this. Paper industry is growing at the rate of 6-7 percent in the country. In the era of computer, the paper industry is growing on other industries and has been

stabilizing. Mr. Mehta said that pollution is less in this industry compared to other industries. Over 1 lakh tons of detergent is produced across the country, which eventually dissolves in water while the paper industry preserves pollution.

As far as wood is concerned, only 7% of the timber is used in the industries, only 3% of it is used in wood papers, 93% of the timber is used for cooking like kitchens etc in villages etc. It has been made that the paper industry is going to its end woods using wood. The welcome speech was given by Rajesh Kapoor. While vote of thanks was delivered by Manoj Agrawal.

## Idols of Freedom fighters in Pratap Gaurav Kendra

**Udaipur:** Idols of freedom fighters will grace Pratap Gaurav Kendra. The gallery will display the contribution of these martyrs in India's independence.

The land of Mewar is well known for its valour and courage. No other historical incident can beat the contribution of fighters from Mewar. Many incidents contribute to enhance the feelings of bravery, patriotism and social welfare. These have been brought to life in Pratap Gaurav Kendra.

The gallery in this centre that inculcates feelings of pride by the name itself, displays idols of various freedom fighters sacrificed their lives while fighting against the Britishers. These idols are made of fibre. There are 22 idols each bearing name along with date of birth and date of martyrdom. Their slogans and contributions have also been mentioned. This will throw light on their contribution and make it easy for the tourists to understand better.

The gallery is dedicated to the sacrifice of all the freedom fighters who fought for and laid down their lives between the revolution of 1857 and Indian independence in 1947. The gallery was inaugurated by Prime Minister Modi on his recent Udaipur visit on 29th August. The idols on display are of Subhash Chandra Bose, Ashfaqulla Khan, Chandra Shekhar Azad, Bhagat Singh, Sukhdev, Rajguru, Hemu Kalani, Mangal Pandey, Taty Toppe, Ram Singh Kuka, Birsu Munda, Vasudev Balwant Phadke, Bal Gangadhar Tilak, Damodar Chaphekar, Bal Krishna Chaphekar, Vinayak Savarkar, Khudiram Bose, Madan Lal Dhingra, Maharishi Arvind Ghosh, Udhham Singh, Dr. Hegdewar and Ram Prasad Bismil.

Land of Mewar bows to all these freedom fighters and wants the world to remember them forever. The gallery will bring to life the contribution of these freedom fighters even for generations to come. Their contribution can never be forgotten.

## Ahar river beautification : first phase from Gandhi Jayanti

**Udaipur:** Home Minister laid out the first phase planning for beautification of Ahar river in meeting held at collectrate meeting hall on Saturday in front of officials and public representatives of udaipur.

Kataria said that in the first phase, the portion of Pullah to Thokar chaurah would be taken About two and a half km long part of river cleaning of bushes etc. will be taken so that original form of river be restored. For removing the bushes from roots will strictly be monitored so that they can not flourish again. In this work, cooperation of various government agencies, as well as private institutions, will be taken. The work is scheduled to begin on 2nd October ie Gandhi Jayanti.

Kataria said that in the next phase, the flow of river, along the banks of the park and pedestrian, trek etc can be

done, for which the plan will be made later.

On Sunday, a team of technical experts examined this part of the river and outline the work of cleaning.

The meeting was attended by May or Chandrasinh Kothari, UIT Chairman Ravindra Shrimali, District Collector Bishnu Charan Mallik, ADM Subhash Chandra Sharma and CR Darasee, other than officials UCC President Hansraj Chaudhary and representatives of industries like Miraj, RK Marble, Wonder Cement, Hindustan Zinc etc were present & shared their views..

**Work to be distributed in different sections**

Kataria said that the technical expert should mark this part of the river in small blocks, after which these segments should be handed over to different agencies. This will break the work and it will be possible to

work in less time. He said that the common man will also be motivated to cooperate in this work. UCCI Chairman Chaudhary said that work should be done by putting machinery together, all the agency or industry will work together.

**The lost glory of the historic river is to return**

Kataria said that the Ahar river witnessed the ancient civilization & historical impor-

tance, its lost glory must be restored so that the tourists may return with memories of ancient mewar.

The Home Minister suggested that a committee of dignitaries should be constituted so that priceless suggestions for vision 2030, be incorporated in upcoming schemes. In this committee, senior citizens as well as experts from various fields should be included minister concludes.

## Google Applied Computer Science with Android Program @ Pacific

The Android Club was established in department its main purpose is to work on the problems of various sects of daily life and develop related mobile applications. Over 200 engineering students participated in the program along with faculty members.

## In-appropriate parking charges @ UDZ

**Udaipur:** Visitors in most of places in Udaipur are facing the problem of in appropriate parking charges. at Udaipur railway station inappropriate parking charges are being taken by the parking mafia right outside the railway station.

It has been pointed out that even airport authorities do not levied a parking fee for the initial 8 minutes. If you are simply going to drop or pick someone at the airport, no charges are levied. But the city railway station parking mafia are taking undue charges from the vehicles in the parking lot. You need to pay even if you are simply waiting outside the city station. This is very troublesome for the families of the travelling passengers. Dropping someone at the railway station has become a pain...blame it on parking mafia.

When opposed, the parking contractor's staff even misbehaves with the public. Parking fee for a two-wheeler is 5 rupees and that of a four-wheeler is 10 rupees. Against this, some of the parking staff charges double the amount of this fee. Though the matter was reported to the Railway management, no action has been taken in this direction so far. The attitude of the parking attendant towards the tourists is also not appreciable. They charge more than double the fee for tourist vehicles.

Atul Shrivastav divisional commercial officer of Ajmer Railways said, there is no parking charge applicable outside the station if a vehicle is parked for less than 10 minutes. If anyone does so, it will attract a penalty of 2000 rupees. He also said that Anyone can park their vehicle for a very short time (less than 10 minutes) need not pay any parking fees.

## Khelgaon in pathetic condition

**Udaipur:** Khelgaon, the most wanted destination for sports lovers is in a pathetic condition post PM's visit. It has been left completely ignored and looks more like a site left barren after use.

Administration made all the efforts to make Khelgaon look like one of the most well developed sports centre in Lake City. It was repaired, cleaned and made to appear as a high tech sports arena under construction (which it is supposed to be). Post PM's visit, admin has just ignored it like it was a load on their shoulders. Shrugging off the sports area Khelgaon's condition, Home Minister Gulab Chand

Because of rains, athletic track is completely a gone case. It is in such a bad shape that people cannot even run on it. Since a helipad was made, the ground is lying half constructed and pits can be seen almost everywhere.

The drain (naala) is left open and all the waste is coming into the Khelgaon ground. Temporary toilets are still lying uncleaned. The stench is unbearable. The extra gates of ground have not yet been closed as result of which animals keep entering. A lot of scrap and other waste material is lying scattered making it difficult for the players to go ahead with their practice. Some drains were made so that water doesn't enter the ground. Those drains are still lying open. Piles of dirt are still on the ground. Basically everything that needs to be taken care of has been left ignored. The point is that all party leaders and officers are not worried about anything anymore. Khelgaon needs to be developed at the earliest for the benefit of public. It will also add to the city's place on tourist map. But if it lies ignored and works are done only at the arrival of some famous personality, it will create a blotch on the city's reputation.

## MPUAT to host International level "GRAM" in November

**Udaipur:** After the successful hosting of Education festival and Digital festival, state Government has chosen Udaipur to host this year's Global Rajasthan Agriculture Meet (GRAM).

The meet is to be organized in MPUAT from 7-9 November this year. This meet has earlier been organized in Kota and Jaipur.

GRAM is expected to host experts from 6 countries. Farmers from all areas will be provided information about latest techniques in the farming domain. Special techniques will also be put up on display during the event.

Administration has already started preparations for the same and a team headed by District collector Bishnu Charan Mallick, UMC Commissioner Siddharth Sihag, MPUAT registrar Priyanka Jodhawat and MPUAT VC Umashankar Sharma held preliminary discussions for the same.
