

Entertainment, Business & City Round Up

Our own Ecosystem

After more than four decades, we have even Jaisamad full to its capacity, congratulations Udaipur. Now, this is the time to celebrate and ensure we get an opportunity to celebrate every year. Lakes, gardens, the entire natural beauty of the city is passing through a delicate stage. If the ecosystem is not nurtured now, we might never see these wow moments in the future which we do not want to happen, right!

The ecosystem of a lake is formed by living beings and plants of the Lake. And the balance of these elements is very important for the survival of the system. Today's pollution has made an adverse effect on the entire ecosystem of the lakes in Udaipur which is a worrisome thing.

Not diving deep into technicalities, the need is to find a solution to at least stop all the mess being put into these lakes. These lakes are the lifeline of the Udaipur which caters to the daily living of more than 60 percent of the population of the city. So, the drive and desire to clean these lakes and maintain that cleanliness in order to save the ecosystem is not just an endeavor towards humanity and nature, it also caters to the larger need to the survival of the city and its people.

The ultimate blame that used to fall on the head of people of Udaipur who used to visit these lakes and end up throwing waste is now becoming an empty and toothless argument. The citizens have got the awareness and now are ensuring no pollution is done by them. The practice of throwing waste in bins is catching up fast. So, even if now the ecosystem falls into any peril, authorities will have to answer, for sure.

What we see today is the legacy of our ancestors. But we are not doing the same. Of course, we are going to leave the footprints of our existence but that might not make or kids proud. They might see some empty and perhaps encroached holes deprived of any water drop. It sounds like not-my-job but it affects us all. Even if one person is polluting the lakes, he is actually throwing a stone in the water which creates a ripple effect. Everyone will see and hear.

It's not just about the entire system, the city as a whole, or taking the onus to change the world on your shoulder, it's more about doing your part. If you cannot help in cleaning a lake, ensure you do not pollute it at least. In any form, through any means, you need to contribute. A lake's ecosystem also depends on the availability of water and rain. If you are unable to do your bit for the lake, plant a sapling or simply save a tree from being cut.

This way you will be helping clean the environment and to ensure rains in the future as well. And all this is not for anyone else, this needs to be done for yourself. You need water to drink, clean air to breathe, and rain to survive.

This oxygen comes from a tree that was planted years ago by one of our ancestors. Have we done our part to thank them for this noble gesture of them? You do not need to find the planter and say thank you. You can't even find one. What you need to do to thank them back just plants at least two or more saplings and nurture them until they become independent. This way you act in three-ways--You thank your ancestors, you grow your own oxygen, and you leave a legacy for your children.

Planting a tree, maintaining the ecosystem, avoiding pollutions are some of the small efforts we all can do to save the environment we live in and depend on.

First song of the romantic musical album 'Heeriye' concludes

Mumbai: Jai Sairam's upcoming Romantic Musical Album 'Heeriye' had a grand launch on 12th September 2017 at Asia Music Vision studio, Andheri (West), Mumbai with a song recording, with the voice of Rajnikant Yadav, the versatile singer from Varanasi. This Hindi Musical Album is produced & Directed by Jeetendra Srivastav. The romantic song, "Tujhse yun jo Nazare Milti, Jaane kyu Hosh Udne Lage..." was penned by Rajnikant Yadav under the musical composition of Pawan Miradpuri.

There are five songs in this album. It's producer-director Jiteendra Srivastav had earlier produced film 'Life Mein Twist Hai'. The video album will be shot in Khandala, in which actor Chandan Rane and actress Sheetal Suresh Kale will be seen in romantic pair on screen.

In this, cameraman is Rajesh Kannoja, dance director is Ravi Balmiki (RB), production designer is Shatrughan Paswan, Executive producer Deepu Yadav, Costume designed by Vidya Maurya and Editor is Parag Khaound, etc. On this occasion, Babita Thakur and Virendra Yadav made their presence felt as the guest.

Sarika Plays Rag Role

National award winner Sarika will be seen in Om Puri's last film Mr Kabaadi where she she plays rag picker. Written and directed by Om Puri's first wife Seema Kapoor, Mr. Kabaadi is a satirical comedy that shows what happens when a 'kabaadiwala' or a scrap dealer becomes rich, how he flaunts his wealth...to be like other millionaires how he changes his wardrobe, trying a different accent and expanding his business.

The film has a power star cast that also stars Annu Kapoor, Vinay Pathak, Sarika, Bijendra Kala, Kashish Vora, Ulka Gupta, Rajveer Singh among others. Interestingly, it is Satish Kaushik who has completed the dubbing for Om Puri's unfinished portions. The film is made under the banner of Anup Jalota Films, Om Chhangani Films and Sadhna TV. Rakesh Gupta, Dinesh Gupta and Om Chhangani are co producer of the film. The film released recently is getting great reponse from audience all over India.

Do Bigger Things: Samsung Galaxy Note 8 With Bixby Capabilities

Udaipur: Samsung Electronics launched its flagship smartphone Galaxy Note8 in India, offering the next level Note for people who want to do bigger things. Samsung will also introduce Bixby Voice capabilities with 'Make for India' innovations in its intelligent interface Bixby in the next few weeks. Bixby will be available on Galaxy Note8 and Galaxy S8 & S8+ devices. With Galaxy Note8, consumers get a big, immersive Infinity Display that fits comfortably in one hand, S Pen to communicate in more personal ways, and Samsung's best-ever true Dual Camera with dual Optical Image Stabilization (OIS) to capture stunning photos in all conditions.

The incredible Note series loved by millions of consumers in India will also come with the revolutionary mobile payment service, Samsung Pay, and Samsung's defense-grade security platform Samsung Knox, making it the most desirable smartphone available in the market. Galaxy Note8 is designed for the way consumers lead their lives and lean on technology today.

Mr. HC Hong, President and CEO, Samsung Southwest Asia, said, "India loves the Galaxy Note for the infinite possibilities it offers with its big screen, unique S Pen and multi-tasking capabilities. I take this opportunity to thank all our consumers in India who have made Samsung the Most Trusted Brand, especially those who have patiently waited for their next Note. This time, we have made the Galaxy Note8 bigger and better and added 'Make for India' innovations that will transform lives yet again. Galaxy Note8 lets people do things they never thought were possible." "Galaxy Note8 with its stunning Infinity Display, enhanced S Pen and a true Dual Camera, is designed for those who want to do bigger things. At Samsung, we listen to our consumers and bring in meaningful innovations that help make their lives better. With this launch, Samsung will further consolidate its leadership in the premium smartphone segment in India," said Mr. Asim Warsi, Senior Vice President, Mobile Business, Samsung India.

India Loves Note Samsung pioneered a new category of smartphones with the Galaxy Note launch in 2011. Since then, a community of enthusiasts emerged through their affinity for Note's signature expansive screen and S Pen. According to Samsung market research, 87% of Note users say they are satisfied with their Galaxy Note and 82% would recommend it to friends. See More, Do More on the Infinity Display Galaxy Note8 has the biggest screen ever on a Note device, yet with superior engineering and design, it comfortably fits in one hand. The 6.3-inch Quad HD+ Super AMOLED Infinity Display lets you see more and scroll less. Galaxy Note8 gives you more room to watch, read and draw-making it the ultimate multitasking smartphone.

Note users have long been able to do more with Multi Window. With Galaxy Note8, the App Pair feature lets you create a custom shortcut on the Edge Panel to simultaneously launch two frequently used apps and invoke them with ease. So, they can watch a video while messaging friends or dial into a conference call with the number and agenda in front of them. 2. S Pen: A Smarter Way to Express Since its introduction, the S Pen has been one of the Note's defining features. With Galaxy Note8, the intelligent S Pen unlocks entirely new ways to write, draw, and interact with

the phone and communicate with friends. It has a finer tip, improved pressure sensitivity, and features that enable users to express themselves in ways that no other stylus or smartphone ever has. Live Message on Galaxy Note8 allows you to tell expressive stories and you can now share animated texts or drawings across platforms that support GIFs. It's a whole new way to communicate with the S Pen-adding lively and emotional connections that bring your messages to life. The Always On Display allows Galaxy users to stay on top of their notifications without unlocking their phone. And with Galaxy Note8, it's even more powerful. Galaxy Note8's

Screen off memo allows you to take up to one-hundred pages of notes, without even unlocking the phone. Users just need to remove the S Pen and jot down notes, pin them to the Always On Display and edit directly from the Always On Display, letting users, including professionals, do what other smartphones can't. The improved S Pen acts as a personal translator and convertor-just hover over text to quickly translate not only individual words, but entire sentences and get the output in up to 71 languages, or instantly convert units and foreign currencies. **Picture Perfect Moments with True Dual Camera** Samsung set the standard for

smartphone cameras and with Galaxy Note8, we're delivering our most powerful smartphone camera yet. The rear camera on Galaxy Note8 comes with two 12MP lenses-wide angle and telephoto-and both are equipped with Optical Image Stabilization (OIS) for sharper photos and videos-an industry first feature. For more advanced photo-taking, the Galaxy Note8's Live Focus feature lets you control the depth of field by allowing you to adjust the bokeh effect in preview mode and even after you take the photo. In Dual Capture mode, both rear cameras take pictures simultaneously-one close-up shot from the telephoto lens and one wide-angle shot that shows the entire background. The wide-angle lens continues the legacy of the Dual Pixel sensor with rapid Auto Focus so you can capture sharper, clearer shots even in low-light environments. Galaxy Note8 is also equipped with an industry-leading 8MP Smart Auto Focus front-facing camera for sharp selfies and video chats. In another special launch offer, consumers who purchase their Galaxy Note8 using an HDFC Credit Card will get a cashback of INR 4,000.

Get Full Talktime, Every Time You Recharge With M-Pesa

Udaipur: Vodafone M-Pesa India has rolled out a unique proposition for pre-paid customers - 'Every time, full talktime' in Rajasthan Circle. Vodafone prepaid customers can avail full talktime benefit on recharges from Rs. 30 to Rs. 200, exclusively on Vodafone's mobile wallet service, M-Pesa. What makes the offer more attractive is that there are no limits to the number of times a customer can avail this offer. One can recharge multiple times in a week or even in a day, making every recharge a full talktime recharge.

Any individual can download the M-Pesa App for free and recharge anytime, anywhere, on the go, through the app to avail this offer. The 'every time, full talktime' offer is also available on recharge through USSD by dialing *400#. Existing Vodafone M-Pesa customers in India can also enjoy full talktime through this offer. With additional talktime benefits ranging from 18-25% of the recharge amount, customers can have huge savings on their mobile recharges with this exclusive offer, only through M-Pesa. Inviting Vodafone customers

to get the best value for their recharges, Mr. Amit Bedi, Business Head- Rajasthan said, "As a company that has consistently brought innovative and better value offerings to ensure an enhanced customer experience, we are happy to present the 'every time, full talktime' recharge offer through M-Pesa. Customers are increasingly moving towards mobile wallets and we see many of our customers purchasing mobile recharges instantly and conveniently through our M-Pesa app. With this offer, we are rewarding every mobile recharge

above Rs 30, made through the M-Pesa App with Full Talktime benefit to our customers can make more calls for the same amount." With a pan-India distribution network of close to 140,000 agents and with more than 16.4 million customers, M-Pesa is the largest banking business correspondent in the country. Vodafone is driving financial inclusion amongst the unbanked and underbanked community through various tie-ups across the country. In Rajasthan, Vodafone M-Pesa has a network of more than 8000 agents.

Airtel launches VoLTE; services go LIVE

Udaipur: Bharti Airtel ("Airtel"), India's largest telecommunications services provider, today announced the launch of its Voice over LTE (VoLTE) services in Mumbai. Airtel VoLTE, which works over 4G, will offer customers HD quality voice calls along with faster call set up time. Airtel VoLTE will be available on popular 4G/LTE enabled mobile devices, which must have a Airtel 4G SIM. Customers can call any mobile, landline network using Airtel VoLTE. There will be no additional data charges for VoLTE and calls will be billed as per existing plan or packs benefits.

What truly differentiates Airtel VoLTE is the seamless connectivity enabled by Airtel's wide 4G network coverage. Even in the case of non-availability of 4G, Airtel VoLTE calls will automatically fall back on 3G/2G network to ensure that customers continue to stay connected at all times. Airtel VoLTE will also allow customers to continue with their data sessions at 4G speeds while the call is in progress.

Abhay Savargaonkar, Director - Networks, Bharti Airtel said, "This is a significant milestone in Airtel's network transformation journey under Project Leap. Airtel has built a world-class 4G network across India and with the VoLTE compatible device ecosystem beginning to mature, we believe it's the right time to enable VoLTE calling as part of our service portfolio. Over the next few months, we will rapidly accelerate the deployment of VoLTE to cover all key geographies to bring HD quality calling to our customers. We keenly look forward to our device partners enabling Airtel VoLTE on their smartphones."

How to get Airtel VoLTE:

- 1. Check mobile device compatibility at www.airtel.in/volte. Airtel has tested and certified popular device models for VoLTE compatibility. More models will keep getting added to this list.
- 2. Upgrade the mobile device's operating software to the latest version that supports VoLTE. This update is provided by the handset manufacturer.
- 3. Ensure the device has a Airtel 4G SIM. Customers can upgrade to the 4G SIM by visiting the nearest Airtel store.
- 4. Enable VoLTE by following instructions on www.airtel.in/volte. Customers with Dual-SIM handsets have to ensure that the Airtel 4G SIM has been inserted in the data SIM slot/slot 1 and network mode has been set as "4G/3G/2G (Auto)". Some of the popular device models compatible with Airtel VoLTE - iPhone SE / 6 / 6plus / 6S / 6S plus / 7 / 7plus; Samsung J700 / A800/J2 Pro/J2 2016; Xiaomi MiMax Prime / Redmi Note 4 / Mimax / Mi5; Gionee A1, Oppo F3 plus.

GKTecvision prototype of Vedic Wisdom

Telangana: GKTecvision Private Ltd, is a prototype of country's wider vision and perspective and imparts Vedic Wisdom. It is inclusive of all those ideals and philosophies which Indian Constitution represents and is constructively promoting them while delivering services to their clients. The company's thinking prowess and working methodology can be seen and assessed through their well-structured website www.gktecvisionpremium.com . The website is an ensemble of Vedic wisdom which is required for systematic working and maintaining calmness while performing in varied situations and atmospheres in a culturally diverse country like India. The website maintains regular blog pages which imparts knowledge and delves into deep thinking as well as purpose of meditation for achieving consistent success and yet not get affected by it. With the launch of the website, com-

pany is trying to provide solution to discords that arise while working towards the same goal. Kiran Karnvati is an author and has recently added a newsletter on the website and published a book, Creative Intelligence, which talks about Inspiration. The book is available on various e-commerce portals. He is an alumnus of Prestigious Indian Institute of Technology, Madras (IIT, Madras). Kiran Karnvati, CEO, GKTecvision shared, "We have launched the company with the objective of spreading knowledge and literature of our old scriptures and Vedas. Indian Vedic literature is full of mantras which teach us how to deal with difficult situations and lead a calm life without getting influenced by the negative vibes floating in the air." The company truly recognizes constitutional problems that Digital India is confronting in the present time. Thus, it has

made an attempt to answer all the relevant questions and arising concerns occupying the mindset of Indians. It has further tried to bridge a gap between the government and the common public. The company management further elaborates that the main aim is to bring into lime light the true spirit of the national anthem. The aggression of any nature is simply discarded with the wisdom of great knowledge. To know more about the company, one can visit them on They are also available on Youtube: <https://www.youtube.com/watch?v=eN-uHCyDXh4>

BHIM app changes life of teacher from rural Rajasthan

Ramlal Chorasaya, a forty six year old teacher from Khandar block village, Sawai Madhopur, Rajasthan, is going around promoting the BHIM app to local residents as well as his students after the app made his banking lifestyle simpler. Mr. Chorasaya shares the benefits of this app with others so that they get encouraged to use it. Earlier GraminShiksha Kendra's school teacher, Mr. Chorasaya used to take leave and travel almost 40 km to deposit the cheque at the nearest branch. The cheque took four days to clear after reaching the Kota Zone. To his surprise, after downloading BHIM app he began transferring funds using UPI ID within few seconds. He no longer worries about remembering account number and IFS code which is otherwise necessary in case of other online banking funds transfer. The quick transfer of money through this platform provided by National Payments Corporation of India (NPCI) impressed him. BHIM app is very simple to use. Android users can download BHIM app from Google Play Store while iPhone users may find it from Apple App Store. Once the app is downloaded, one needs to select their bank a/c and set their UPI PIN using their debit card and start transacting with this app. One needs to remember two things while using it. Firstly, to link the mobile number to bank account and secondly, while transacting, the SIM card of the mobile number linked to the bank account should be used in the mobile handset. Using the BHIM app one can send as well as receive money without visiting the bank branch. The app is available in major regional languages. Users can browse through their phone contacts to select beneficiaries for sending and receiving money instantly. BHIM app has also made payment at merchant locations simpler by enabling 'Scan & Pay' feature through QR codes.
