Udaipur girl wins National Handwriting Olympiad

Udaipur: Mili Kansal, a student of Maharana Mewar Public School, did her school and the city proud by winning the first prize in National Handwriting Olympiad organized by Nickelodeon. She was awarded prizes worth Rs 60,000/-.

The 8th National Handwriting Olympiad was held in Indore this Sunday. Mili had earlier qualified to represent Rajasthan by securing the second position in the State in an earlier round. Mili won the Grand Finale in the "A" Category. The 9th-grade student was given gift items worth Rs 60000 as a prize along with a trophy and certificate. The prize included laptop, TV and other items of use for students.

Kota, 20 tribals from Naxal heart- land clear JEE

Kota: (K. Abbasy) Around 20 tribal students, including eight girls, from the Maoist-affected Dantewada district of Chhattisgarh, have cracked the Joint Entrance Examination (Main) 2018, thanks to coaching provided by a Kota-based institute under a government project.

The results of the JEE Main 2018 for admissions to undergraduate engineering and architecture courses, mainly in 31 National Institutes of Technology (NITS) and 23 Indian Institute of Information Technology (IIITs), were announced on April 30. Under the 'Choo Lo Aasman' project of the Chhattisgarh government, Career Point Institute of Kota provided coaching to 40 tribal students of Dantewada, of whom 20 have qualified for JEE Advanced.

Gayatri Dhruv (17), daughter of a police constable, has got All India Rank 5158 in the scheduled tribe category of JEE Mains. "There was no professional coaching facility available in Dantewada for IIT-JEE. The project 'Choo Lo Aasman' has come as a boon for tribal kids who are provided coaching at Dantewada," said Dhruv of Bijapur village, around 4 km from the district headquarters.

She has been taking free coaching from the Career Point's center at Dantewada for the last 2 years.

"Naxalites do not allow education to kids in the rural areas, so coaching for IIT-JEE was a dream for tribal kids like us," said Rahul Mandavi (20), who has got AIR 7000 in the ST category.

"Government has provided a bus for taking tribal kids for coaching to the 'Choo Lo Aasman' project center at Dantewada," said Mandavi, son of a government clerk from Chote Gudra village. Asked about the teaching experience, Ashutosh Kumar (26), a faculty member of the coaching institute, said, "When we were sent from Kota to Dantewada, we were initially scared of Naxal terror. Later we got adapted to it and are now comfortable here." Free coaching, he said, is provided to only government school students. Pramod Maheshwari, the chief executive officer of Career Point Institute in Kota, said the Chhattisgarh government signed a memorandum of understanding (MOU) with the institute to start 'Choo Lo Aasman' project a couple of years ago. The institute charges subsidized fees from the State government for coaching.

"The aim is to ensure quality education to the kids of Naxalite-affected areas and bring their families to the mainstream, and promote talent among rural kids," he said. "Our 14 faculty members and staff are staying in Dantewada."

'C' stands for 'Character' in CSR – 'Safety' should be part of CSR, Pavan Kaushik

Udaipur: Pavan Kaushik, Head - Corporate Communication of Hindustan Zinc, was awarded with 'CSR Person of the Year 2018' at India CSR – Leadership Summit in New Delhi held on 27th April 2018. The award was presented to him for his contribution towards road and industrial safety, through the campaign – "Be Safe-Surakshit Rahiye". The prestigious award was presented to Pavan Kaushik by Dr. Bhaskar Chatterjee, Former DG and CEO, Indian Institute of Corporate Affairs, and Rusen Kumar, Founder - India CSR Network & Summit. Recently Pavan Kaushik has also been awarded by Udaipur Chambers of Commerce with Mewar Entrepreneur Award 2018 for "Excellence in Communicating Safety for project – "Be Safe-Surakshit Rahiye". The man with the mission – to make Rajasthan an accident free state, Pavan Kaushik says, "It pains me to see that

Rajasthan as one of the top ranking states in the country with respect to fatality due to road accidents. Accidents do not come with an invitation and each accident is avoidable. It is just a matter of taking simple precautions like wearing helmets and seat belts while driving two wheelers and four wheelers respectively."

"CSR is a Collective Social Responsibility. It should be a part of self-regulation, which changes and benefits the society in the long run. I believe that the 'C' in CSR stands for 'Character'. Unless there are genuine intentions to change the society, the impact of the CSR would never be assessed. This is where the Character ('C' in CSR) would matter the most. The people working at ground level would also be different from people just cutting cheques", he says.

Founder of the project "Be Safe-Surakshit Rahiye", within a span of 2 years, Pavan

Kaushik has interacted with more than 3500 employees, their families and a number of school children through interactive workshops. Getting associated with All India Radio, Rajasthan, 'Be Safe' has been reaching 100% radio listening population of the State and has brought a wave of safety awareness.

Safety of people has been on the utmost agenda of the central government as well as with the State government. Hon'ble Prime Minister of India, Shri. Narendra Modi Ji, also spoke on road safety his "Mann

Ki Baat" program. Honourable Union Minister for Road and Transport- Shri Nitin Gadkari Ji, along with several ministers of Rajasthan Government, District Collectors, Magistrates and Police Superintendents of different districts of Rajasthan, other government officials, Royal Highness Shriji Arvind Singh Mewar of Udaipur and Chairman of Vedanta Resources – Mr. Anil Agarwal have come forward to speak about safety in the radio program – "Be Safe-Surakshit Rahiye". The senior management of Hindustan Zinc also

joined the initiative and shared their personal incidents to promote industrial & road safety. Taking cognizance of the road accidents caused due to mobile usages while driving, the Hon'ble Rajasthan High Court has passed order to cancel licence of all those who are caught using mobile while driving 2-wheeler or 4-wheeler. This is a landmark judgement and would certainly bring down the accidents in Rajasthan. This also re-iterates the message of the campaign 'Be Safe – Surakshit Rahiye'. Pavan Kaushik is also the founder of the projects "Khushi" and "Sakhi" where he has contributed immensely towards the cause of child care and social & economic empowerment of rural and tribal women. He has also been awarded by India Today, Times of India, Zee TV, Public Relations Society, Udaipur Chambers of Commerce in the areas of social communication.

Wrogn outlet inaugurated by Lopa Mudra

Udaipur: High Street Menswear Fashion Brand Wrogn Youth Icon Curated by Virat Kohli, Actor and Big Boss Fame, Lopa Mudra Rout, launched its first exclusive brand outlet in Udaipur on Friday. Spread over 700 square feet, this new showroom is located on the RMI city center, Ashok Nagar main road. With this store, Wrogn will have 13 special brand outlets in the country.

Store in Udaipur have more than 250 designs, which will include trendy T-shirts, shirts, chinos, slim-fit trousers and casual jackets that can be worn for comfortable and semi-formal occasions. The cost of the collection is Rs. 799 / on words -.

Wrogn Menswear Collection is conceptualized by Virat Kohli in collaboration with the label design team. The brand reflects Virat Kohli's distinctive personal style and fashion sensibilities. Wrogn's ownership is owned by USPL (Universal Sportsbiz), founded by Anjana Reddy, who is the leading fashion celebrity in London.

USPL's founder and CEO Anjana Reddy said that Wrogn is a disputed young and ambitious brand which has seen remarkable growth in the past few years. Under our expansion plans, we are in the process of making a strong presence in the major cities of the whole country by providing better business and an overall international brand experience. We are targeting 200 special brand outlets in the country in three years.

"Wrogn was launched in 2014 and has emerged as one of

the fastest growing men's brands in the country. Initially, the brand started retailing at Shoppers Stop outlets and online fashion portal Mitra and is currently pursuing an Omni-channel strategy with launching special brand outlets all over the country. The brand opened its first exclusive outlet in Hyderabad in 2016 and opened 10 outlets including one country in Guwahati within a year.

Not easy to identify on a TV screen - Lopa

"Lopa Mudra Rout talked to media in the inaugural ceremony, she said even though the reality show for the youth of today is a way of making money and fame and everybody dreams of becoming a part of the reality show. But in the golden world of the TV screen, it is not easy to make your identity, Lopa Mudra, who has come to raise the showroom of Wrogn in Udaipur, said that in today's time the craze for a reality show in the people has increased significantly, a new talent is coming out. To see Lopa, the tremendous enthusiasm in large numbers was also very excited. Speaking to the media, Lopa told the 105 days spent in the Big Boss 11 and also taught the great days of learning a lot."

Golden Jubilee Celebrations has Beguns

Udaipur: Reformist Bohra community members has started celebrations for completion of 50 years of their reform movement from 29th will last for a period of 2 years culminating in 2020.

The golden jubilee celebration with a symposium at RNT Medical college auditorium. The Chief Guest for the event was Mani Shankar Aiyar, former Indian Diplomat and ex-cabinet minister. The Guests of Honour for event was Vibhuti Narain Rai (Litterateur, EX-DGP, UP, Ex-VC Mahatma Gandhi Antarashtriy Hindi Vishwavidyalaya), Suhasini Ali (President, All India Democratic Women's Association and former MP from Kanpur) and Hasan Ali (Popular Indian Lyricist and Song Writer). The programme was presided over by Abid Adeeab, Patron, Central Board of Dawoodi Bohra Community (CBDBC). Mansoor Ali, Chairperson, CBDBC informed media in a press meet that the movement has been running since 1970. The reformist movement was started in 1970 against the social,

economical and political atrocities that were being meted out in name of religion.

The initial protest against these atrocities found widespread support resulting into a movement which then took shape of the reformist Bohra community. He said that objective of this movement is to set the community free from these fraudulent practices in name of religion. Irfan Ali Engineer, CBDBC, Abbas Ali Nath, President Dawoodi Bohra Jamaat & Rehana Germanwala also shared their views with reporters. The community members said that they felt proud on starting off the golden jubilee celebrations and it gives them belief about the strength of their movement. Akhtar Hussain Bohra informed that a two-wheeler rally has started from the Jamaat Office at Bohrawadi at 7:30am on 29-Apr. This rally passed through various routes and finally reached at RNT Medical College Auditorium where symposium has organized.

A blood bank is proposed to be started shortly. This hospital will not only provide medical facilities to patients of Chittorgarh but also patients of surrounding districts, tehsils and towns.

A one-day workshop on biosafety concluded

Udaipur: A Day Workshop on Creating Biosafety Capacity in the Organizational Research organized jointly by, Biotech Consortium India Limited, New Delhi and MPUAT in collaboration with the International Organization of UNEP-GEF Seroted Phase II Capacity Building Project, Biosafety and Environment Ministry, Forest and Climate Change, Government of India, New Delhi on April 27th Prof. Uma Shankar Sharma, Vice Chancellor, Maharana Pratap Agriculture and Technology University, said the production of a crop with biotechnology not only flourishes the crop in the country, but also helps Poverty and starvation overcome. Nowadays the area of fertile land is continuously decreasing in our country and it is necessary that through biotechnology we will have to increase our crop production. We must also keep in mind that the impact of the heritage crops is affecting our land. How can we compete with many chemicals and pathogens produced from such crops? Emphasis on the need for such research. Is need of the hour Prof. Sharma added. He revealed that with biotechnology, India stood the first place in cotton production in the world and 96 percent of the total area of cotton is in the BT cotton Dr. Vishwa Ahuja, Chief Managing Director, Biotech Consortium India Limited, New Delhi said in his note that every country has created

biosafety system. India has been a member of the Cartagena Protocol since 2003. Today, 171 countries of the world are members of this Protocol (Manual). Under the Environment Protection Act of 1986, the Genetic Environmental Approval Committee (GEAC) is the nodal agency to create rules related to genetically modified crops. The rule declared under "Cartagena International Protocol" is valid for sending paraguay crops from one country to another and all the countries follow it. This workshop was informed about the developed kit for checking the truth of Bt crops. Research is going on in the areas of biotechnology in India, rice, maize, mustard, brinjal etc. The opinions of farmers and officials about biotechnology are different. Dr. Murali Krishana, Member, Genetics Environment Recommendation Committee (GEAC) and Joint Director, Environment, Forest and Climate Change Ministry, Government of India, New Delhi said that the Ministry is working in 52 institutions of India, in the areas of biotechnology, mainly Work on biological, crop protection and posterior aspects of special crops is being done. The scientific work done by the Ministry in relation to Biosafety at the State and international level is disseminated to the various institutions, farmers and other related institutions and knowledge generation are done. Dr. Krishna said that

work is being done on the investigation and verification of protected organisms in 9 institutions of the country. With this view, India's position is quite strong. Knowledge-based kits have been prepared in 8 languages on Biosafety by the Ministry, through which the practical knowledge of biotechnology can be learned.

Dr. Abhay Kumar Mehta, Research Director said that the farmers in Rajasthan state are familiar with BT cotton but BT Bagan, Paragini Maize, fruits, and vegetables are not familiar with. Research on the first and second level of Biosafety was done on Paranaei maize at Maharana Pratap Agriculture and Technology University. But it is necessary to develop complete knowledge about it so that farmers can decide about the goodness and badness of the technology itself and adopt BT technology. He said that compared to conventional cotton from Bt cotton, 30 percent increase in yield and the number of insecticides decreased by 40 percent. He said that more than 250

biotechnology products are currently available in the country, but before adopting biotechnology in the area of agriculture, accurate study of socio-economic aspects is necessary. Program organizing Secretary and Regional Research Director Dr. S. K. Sharma said that during this workshop, two technical sessions were organized on Biosafety. In the first session, by Dr. Murali Krishnan, the Bio-Security Act in India- an innovation, Dr. Vaish Ahuja, Chief Manager, Biotech Consortium India Limited, New Delhi, on the aspect of science and security of GMO, Dr. O. P. Govilaya, former Professor, Indian Agricultural Research Institute, New Delhi conducts the conduct of limited field protocol to ensure effective management and monitoring, and Dr. Sialia Chellam, Chief Scientist, NBPG, New Delhi, detects liquid transmitted organism and transports flows in the second session, Dr. Devendra Jain gave his lectures on topics like display of the use of strips, etc.
