

"Atmanirbhar Bharat"

The Centre has been leading the graded, pre-emptive, proactive and collaborative response and management of COVID-19, along with the State/UT governments. As part of its continued efforts towards progressively augmenting and strengthening the medical infrastructure across the country, various policy decisions have been taken on a global basis.

As the start of the pandemic, there was a global shortage experienced for all kinds of medical equipment including N95 masks, PPE kits, ventilators etc. Most of the products were not being manufactured in the country in the beginning as many of the necessary components were to be procured from other countries. The rising global demand due to the pandemic resulted in their scarce availability in the foreign markets.

Editorial

Turning the pandemic into an opportunity to develop its domestic market for production of medical equipment, with the combined efforts of Ministry of Health & Family Welfare, Ministry of Textiles, Ministry of Pharmaceuticals, Department for Promotion of Industry and Internal Trade (DPIIT), Defence Research and Development Organisation (DRDO) and others, India has hugely ramped up its own manufacturing capacity.

In view of the strengthened domestic production capacity and having met the domestic requirements for PPEs, the revised notification of the Director General of Foreign Trade (DGFT) in July 2020 (Notification No. 16/2015-20, dated 29th June 2020) permitted export of PPEs. As a result of this relaxation, in the month of July itself, India exported 23 lakh PPEs to five countries. These include USA, UK, UAE, Senegal and Slovenia. This has substantially aided India to position itself in the global export market of PPEs.

The "Make in India" spirit embedded in the Atmanirbhar Bharat Abhiyaan has resulted in provided resilience and self-sufficiency to the country for various medical equipment including PPEs. While the Union Government is supplying PPEs, N95 masks, ventilators etc., to the State/UT Governments, States are also procuring these items directly. Between March to August 2020, they have procured 1.40 crore indigenous PPEs from their own budgetary resources. During the same period, the Centre has distributed 1.28 cr PPEs to States / UTs / Central Institutions, free of cost.

Hindustan Zinc conferred with CSR Health Impact Award 2020

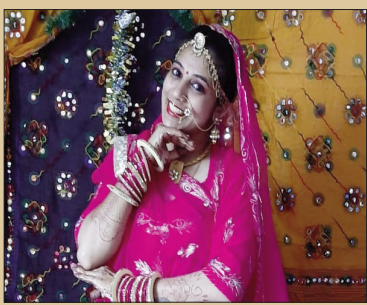

Udaipur: Hindustan Zinc received the CSR Health Impact Award for its exemplary work towards fighting Covid-19 at all levels and minimizing the risk of this pandemic within the communities in their operational areas. The award has been conferred to the company by Integrated Health and Wellbeing (IHW) Council in association with Jagran Pehel.

Hindustan Zinc has been undertaking extensive measures to sensitize the local communities regarding Covid-19 and have engaged an extensive network of stakeholders, including District Officials, Local Community Representatives, SHG Members and Union Members to prevent the spread of this virus. So far, the company has touched upon the lives of 4.20 lakh people through its ongoing Covid-19 relief initiatives and brought a positive change in their life during these challenging times.

The company has been supporting the communities by providing dry ration and supplying food grains through Apni Rasoi initiative in partnership with Azim Premji Foundation to women & migrant labourers. The company has been disinfecting areas by spraying & fumigating with Sodium Hypochlorite solution and providing medical gears like masks, sanitizers & Personal Protective Equipment (PPEs). With critical emphasis towards on ground delivery of essentials directly to the communities, Hindustan Zinc has engaged their SHG Women and Partners to stitch & distribute masks and full body suits, in turn generating income for these women as well. The company through its under its Khushi initiative, also launched "Koi Bacha Rahe Na Bhookha" campaign, which is working towards improving the health and well-being of the children in the age group of 0-6 years and provide good health to lactating women and families, who have been severely impacted by the aftermath of Covid-19 pandemic.

On behalf of Hindustan Zinc, the award was received by Ms. Anupam Nidhi, Head CSR in a virtual award ceremony.

Successful treatment of bleeding in the intestine by portal vein stenting in Geetanjali Hospital

Udaipur: In Geetanjali Medical College and Hospital, Udaipur, the patients are being treated cautiously continuously, following all the necessary regulations related to the corona pandemic. With the untiring efforts of Neurosciences team's Neuro Vascular Interventional Radiologist Dr. Sitaram Barath, Gastroenterologist Dr. Dhawal Vyas and team, Dr. Karuna, Dr. Neha, Dr. Manav from the Department of Anesthesia, Cath Lab staff, and CCU staff, successful treatment of the patient suffering from EHPVO (Extrahepatic Portal Vein Obstruction) was done.

The 36-year-old patient, a

resident of Pratapgarh, said that for a few months, blood flow also began to occur during bowel movements, due to which he was unable to perform his daily activities such as dizziness, inability to stand and walk all the time, since the patient is from profession He is a barber, because of this disease he was not able to do anything for his livelihood.

After suffering greatly increased, the disease went to the local hospital to be shown again, seeing the patient's condition, the local doctor of Pratapgarh advised to go to Geetanjali Hospital, Udaipur from all the latest facilities.

What was the issue?

Dr. Sitaram Barath told that the patient came to Geetanjali Hospital with the problem of blood coming with stool, endoscopy, and CT of the patient by Gastroenterologist Dr. Dhawal Vyas. Scanned Examination found that some small veins had swollen in the small intestine, mainly because of the blockage in the main vein called the portal vein, as well as the side branches opened. Due to the increase in pressure in the collateral veins, blood flow was happening, and the main vein was closed.

The obstruction was opened by lever stenting of the main portal vein by Dr. Barth,

which started the normal flow of blood. It is known as EHPVO (Extrahepatic portal vein obstruction). This disease is generally sporadic. The patient is now completely disease-

free and has been discharged after seven days.

For your Information, Geetanjali Hospital is a multi-super specialty hospital. It is fully available to all the patients

who come to avail of each specialty because here is all the state-of-the-art facilities are available under one roof so that the complex operation is complicated.

And the procedures are being done continuously by skilled doctors. As seen in this patient's condition, the combined efforts of experienced doctors of the Department of Interventional Radiology and Gastroenterology could relieve the patient.

Geetanjali Medicity has continuously matured into a multi super specialty hospital for the last 13 years and has become a tertiary medical center.

Anudeep Mehta, Dealer Principal, Benelli-Udaipur said, "We at Benelli-Udaipur are absolutely thrilled to bring Benelli to Udaipur, the city of lakes and beautiful open roads with amazing views to grow a riding culture

PFC Education Turns 2 !

On August 23rd, PFC Education celebrates its 2nd year anniversary as a premier coaching institute for ACCA in Udaipur and across the country.

Incepted in the year 2018, PFC Education was started by Meenakshi Bherwani Jotwani when she realized there were a dearth of course options for commerce students in Udaipur, beyond the usual CA, CS& CFS. While working in the UAE with British Petroleum after having secured national ranks in her CA& CS courses, Meenakshi found herself working at par with a colleague who was only in her 3rd year graduation and was pursuing ACCA alongside. This made her extremely curious about ACCA and all the opportunities it provides. She soon found herself setting up the foundation for PFC Education after a few years on her return to India, thus also making her the first woman led owner of coaching classes in Udaipur.

Meenakshi was heavily inspired by her school tutors in 11th standard who taught her to learn conceptually rather than to cram different concepts with no understanding of the same. This learning is what she envisioned for PFC Education and decided to tie-up with ACCA and became the first Learning Partner of ACCA in Rajasthan. PFC Education has gone on to even set up a satellite branch in Jodhpur and Malaysia.

PFC Education started with humble beginnings of a mere 50 students and has grown to over 300+ in a short span of 2 years. Unlike other coaching classes that provide teachings

of only course material through the week, Meenakshi strongly believes in deploying extremely unconventional methods of teaching.

The institute features a Bell of Positivity that students, parents & faculty ring when they feel extremely elated. An open library where students and faculty can come and exchange books without a check-out system. And the main focus being on developing students' personality and public speaking for which every Saturday is sincerely dedicated. She also takes the initiative to create motivational videos that help students who are struggling with their studies and life and helps to inspire them. Many of her YouTube videos have gone viral for the same reason and students become more comfortable and open up to the faculty at PFC Education.

Even before the COVID-19 lockdown, Meenakshi had realized the importance of taking her classes digital. All faculty members would record their course material and students along with their parents could access the same on the PFC Education app. Initially, the videos were meant to help students who live abroad in countries such as US, UK, Oman & Saudi Arabia but quickly became essential for the students in regular classes as they could not attend because of the lockdown. This led to a smooth transition to online coaching classes for all the PFC Education students and faculty. In order to support the students during the lockdown, Meenakshi has also decided to provide several relaxations by providing free books & course material, reduced prices of all the classes as well as the com-

plete e-learning platform completely free of cost!

Apart from the usual long-term courses that PFC Education provides, students can also enrol themselves in short-term courses that cover a wide range of interests that will enable them in the future such as stock market training, digital marketing, GST & Tally courses and many more. The in-depth tutoring from the resident faculty and visiting faculty also provides great industry insights to all the children looking towards their future careers. Students have successfully secured 2nd rank in India and 8th rank in the world among 184 countries which brings immense pride to India. More than 10 affiliates have been associated with PFC Education and a campus placement department has been set up that has secured packages for students across Rajasthan and many other metro cities even during the times of the current lockdown.

A mass apology was observed at Shanti Bhavan

Bhilwara: In Shanti Bhawan, Head Post Office, a Mass apology was solicited collectively from the Sadhvis in Shrivak Shrivak. Rajasthan Deputy Proctor, Discourse Chandrika Maina Kanwar Masa, said that forgiveness is the jewel of heroes. It is also noted in the scriptures that forgiveness is Veeres Bhushanam. A beautiful line that has been in our rites since childhood, Kshama Veersya Bhushanam, means forgiveness of jewelry. Bravery is the necessary condition to be forgiving. Being heroic here is not about war-skills, but with action.

On this day, forgiveness and shramadaan are done by every living being. That is why Shramadan has been called the best charity. Shanti Bhawan Shri Sangh's media in-charge Manish Bamb informed that the Carona Guidelines and Social Distancing are being fully implemented in Shanti Bhawan. During this, Shri Sangh President Rajendra Chipad, Minister Surendra Singh Choudhary, Pradeep Mehta, Sanjay Ranka, Pramod Singhvi, Pankaj Surya, Meetha Lal Singhvi, Dharmichandra Nandavat, Manohar Lal Surya, Gopal Lodha, Madan Lal Sipani, etc. were present.

Celebrate the Day of

Apology as International Day - Sukan Muni

Bhilwara: There is a need to celebrate the forgiveness festival on 24 August globally. Sukan Muni Maharaj addressed the pardon celebrations in Ahimsa Bhawan Shastri Nagar, where it is not a religion or religious festival. It is a festival of humanity. Today we need to celebrate forgiveness at an international level, and the whole world is worried about the epidemic, forget mutual rage and rag dweesh, we have one day in the whole year.

Wish to celebrate as an apology! Promoter Sukan Muni apologized on behalf of the disciples on behalf of themselves and the disciples, the patron of the association Hemant Anchalia and president Ashok Pokharana, led by the Shrivak-Shrivak in the Dharm sabha Apologies. Virajit Sukan Muni Amrit Muni, Mahesh Muni, and Mukesh Muni and all the saints. Minister of Ahimsa Bhawan, Rikhabchandra Pipada said that the officials of the Sangh greeted former Chairman Manju Pokhara, Rajasthan Mahila Jain Conference Provincial President Pushpa Gaukharu, Shanti Bhawan's Convenor Navratnamal Bamb and Gyan Chandra Modi Media Incharge Sunil Chaplot, Snehlata Modi, Sushila Chhajed and Parsmal Pipada, Jain Conference Publicity Minister Suresh Bamb, Vishal Chaplot, etc., the supporters and ascetic brothers and sisters by offering shawl and garlands.
