

## Diwali 2020 - Human Social Bonding Retains Through Virtual Platforms

Previously, it was the alarm of pollution that was National Concern during festive days of India. 2020 has made us more serious about cleanliness, self care and eco-awareness. Human race loves to play with mother nature with a habit to give scratch and bruises like a kid. Then, when it turns bad, we all cry and shout for fast remedy. That gave us our new breakthrough to advance more towards progress. Continuing with it, to protect ourselves from this current danger of COVID-19 we're innovating new ways to stay connected as well as enjoy our festive time. We're allowing to get pleasure, not from real sources but through virtual options. In this protocol comes our grand festivals, where we once used to gather together to witness the moment's magic and share our bliss. Like Dussehra and Durga Puja celebrated just a month ago, Diwali too is planned up virtually all over the world.

Since this year is crucial to keep ourselves safe from the contagious fast spreading viral disease, matter to control air pollution during Diwali days is given even more strong consideration. Accordingly, complete ban on toxic firecrackers is announced by Green Tribunal to be followed in various Indian States and Union Territories. This and other strict additional initiatives are taken to safeguard environment and people's life. To stimulate public sentiment, State Ministries, like Uttar Pradesh and Delhi have announced online show of 'Deepotsav' and Diwali Puja.

As the festive enjoyment remains unfulfilled without social connections and gastronomic delights, websites for global online connectivity are coming up in large number these days with plenty of interesting options. As for Diwali, it is 'Indian Sweets' that undoubtedly raise desire in every heart to have a taste of it. Nothing stops it this year too, for the festive charm is being shared virtually through loads of public Tweets in this season with nut'n'kesar enriched 'Soan Pappi' - the most anticipated Diwali Sweet.

While conducting the program, Devkishan Parmar, District Coordinator, Cry-UNICEF Project, thanked the District Administration, Education Department, Prachta Women's Empowerment, Mahila Shakti Kendra, and the families of all the girls for the successful conduct of the program.

## Nurses training on patients cares @World Diabetes Day

Udaipur: Workshops were conducted in the Paras J. K. hospital to train nurses for the care of diabetes patients. Senior Diabetic Specialist Dr. Jai Chouradia told me how to care for diabetic patients, what precautions should be taken in treatment, care of patients with type-1 and type-2, kidney, brain hemorrhage, liver, etc. the present time Stay informed about the latest diabetes treatment. He said that due to the carelessness of patients, diabetes affects other parts of the body. More than 40 nurses from Udaipur and surrounding areas participated in the workshop to learn about the modern treatment of diabetes.

# Need to enlighten your body and soul

Deepawali is not only a popular festival, but a spiritual festival. It is not only a festival to eradicate the outer darkness, but also to erase the inner darkness. By lighting the lamp of purity inside us, we remove the darkness of fascination, illusion, and unnecessary desire, to enlighten the mind and soul only then the real significance of celebrating Deepawali will be proved. On the occasion of Deepawali, everyone usually tries to clean, celebrate and decorate their homes. In the same way, if the waste of bad karma, which is stored on the courtyard of inner conscious-

ness, is cleaned, an effort is made to decorate it with restraint and in it the unbroken flame of the lamp of the soul is ignited, then human beings will enjoy eternal happiness, peace and bliss can be obtained. Only then will we

be able to fill the losses of the corona epidemic. Prime Minister Narendra Modi lit lamps to defeat the Corona epidemic; this time Diwali will become a medium to eradicate the corona darkness from the whole world. We celebrate Deepawali every year. In every house, every courtyard, every village, everything is illuminated with light. The man burns the soil by pouring the wick of affection and philanthropy oil, giving it pride and respect to the Indian culture, because the lamp may be of clay but it is the ideal of our life, the direction of our life, the learning of

message of 'Prakash Parv', because this message is illuminating the inner world of human beings. That is the principle of the Tathagata Buddha, 'Appadivo Bhava', that is, 'becomes a lamp for the soul itself'. Historians say that the day Nachiketa took the light of knowledge from Yamlok to the land of death; it was also the day of Diwali.

It is true that man's tendency has always been towards light. He never wanted to ask for darkness. This Tamsa majyotigamaya is also a corroborative proof of the devotee's inner feeling or tone of prayer. Moving from darkness to light, man began his search for the fulfillment of this expansive wish. He wondered which lamp is the one that could illuminate the path leading to the destination. A man surrounded by darkness does not become meaningful, no matter how much speed he

moves. Knowledge before conduct is considered essential before practice. Knowledge is the light in life. It is also said in the scripture - 'Naanam pyaasayaran' means knowledge is light. A sense of ignorance has

enveloped us. It can be erased only by the light of knowledge. Knowledge is the biggest light lamp in the world. When the lamp of knowledge burns, then both inside and outside become illuminated. The kingdom of darkness automatically ends. The need for the light of knowledge is not only to eradicate the inner dark fascination, but also to solve external problems such as corona epidemics, environmental pollution, war and terrorism situations and immorality that have arisen as a result of greed and attachment. Problems such as war, terrorism, fear, violence, pollution, corona history, corruption, immorality, ozone depletion, etc. pose a challenge to twenty-first century humans.

After all, man is also the father of these problems. Because it is not possible for an animal or bird to do so. Who can commit heinous acts of unnecessary violence other than human beings? The problem of war and terrorism cannot be solved until man pledges to give up unnecessary violence.

To remove the darkness of attachment, one has to light a lamp of spirituality. Where the sun of spiritualism has risen, the darkness cannot exist. Once darkness complained to Brahmaji that the sun followed me. He wants to wipe me out. When Brahma spoke to Sun about this, Sun said - I do not even know the darkness, far from erasing; you must present it to me first. I want to see his

appearance. When Brahma asked him to come in front of the sun, then the darkness said - how can I come to him? If I come then my existence will cease.

The real meaning of life is not clothes, but moral and character qualities. Real light can only be manifested through its spiritual qualities pervading humans. The significance of life and the basis of its light are the qualities of the person that humanize him, which we see as compassion, hope, service, spirituality. Actually, this quality is the foundation of the light, the foundation on which a human being makes his life meaningful. Those who have the presence of these qualities have their dignity Chiranjeevi. To spread light in society, it is necessary to be a human being inside a human being. The way the lamp burns with the lamp, the love increases by giving love and in society today there is a great need for love and humanity.

Let us identify the light, explore ourselves, remove our inner work, anger, greed, fascination, etc. and walk on the same path which is the path of humanity. We should understand that human life is very rare, it is not found again and again. Society worships only those who live for others, not for themselves. That is why Goswami Tulsiadasji has said - 'Parihar Saris Dharam nahin Bhai'. Remember that this is the salute to the bright and this light is the meaning of our life.

What is true, what is right, should not be accepted only blindly. One should also try to see with open eyes. When the insanity breaks, then the person wakes up in resistance. He stops the evils. With the obedience of the great men associated with this festival, Purushottam Rama, Lord Mahavir, Dayanand Saraswati, Acharya Tulsi, etc., can enjoy the real benefits of Deepawali festival. If every person of the world tries to establish his unbroken light-revealing message within himself, then there can be no difficulty in establishing health, peace, peace, and friendship in the whole world and prosperity can be seen everywhere and personal life can be spent with happiness and joy.

It is necessary for the significance of Deepawali festival, lamps should not only burn outside, but lamps should also be burnt inside.

Because the lamp burns anywhere. The message of the lamp is - we should never flee from life, change life, because in the exodus, there is a stain of finesse on the human side, while the possibilities of development in change find meaningful directions of life. Actually, Diya is a challenge even for those who dream of success by becoming indolent, lazy, downright, directionless and characterless. Whereas, Diya is determined to eradicate weaknesses and start a new lifestyle.

- Lalit Garg

ness, is cleaned, an effort is made to decorate it with restraint and in it the unbroken flame of the lamp of the soul is ignited, then human beings will enjoy eternal happiness, peace and bliss can be obtained. Only then will we

rituals. Determination is the inspiration and means to reach the goal. The significance of celebrating Deepawali is only when the inner darkness is overcome. We can consider Lord Mahavir's sermon on the night of Diwali as the best

moves. Knowledge before conduct is considered essential before practice. Knowledge is the light in life. It is also said in the scripture - 'Naanam pyaasayaran' means knowledge is light. A sense of ignorance has

## Joint visit to Sukher Industrial Area

Udaipur: Vijay Godha, Vice President of Udaipur Chamber of Commerce and Industry, and Ajay Pandya, Senior Regional Manager, RICCO, made a joint visit to Sukher Industrial Area and prepared a list of infrastructure-related work.

During the visit, entrepreneurs like Shri Om Prakash Agrawal, Shri Mahendra Surana, Shri Praveen Kothari, Shri Muralidhar Sharma gave feedback regarding the outstanding work related to repair and maintenance in Sukher industrial area.

After the joint visit, it was decided that the remaining civil works for drainage in the Sukher region would be completed by RICCO as soon as possible. Damaged roads and drainage near marble and orbit marble will be repaired. Removal of debris and broken drains will be done near Karnavati Marble.

It was decided to construct the entire drainage on the side of the road located near Ganapati Marble.

Action will be taken by RICCO to remove illegal occupation near the temple of Hanumanji on the entry road of the Sukher area.

Honorary General Secretary, Dr. Anshu Kothari, informed that a meeting with RICCO was held in the UCCI by Chairman Mr. Komal Kothari to complete the outstanding works related to repair and maintenance all industrial areas of Udaipur at the earliest. The UCCI decided to jointly visit industrial regions with RICCO officers and prepare a list of pending works on priority.

## Vidhyapeeth - organized by Ayurveda Cell Department

Udaipur: On Friday, in the Ayurveda Department of JRNU, Pandit Parameswar Chaubisa offered prayers with the law of Dhanvantari and Lakshmi Ji. VC SSSarangadevot, Kul pramukh Bhanwar Lal Gurjar, Senior Accountant Dr. Harish Sharma, Special Officer Dr. Hemashankar Dadhich had joined the ritual ceremony. On this occasion, Prof. Sarangadevot said that only by worshipping and memorizing the texts of Dhanvantari, all diseases could irradiate. He said that editing Sanskrit texts should be fast; western scholars get patented by acquiring superficial knowledge of our readers, while our heritage should be our own. Traditional and home remedies for prevention should be emphasized rather than cure the disease. On this occasion, Krishnakant Nahar, Dr. Ghanashyam Singh Bhinder, Jitendra Singh Chauhan, Murtaza Ali, Rajendra Verma, Dr. Chandresh Chhatlani, Rajni P., Dr. Dhindra Rajora, Dr. Om Pareek, Kalu Singh, Dr. Dilip Singh, Several activists including Dr. Lili Jain were present.

## A unique initiative of District Administration and UIT for eco-friendly Diwali

Udaipur: This time in Udaipur, the district administration and UIT have taken a unique initiative to celebrate eco-friendly Diwali. The Corona Suraksha Kavach mask, along with eco-friendly lamps were distributed to the residents in the program organized on the Pal of Fatehsagar on Thursday evening under the chairmanship of District Collector Chetan Deora.

Vocal for local will get encouragement: On this occasion, the District Collector said that the district administration has made these eco-friendly lamps made of mud and cow dung in collaboration with the Central Prison Kota detainees, which will boost the Vocal for Local. He said that this lamp is more useful than Chinese or foreign lights because the oil or ghee burnt in these lamps will automatically communicate purity in the environment. This lamp is biodegradable, which will be found in the soil automatically. These efforts have also employed inmates of Central Jail.

Have to be more vigilant in winter In the program, the District Collector has called upon the residents to be more vigilant during the winter season. He said that in the present situation, the citizens had taken full precautions with restraint. Now there is a need to be more careful in the winter days ahead.

The Collector said that the festival season is going on; it should follow the Corona protocol so that we can stay healthy and enjoy the festivals. In the program, District Superintendent of Police Kailash Chandra Bishnoi appreciated these efforts of the detainees of the Central Prison Kota. He said that with these efforts, indigenous products would remain pure in the environment with encouragement, and we will all celebrate eco-friendly Diwali. He also called upon the city dwellers not to firecrackers as per the instructions of the government.

UIT secretary Arun Hasija informed that a target had been set to distribute one thousand packets during this program. 5-5 masks and 21 lamps are placed in each package. During this program, UIT appealed to keep the entire city pollution-free and clean. During the program, Additional Superintendent of Police Gopal Swaroop Mewara, Deputy Superintendent of Police Smt Chetna Bhati, District Sports Officer Shakeel Hussain, and officers of UIT and other departments were present.

## District Superintendent of Police and other Personnels Honored

Udaipur: Udaipur Woman Chambers of Commerce and Industries honored the police officials, including the Superintendent of Police, for providing better services during the Corona period.

Chairman of the industries Rita Mahajan and other officials along with Corona wearing the citation, Memento and upstairs to District Superintendent of Police Kailash Chandra Bishnoi, Additional Superintendent of Police Gopal Swaroop Mewada, Deputy Superintendent of Police Rajiv Joshi, Mavli CI Chandrashekar Kilania, Personal Assistant to the Superintendent of Police, Shailendra Singh

Vaghela.

They were honored with warrior honor. The industries also honored SE of the Municipal Corporation, Mukesh Pujari, Inspector Subhash Sharma, and Personal Assistant to the Municipal Corporation Commissioner Dilip Bhardwaj and Chirag Chittora of the Badgaon Block CMHO office. On this occasion, Additional District Collector OP Bunkar along with Senior Vice President of Industries Tina Soni, Secretary Dr. Neeta Mehta, Senior Advisor Rekha Rani Jain, Dr. Mamta Dhupia, Dr. Seema Parikh, Surjeet Chhabra, etc. were present.

## Inauguration of Child Care Center at Dabok Airport

Udaipur: A Child Care Room for children was launched on behalf of Neem Foundation Udaipur at Maharana Pratap Airport in Dabok. Roshni Barot, a founder of the foundation, said that this room was inaugurated by two young children and their guardians who cut the lace in the presence of airport director Nandita Bhatt.

Roshni said that the airport has VIP lounges, waiting rooms, food courts, shops for shopping, and more for passengers' convenience while waiting for the flight. But small children become very bored during this time, especially young women have a lot of difficulty in handling their young children, feeding them, changing diapers. Given this, this child care room has been started to entertain these children. Where toys for kids, teddy bears, swings, etc. entertainment items have been installed. Members of the Airport Authority and members of the Neem Foundation were also present during the inauguration.

## Secure Meter gives 10 oxy-cipe sets to RNT

Udaipur: To provide relief to patients suffering from COVID-19 in the district, Secure Meter has on Wednesday provided 10 Oxy-cipe sets free of cost to RNT Medical College in the presence of District Collector Chetan Deora.

Collector Deora lauded these positive efforts of Secure Meter and said that this would provide great relief to the district's corona patients.

Vivek Pathak, General Manager of Secure Meter, stated that all these sets are manufactured under Make in India, and the biggest feature of these cipe sets is that the sets will function without power connection. He said that the price of a group is 40 thousand rupees.

RNT Principal Dr. Lakhan Poswal said that this device would prove to be effective in providing better oxygen facility to the patients of COVID 19 at an early stage. He thanked the team of Secure Meters for this outstanding cooperation. On this occasion, Manager of Secure Meter Swati Doshi, Additional Principal of RNT

Dr. AK Verma, Dr. Lalit Reger, Superintendent of Satellite Hospital Chandpol, Dr. Rahul Jain were present.

## Poor children's tuition paid

Udaipur: The Narayana Seva Sansthan assisted the school to continue the education

of children by paying tuition fees of two children of a low-income family resident of Jharno ki talai of Debari Gram Panchayat in

Udaipur,

Institute director Vandana Aggarwal said that three children of this family, Riya, Ayush, and Karthik, are studying in Shishu Bharti School of Udaipur in class 11, 8 and 4, respectively. The school charges a fee for two children. The father of the children died five years ago. The mother can barely manage the expenses of the house by doing sewing work at home. The relief was provided to the family by paying a fee of thirty thousand rupees.

## College of Pharmacy at Alok Sansthan

Udaipur: Alok Sansthan has now entered college education. Giving the above information, Dr. Pradeep Kumawat, director of the Alok Sansthan, said that the Alok Sansthan is now going to establish its new records and dimensions in school education as well as a college education. In this series, Pharmacy College has been inaugurated in Alok Fatehpura, with 60 seats available. Dr. Kumawat said that Alok Pharmacy College is affiliated with Rajasthan University of Health Sciences, Jaipur. Alok keeps a distinct identity for its traditional values and discipline, this diploma course will be run accordingly. Students of Mewar and Vanvasi zone will get the benefit of this.
