

# To face the current challenges, it is necessary for students to become self-employed: Dr. Narendra Singh Rathore

Udaipur: A webinar on "Implementation Strategies of the Student Ready Program in Community Science" was organized by the Community and Behavioural Sciences College, the constituent community of Maharana Pratap University of Agriculture and Technology. The keynote speaker of the webinar, Dr. Narendra Singh Rathore, Vice-Chancellor Maharana Pratap University of Agriculture and Technology, Udaipur, gave insight into the conceptual aspects ranging from conceptual emergence to behavioral aspects of the "Student Ready Program" in his address. Dr. Rathore said that Ready's semantic rural entrepreneurship is a development plan. This consists of five components, namely Experimental Learning, Rural Awareness Curves Experience, In-Plant Training,

Industrial Assessment, Hathohand (Hands-on Training) / Skills, and Student Project. Giving detailed information about the five components, Rathore said that as long as the students do not use their skills, knowledge, and interest in the direction of reform, performance, and transformations, they will not meet the current psychosocial and economic challenges. As a result, it is the responsibility of all agricultural universities to strive for students' safe future. He mentioned that Rave (R.A.W.E.) (Rural Agricultural Work Experience) is a new Indian Council of Agricultural Research initiative. In this Experimental Learning (Exertional Learning), the student can build capacity and acquire skills, expertise, development confidence. To help them

start their enterprise and become "job providers rather than job seekers." This is a step towards the "earn while learning" concept. On this occasion, Expressing happiness over the ongoing success of the experiential unit of bakery products being run by Sarla Lakhawat for the last six months, running such programs from everyone expressed that the Rural Awareness Works Experience (T.M.) is primarily rural to students. The State of the farmers' techniques helps in understanding the problems of the farmers and develops the skills and attitude of working with them. There is a great need for change and innovation due to technology and globalization. In order to enrich the practical knowledge of the students, in-plant training is mandatory.

Hands-on training aims to make conditions as realistic as possible. He explained the example of the Rave program made differently for all the faculties of the University, especially the newly named name of Home Science College, Community and Practical Science College, redefining the five departments of the college: Human Development and Family Studies, Food and Science And in nutrition, textiles and

design, human resources, extension education, and education, discussed the possible topics and issues that Rave can do so that quality can be ensured in the lifestyle of common people, especially rural families. Dr. Meenu Srivastava, Dean presented the welcome address and introductory report. She informed that the Student Ready program's objective is to ensure employment for the graduates and develop entrepreneurship. This program is being conducted in all agricultural universities as necessary. In which the degree is ensured only after receiving experience-based education. Practical training opportunities are provided based on local needs. In this program, the Dean Directors and Officers, Scientists, Teachers and

Students of the University's constituent college registered their presence. Prominent among them is the Registrar of the University, Mrs. Kavita Pathak, Finance Controller Manjubala Jain, Director Research Dr. Shanti Kumar Sharma, Director Prasar Shiksha, Dr. Si Mundra, the Dean C.T.A.E. Dr. Ajay Kumar Sharma, dean Dr. Vd Mudgal, Dean C.O.F. Dr. BK Sharma, Dean, R.C.A. Dr. Dilip Singh and officials were present. More than 150 teachers and students participated in this program. Organizing Secretary Dr. Renu Mogra designed the program. Operation of the program Prachi Bhatnagar, Technical Connection Dr. Visakha Sharma did it. Finally, the vote of thanks was organized by the organizing secretary Dr. Dhriti Songli did it.

## Miraj Cinemas enters Coimbatore

Udaipur: Miraj Cinemas is launching five screens in Coimbatore with the opening of SRK-Miraj multiplex at Kamakshipuram.

According to Amit Sharma, Managing Director of Miraj Cinemas, the multiplex will be inaugurated with the screening of 'Master' on January 13. The investment at the multiplex is about Rs. 20 crore, and the total seating capacity is 1,257. With the multiplex in Coimbatore, Miraj has expanded to Tamil Nadu.

Mr. Sharma said Miraj was focusing on the south as there were fewer multiplexes here compared to the northern States. In Tamil Nadu, the company would invest Rs. 80 crores to Rs. 100 crores in the next 18 to 24 months as it would open four multiplexes in Chennai, apart from the one launched in Coimbatore. Miraj would have 30-odd screens and nearly 7,000 seats with the five multiplexes in the State. "We are also looking at expanding in tier-two and tier-three cities and towns in Tamil Nadu," he said.

N. Sivaprakasam, Managing Director of Karpagam Theatres, S.R.K. Cinemas said in a release that the new look at SRK-Miraj Cinemas would satisfy the needs of moviegoers here.

## Distributed material, days spent in Hospital assisting patients

Udaipur: On Sunday, under Jhulelal Nari Sangh Being Manav's ongoing service work, the club members went to various raw habitations and distributed blankets and woolen clothes. Convenor Kashish Narwani said that the needy people are getting cold due to the cold wave due to cold and have to face troubles. In such a situation, the club members decided that blankets and woolen garments should be distributed in the raw settlements. Apart from this, the club members also spent the day in M.B. Hospital serving the patients, in which patients in the Hospital were assisted by Mahima Chugh and Santosh Dodeja and colleagues. Assistance was given by bringing medicines, taking them to the doctor, etc., with no family members. This greatly assisted the patients. Mahima Chugh told us that we should spare a day in a week where we help such a person who does not expect any back support. Here, Muskan, Meena, Meera, Rajkumari, Veena, etc., had exceptional support in clothing distribution.

## Needful material distributed to children on Inner wheel Day

Udaipur: Sleepers and food packets were distributed to needy children of the Dakan Kotda area at Inner Wheel Day on behalf of Inner wheel Club of Being Manav. Divya Bajaj and Anju Maheshwari, president of Inner wheel Club of Being Manav, said that Sanjay Bajaj, Rakesh Bajaj, and Ram Singh had special support for this. She said that it would be the endeavour of the club that all the necessary needs of the needy children of the area can be met. For this, the club is also requesting help from the citizens so that the common people can also get help and the future of these children can be improved. The cake was also cut from children on this occasion.

Institute Director Shri Vinod Kumar Singh Bhadoria said that this course's main objective is to impart knowledge to the students even in a short duration. Also, his tendency is to move towards the hotel business so that he can start his own business in the future.

## Rescued from the multi-system inflammatory syndrome

Udaipur: After Corona, a girl suffering from multi-system inflammatory syndrome was cured by treatment at G.B.H. American Hospital. This type of syndrome occurs in very few children.

A 12-year-old girl Corona was positive about a month ago. After being corona negative, the child complained of high fever, joint pain, rash on the body, red eyes, dizziness, and blood pressure. On this, the family took him to the pediatrician Dr. Anoop Palwal at G.B.H. American Hospital here. Its investigations revealed that the girl's IL-6, D-dimer, C.R.P., BNP were greatly increased and blood pressure was falling. On this, the girl was kept in the I.C.U. for two days, and the next five days were held in the general ward and given treatment. The baby

is now fully healthy and was discharged on Thursday.

According to Dr. Anoop Palwal, when such signs are found in children, it is called multi-system inflammatory syndrome in medical language. In older adults with Corona, these symptoms occur earlier, which is called a cytokine storm. It is quite rare in children, but after appearing in this girl a month later, it was possible to get a new life by getting the right treatment. Life is also possible due to its deterioration.
