## Excessive Centralization of Power Responsible for Escalation of Violence in Gaza

The dominance of USA on the United Nations and the concentration of power in one pole has resulted in the escalation of violence in Gaza. Since the disintegration of USSR the balance of power in the world has tilted towards US and so the US has acted unilaterally in Iran, Afghanistan and in other countries also to promote its interest. The alliance of Israel and the United States is well established and there is no denying the fact that Israel's aggression is supported by US.

### Editorial

The history of the Israeli-Palestinian conflict began with the establishment of the state of Israel in 1948. This conflict came from the intercommunal violence in Mandatory Palestine between Israelis and Arabs from 1920 and erupted into full-scale hostilities in the 1947-48 civil war. The conflict continues to the present day on various levels. Israel and the Palestinians are mired in their worst conflict in years, in which Islamists have fired rockets and Israel has pounded the Gaza Strip with air strikes and artillery. Since conflict escalated on May 10, the death toll has risen to 198 in the crowded coastal enclave of Gaza, including at least 58 children, and to 10 in Israel, according to authorities on each side.

Israel's army says over 3,000 rockets have now been fired from Gaza.

The bombardment of Gaza has displaced 38,000 people and made 2,500 homeless, says the UN.

India's support for the Palestinian cause is an integral part of the nation's foreign policy. In 1974, India became the first Non-Arab State to recognize Palestine Liberation Organization (PLO) as the sole and legitimate representative of the Palestinian people. Yasar Arafat, the leader of PLO was considered a friend of India and received the honour of the head of a state. The members of BJP and RSS troll groups are showing pro-Israel stance simply because of their blind hatred of Islam as well as complete ignorance of the diplomatic history of India. This has been proved by what the Indian representative has said at the United Nations. India on Sunday called for immediate de-escalation of the situation between Israel and Palestine at a United Nations Security Council meeting. The statement came as violence continues in the region that began this month following weeks-long tension between the two sides.

At the meeting, India's Permanent Representative to the United Nations TS Tirumurti asked the two countries to immediately resume direct dialogue and said that New Delhi supports the two-state solution.

## Blood donation camp organized

**Udaipur:** A blood donation camp was organized on Sunday under the joint aegis of Shri Sanatan Dharma Seva Samiti and Pujya Bilochistan Panchayat.

Pujya Bilochistan Panchayat general secretary Vijay Ahuja said that in view of the acute shortage of blood in the blood banks in the city and in the coming days, those above 18 years of age would be vaccinated will not be able to donate blood for a month after this. Blood donation camps were possible due to an increase in blood loss because at least three people can be saved by blood donation.

Hemant Gakhreja of Sanatan Dharma Seva Samiti said that blood was taken in the blood donation camp after every blood donor was sanitized, the bedsheet was changed, and every blood donor was completely checked up. The women in the camp made a special contribution to blood donation. About 81 blood donors participated, but due to any reason, 64 people could donate blood. Chairman of Pujya Bilochistan Panchayat Nanakaram Kasturi said that 64 blood donors donated blood to the team of doctors of blood donation camp RNT Medical and about 30 people took advantage of Chiranjeevi Bima Yojana for the health benefit scheme of the Rajasthan government. Chiranjeevi Camp Keeping in view the general trends, this camp will be held for four days and in Sanatan temple located in Shaktinagar, which will be from 12 to 1 in the afternoon. The blood donation camp was attended by Prataproy Chugh, Harish Rajani, Umesh Manwani, Jitendra Talreja, Pradeep, Holaram Chhoda, Narendra Kathuria, Bhagwan Das Chhabra, Harish Sidhwani, Rajesh Gokani, Rajesh Khatri, Shyam Kalra, Bharat Khatri, Deepak, Manoj Kataria, etc. Naresh Khattad, Kamal Talreja, Vicky Thadwani, Rajesh Kasturi, Ritesh Chugh, Amit Chugh, etc., gave their services to make the blood donation camp and Chiranjeevi Yojana camp a success.

## Airtel announces benefits worth Rs270 cr to help 55 million low income customers

**Udaipur:** Bharti Airtel ("Airtel"), India's premier communications solutions provider, today announced special benefits for low-income customers on its network to help them stay connected during the ongoing pandemic.

1. As a one-time gesture, Airtel will give the Rs 49 pack FREE of cost to over 55 million low income customers. The pack offers a talktime of Rs 38 and 100 MB data with a validity of 28 days. Through this gesture Airtel will empower over 55 million customers, mostly in rural areas, to stay connected and have access to critical information when needed.

2. Double the benefits. At this time, customers have an increased requirement of staying connected. Keeping this in mind, Airtel prepaid customers buying the Rs 79 Recharge Coupon will now get double the benefit. This will make it easier for them to stay connected at a difficult time.

These benefits will be available to Airtel customers in the coming week.

## RADHE-THE MOST 'UN'-WANTED BHAII

Probably the most awaited movie of the year "RADHE-THE MOST WANTED BHAII" has been finally released on 13th May 2021, after so much of delaying due to the pandemic. Radhe is the official remake of the South Korean film 'The Outlaws'. Director Prabhu Deva has immensely failed to meet the expectations of the audience who were waiting for the Salman's next blockbuster. Salman's Radhe is the second lowest rated film on IMDb.

PLOT: The story is about how Radhe (Salman Khan) who is the smart, intelligent and a kind hearted cop 'cleans up' or 'saves' the Mumbai city from the drug mafia Rana (Randeep Hooda) who uses school and college students for the smuggling of drugs.

CAST: Salman Khan (Radhe) is in the main lead of the movie. He played the role of a smart and calm natured undercover cop who has done 97 encounters and now appointed to save the youngsters from the rampant usage of drugs. Salman Khan seems careless about his act-

ing in most of the scenes of the movie. But as usual his action scenes were more impressive as compared to his acting.

Randeep Hooda (Rana) is playing the role of main antagonist who is the leader of drug mafias. He perfectly suits his role and engage audience to watch movie because of his acting. His calm nature in the movie is very impressive. So, the fact is that his acting is the best-selling point of the movie.

Disha Patani (Diya) has noting to do with

the story she is just a love interest of Radhe aka Salman Khan in the movie. But she should be appreciated for her hard work and dedication in terms of her acting and dancing. Her absence will not affect the story of the movie at all.

Jackie Shroff (Manik) is very useless and unwanted character in the movie. He plays the role of Radhe's (Salman Khan) superior cop and the elder brother of the Diya (Disha Patani) in the film.

MUSIC AND COREOGRAPHY: Movie contains 4 soundtracks (Seeti Maar, Title Track-Radhe, Zoom-Zoom and Dil De Diya) among which 2 were the best- Seeti Maar and Radhe; they will force you to tap your feet as they are really energetic as compared to other tracks. Seeti Maar song is recreated from the Telegu film 'DJ' featuring Alu Arjun and Pooja Hegde. Choreography done by Prabhu Deva was the best as usual.

DIALOGUES: Vijay Mouraya has given

some poetic dialogues in the movie and are less impactful. Movie also contains some moronic dialogues which raises the question on the sense of humour of the makers like "Ab koi aage badha, uske bladder ke jagah feda hoga aur liver ke jagah kidney hoga," "Jab kabhi meri behen hogi toh main uska naam Nadia rakhunga..Nadia" etc.

CINEMATOGRAPHY: The photography and camera work were done very well in the movie.

Radhe is a full action-packed entertainer and the best part of the movie is that it has justified length of 1:49 min so it contains less commercial stuff or masala. Apart this Radhe has scenes which are the plus points of the movie like the face-off between Radhe (Salman Khan) and Rana (Randeep Hooda).

But the fact is that this movie is only made for Salman's die-hard fans. So, I would suggest please keep your minds aside while watching movie.

- SIMRAN AGARWAL

## UCCI and District Administrations meeting organized in District Collectorate

**Udaipur:** The Udaipur Chamber made discussions of Commerce and Industry regarding adopting a practical policy in relation to the continuation of industrial production in the lockdown period before the district administration.

In the meeting held in the District Collectorate Meeting hall, the President of UCCI, Mr. Komal Kothari, in the context

of the order issued by the government on May 9 regarding the industries, put practical problems related to the industry were discussed.

In the meeting, the President of UCCI, Mr. Komal Kothari, besides Senior Vice President Mr. Hemant Jain, Vice President Mr. Vijay Godha, Honorary General Secretary Dr. Anshu Kothari, Honorary Treasurer Mr.

Sandeep Bapna, Executive Member Mr. Achal Agarwal, etc. members also participated.

Chairman Shri Komal Kothari has problems before DM regarding authorized only one person to issue an e-Intimation ID card for all personnel in industries with a high number of workers, time restriction in movement of personnel coming from far away, bank or other work personnel. He, however, Makes recommendations regarding allowing the industry owner or curves manager to be allowed to move from transit to transit from one factory to other factories.

District Collector Mr. Chetan Deovra informed that by logging on to the online web portal of the state government

COVIDINFO.rajasthan.gov.in and going to Intimation by Industries, an e-ID would have to be generated to register the signature of the person authorized by the industry. This is the first phase of this process which all industries have to follow. Under the second phase of the process, from May 12, IDs of personnel and IDs of vehicles used for traffic in the third phase will have to be generated. If there is any practical difficulty in this, then the administration will try to overcome it by discussing it.

The District Collector said that the government's intention behind issuing the said order is to prevent corona infection as well as to prevent the migration of workers by continuing industrial operations.

In the context of the memorandum submitted by the UCCI, the District Collector has made arrangements to authorize more than one person on the government's web portal to issue transit passes to all the personnel of the industry for commuting on a fixed route to the workers coming from far away.

District Superintendent of Police Shri Rajiv Pachar, in the context of the order issued by the government, said that the industries would have to make arrangements for the living and eating of the workers so that the traffic can be restricted. He called upon the police administration to curb the unnecessary movement of people to continue industrial activities and prevent corona infection. Mr. Pachar sug-

gested the personnel hang the ID card in the pocket instead of turning it around the neck so that the policemen stationed at the block could see it.

Additional District Magistrate Mr. O.P. Bunkar said that the industries would also be able to generate transit passes through digital means for their vendors, suppliers, technicians, etc. so that the industries can continue to operate.

Information related to issuing transit passes was given on the web portal of the state government by the IT department of the District Collectorate.

The meeting also discussed the establishment of a free quarantine center for Corona-infected patients.

## Hinduja Foundation collaborates with The Chopra Foundation

**Udaipur:** The Hinduja Foundation, the philanthropic is making its foray into the field of mental health and well-being. ## Steelbird launches Doraemon Face Shields in India

Safety with a smile especially for 'kids' to Protect Against COVID-19 Steelbird Hi-tech India (SBHT), has launched Doraemon Face Shields for kids to help them cover their face and to

safeguard the tiny tots against the pandemic. Doraemon the cat -type robot from the 22nd century is one of the most watched Cartoon characters on TV.

Commenting on the current need of face shield for kids, Mr. Rajeev Kapur, Managing Director, Steelbird Group says, 'With the wide-spread of the Coronavirus this is the need of the hour. We thought of coming up with products in the kid's category that will give them ample protection and motivate them to adapt to the new normal. Since our brand is built around safety, we thought coming up with Face shields is in sync with our offerings. We also thought of giving it an interesting twist by tying up with Doraemon. This product is made after a lot of R & D to improve the efficiency and the fit aspect.'

"Moreover, face masks can sometimes be uncomfortable for children, Face Shields can be a great alternative, providing protection against airborne particles. And like I mentioned, to encourage the kids to wear the protective gear we have collaborated with Doraemon as

this character is very popular among kids.

Offered in a variety of fun designs, the reusable shields are priced at 499 rupees each and are made using high quality material, are easy to clean and boast of crystal-clear transparency.

## Vivek Anand Oberoi distributes ration for slum dwellers

Along with Vivek Oberoi director Anusha Srinivasan Iyer of Make Earth Green Again MEGA Foundation, Social activist Ajay Pandey of Rajneeti Ki Paatshaala and Sr PI Shashikant Mane, Juhu.

## 63 countries vote CINTAA representing India to The International Federation of Actors Executive Committee!

The pandemic has put a full stop to the Indian entertainment industry that had been at an unprecedented pace otherwise. CINTAA has been in the forefront, aiding and standing up for actor rights even through pandemic.

Now, CINTAA makes global news again with 63 countries voting the Indian actors' body to The International Federation of Actors (FIA) Executive Committee!

For the uninitiated, The International Federation of Actors (FIA) is a global federation of performers' trade unions, guilds and professional associations. Founded in 1952, it represents several hundreds of thousands of performers with some 90 member organisations in more than 60 countries around the world. FIA's main purpose is to voice the professional interests of actors (in film, television, radio, theatre and live performance), broadcast professionals, dancers, singers, variety and circus artists and others.

CINTAA has always stood up for the well-being of its members. In 2016, Senior Joint Secretary & Chairperson -- Outreach Committee, CINTAA, Amit Behl, at the FIA meet-

ing in Brazil, was involved in two very important motions. CINTAA's views and motions since then have always been respected and accepted by FIA and the same goes for this Congress as well. Now, half a decade since its affiliation to FIA, for the first time in the history of the International Federation of Actors, CINTAA, representing India, has been elected to the executive committee of FIA. With over 150 members, representing 81 countries and with 63 countries exercising voting rights, this marks a landmark step for the Indian actor fraternity, especially since CINTAA has been fighting for the need for performer rights to be heard for the actors in the subcontinent.

## Stop misinformation about type 1 Diabetes and Insulin treatment: United Diabetes Forum

**Mumbai:** Now a days, diabetes is extremely prevalent and leads to other diseases and complications too. Diabetes Mellitus is mainly of two types- type 1 diabetes which affects about 5 per cent patients and mainly affects children and can be treated only with regular insulin injections, there being no known cure for it worldwide. The other type, type 2 diabetes affects 95 per cent patients and can be kept under control with medicines and proper diet. Such patients may require insulin injections too after few years for maintaining glucose control.

The type 1 diabetes comprises mainly children and regular insulin injections are the only remedy for this ailment worldwide. However some people are creating an illusion on social media that this diabetes can be cured with pills, yoga and meditation. If people follow such wrong advice and stop administering insulin injection, then the lives of children suffering from diabetes will be endangered.

Hence United Diabetes Forum (UDF) President Dr Manoj Chawla, Secretary Dr Rajiv Kovil and Treasurer Dr Tejas Shah, in a letter have urged the Union Health Ministry, to stop this misinformation campaign. UDF President Dr Manoj Chawla said that "the insulin is secreted from the pancreas and it helps in converting carbohydrates into the energy. When the process of insulin secretion stops, the glucose is not converted into the energy. Resultantly it gets accumulated in blood vessels paving the way for the diabetes and its complications.

## The family is the important link of love and trust which develops mutual harmony among all:

## Prof. Amarika Singh

A one-day seminar on "How to Protect Yourself and Family" was organized under the joint aegis of Udaipur, Faculty of Education, Mohanlal Sukhadia University and Academy of Well-Being Society. In which students and parents of the Faculty of Education were involved.

The webinar was launched from University Kulgeet. The forerunner of the program and the Vice Chancellor of Nutrition University, Professor AmArika Singh, while sending a greeting message said that the main objective of celebrating International Family Day is to make people understand the importance of family and its value. This day shows that the importance of joint family has increased in the global community.

Kovid Vaccine Camps have been organized by the University which has benefited all the people. Also one and a half lakh masks have been distributed and an amount of 1 crore 11 lakh has been provided to the Governor for the help of Kovid victims. Rover Ranger at Kovid Assistance Center, Services of NSS etc. are also being provided by the university. All the departments are benefited by your innovation effort but you give priority to the Faculty of Education because the Faculty of Education makes teachers and the new building of Faculty of Education is going to start soon. And from this year, the subject of engineering has also been added to the university and it will have a separate college.

Giving welcome address, head of education faculty and webinar secretary Dr. Alpana Singh, while giving welcome address and webinar, said that the faculty of education continues to innovate day by day, due to your special support, touch the new dimensions of day-to-day progress of the department. Has been and will continue to do so.

You also talked about keeping positivity at home at the time of lockdown. Keynote speaker Dr. Manish Singal Sahacharya Medical College, Bhiwara spoke about the Corona symptoms to avoid them, etc. Dr. Doli Mogra Readymade Garment Head in his address, keep himself healthy, stay cool and keep his creativity while giving prominence.

Highlight the point of. In his address, the Ayurvedacharya Shobhalal Oudichya spoke about the importance of diet, sleep, celibacy, and how to increase our immunity by telling how our daily routine should be.

Dr. Archana Golwalkar laid special emphasis on doing her favorite work while incorporating creativity. Professor Vijayalakshmi Chauhan, Pre-Pupil Student Welfare, in her address spoke about catering to our routine style and along with positive thinking, to stay away in from negativity.

The joint operation of Tamanna Soni and Swati Lodha was done and thanks were given by Dr. Sapna Mawatwal.
