

Hindustan Zinc setting up a state-of-the-art 'field hospital' against Dariba against second wave of COVID

-New field hospital in Dariba will have a capacity of 100 beds for COVID patients

-HZL ramps up oxygen supplies to hospitals, over 200T of oxygen supplied to District Administration

With an increase in COVID - 19 cases, there is an increased need for priority medical care facilities for COVID-affected patients. Hindustan Zinc, committed to their Chairmen's thought of giving back, has come out firmly in support of the Rajasthan government in its efforts to take both preventive and curative measures against the pandemic. The company is setting up a state-of-the-art 'field hospital' with a capacity of 100 critical care beds in Dariba at Hindustan Zinc's

DAV school. The hospital will be located in the DAV school ground and is in addition to the support provided to the 300-bed hospital already being set up in DAV school premises.

Housed in air-conditioned tents with full electrical support, the 'field hospital' will be designed specifically for COVID care.

The critical care facilities will have 20 beds equipped with oxygen support, while the remaining 80 ICU beds will have ventilator support. This is in addition to the DAV school air-conditioned infrastructure, continuous electricity, water supply, generator, and tender fire support available to the health administration for COVID relief. Mr. Arvind Poswal, District Collector, Rajsamand appreciated the

efforts of Hindustan Zinc and said, "I express my sincere gratitude to HZL for setting up a dedicated 100 bed COVID hospital in Dariba which will be fully equipped with ventilators and other important medical instruments. It will help the underprivileged section of society in getting quality treatment and thus be a great service to humanity in this era of crisis. I hope this dedicated COVID hospital will prove to be a milestone in saving the lives of our people during the COVID 19 pandemic."

Hindustan Zinc's CEO, Mr. Arun Misra, said, "Hindustan Zinc stands united with the nation to provide any help for our communities in the fight against COVID. We have ramped up our efforts to support the government by pro-

viding a vaccination van and a daily supply of ~10T oxygen to hospitals and local authorities. We stand shoulder to shoulder with the health administration and provide this critical care facility of 100 beds for COVID patients, equipped with all necessary medical aid and ICU beds. Additionally, we are also working with local panchayats to regularly sanitize local communities and conduct awareness drives to prevent the spread of COVID. We will continue our support to overcome this pandemic together."

This is one more commendable initiative by the company towards COVID relief efforts for the people of Rajasthan. HZL is currently providing 5T of medical oxygen per day, while another 5T of

oxygen is being supplied daily in cylinders through its oxygen bottling plant. The company has so far provided over 200T of oxygen to the district administration.

Across five districts of its operational areas, Hindustan Zinc is supporting local admin-

istration through critical care beds, necessary medical equipment, RTPCT machines, oxygen cylinders and supply, sanitization through hypochlorite solution, PPE kits as well as masks. Hindustan Zinc has provided over 4400 oxygen cylinders to date.

Oxygen bank inaugurated with 101 concentrators

Udaipur: The Oxygen Bank was inaugurated on Friday at the community building at Machhala Magra on behalf of the Jain organization, Udaipur, the leading organization of Sakal Jain society. BJS state president Rajkumar Fattawat said that on Friday, oxygen banks were set up in different state divisions on behalf of Bhartiya Jain Sanghatana. National Seminar on Pratap Jayanti - Salutes Pratap's valor

Udaipur: "Prof. S.S. Sarangadevot, Vice-Chancellor of Janardhanrai Nagar Rajasthan Vidyapeeth Deemed to Be University Udaipur, said that Maharana Pratap was a symbol of communal harmony. He was a man of every caste, religion, and class in his avant-garde gestures. Human values. Pratap will not take any place when it is evaluated.

Sarangdevot said this while presiding over the national online seminar on

"Maharana Pratap: Struggle" on the birth anniversary of Veer Shiromani Maharana Pratap on behalf of the University's constituent literature institute.

He said that Maharana Pratap struggled throughout his life for the freedom of Mewar; he was of secular, tolerant, and liberal attitude. We can see evidence of this in Mewar's Dharmopalli 'Haldi Valley War', in which he made Hakim Khan Sur as the commander-in-chief. Sur was not only in the avant-garde squad of Maharana, but he was decorated with the honor of the commander.

The Vice-Chancellor said that Maharana Pratap's entire life was full of difficulties. He said that we would have to make the all-around development of our country inspired by Pratap. For this, all of us will have to stay united and inculcate the spirit of patriotism in the new generation. Sarangadevot said that youth should follow Pratap's dedication, sacrifice, and human values.

The senior historian in the seminar Prof. KS Gupta said that in the 16th century and 19th century, the personality of Maharana Pratap was formed. Pratap's policy, understanding, and foresight were intense. With his help, he won all kinds of struggles.

Girishnath Mathur, Bhanwar Seth of Senior Citizen's Institute, Gopendra Nath Bhatt from Delhi, Director of the Institute Prof. Jeevan Singh Kharkwal expressed his views and said that he struggled throughout his life for the joy of Mewar by sacrificing the pleasures of his friends. Dr. Kulasekhar Vyas conducted the seminar.

Salute to Pratap:- Earlier, Vice-Chancellor Prof. Ss Sarangdevot, Financial Advisor Dr. Harish Sharma, Dr. DC Sharma, Dr. Amia Goswami, Najmuddin, Private Secretary Krishnakant Kumawat, etc. paid floral tributes at Pratap's portrait.

Messages spreading via vehicle loudspeakers by MCU, UIT, and Public Relations Department

Udaipur: Given the second wave of Corona as per the government's instructions, Corona awareness message is being spread in the street, house to house in Udaipur city for its prevention and rescue.

As per the instructions of District Collector Chetan Deovra, the Municipal Corporation and the UIT make efforts to make people aware through loudspeakers on garbage collection auto tipper, mini auto, bolero, etc., in their respective jurisdictions.

On these vehicles, posters, banners, sun packs, sun boards are fixed for spreading the Chief Minister message to wear masks, maintain distance, wash hands repeatedly, avoid crowds, do not spit in public places, and cradle of covid Guidelines.

The Information and Public Relations Department has prepared this promotional material and awareness message-based audio clip running in the mike system.

This vehicle is motivating the common public through the mike system to convey awareness message to the people of Udaipur city on the narrow streets, interiors, significant intersections, nearby areas, and major intersections and public places.

Along with this, these messages continue to be broadcast through the public address system engaged in the city markets and music polls in Pal and other parks of Fatehsagar. At the same time, awareness messages are also being broadcast

through AIR Center and related radio stations.
