[5:41 pm, 26/08/2021] Sarvesh Kashyaph: Patna, August 26.2021: AmbedkarGlobal.com, an international group being run by intellectuals from various countries is hosting a seminar and panel discussion on Social Inclusion for Self Reliant India: Achievements and Prospects on Saturday at AN Sinha Institute of Social Sciences, Gandhi Maidan, Patna to bring forth key issues that impact the social aspects of our future development. This is the first such seminar in Bihar which will be attended by eminent academicians, social workers, intel-

lectuals, bureaucrats and media personalities from the state. Ravi S Chand, Director, Ambedkar Global.com stresses that, "most of social and political movements started from the land of Bihar - whether Gandhi's movement from Champaran or JP movement or reforms by Lord Buddha and Bhagwan Mahavir. However, we realised that there is a big gap in terms of diversity and inclusion when it comes to people of Bihar living and working abroad as well as in india. More representation of weaker sections and women are needed in all walks of life -

be it media, entertainment, sports, private jobs and businesses". This is an initiative aimed to bring various stakeholders together at one platform - to retrospect, debate, engage and come forward with an action plan to encourage participation from weaker section, Dalits and women, differently abled people to participate at larger areas of profession opportunities

not just restricting to fewer government jobs, added Ravi. Ravi informed that the seminar will be attended by Policy makers, educationalist, social workers, entrepreneurs and sports personalities to share their success stories and inspire the youth from this large section as well as to influence the potential employers, policy makers to have an inbuilt approach towards social inclusion and diversity.

## PHDCCI: Domestic and International trade in AYUSH medicine: Issues & Challenges

"The Ministry is working to developing International Standards of AYUSH products with help of BIS that will help to give greater acceptance to AYUSH products globally said by Dr. Manoj Nesari, Advisor, (Ay) Ministry of AYUSH, Govt. of India in a webinar organized by PHD Chamber".

AYUSH Committee, PHD Chamber in association with Ministry of AYUSH, Govt. of India organized a webinar on Domestic and International trade in AYUSH medicine: Issues & Challenges.

The webinar was graced with the presence of the Chief guest, Dr. Manoj Nesari, Advisor, (Ay) Ministry of AYUSH, Govt. of India.

The other eminent dignitaries present were Mr. Pradeep Multani, Sr. Vice President, PHD Chamber, Mr. Ashish Dixit, Sr. Manager, Regulatory Affairs, Dabur India Limited, Dr. Anurag Gupta, Manager, Regulatory Affairs, Shree Baidyanath Ayurved Bhawan Pvt Ltd, Dr. Vikas Punetha, Manager Regulatory Affairs, Amway India Enterprises Private Limited, Mr. Arvind Varchaswi, Chair, AYUSH Committee, PHD Chamber & Managing Director, Sri Sri Tattva, Mr. Jitender Sodhi, Co- Chair, AYUSH Committee, PHD Chamber &

Managing Director, AYUSH Herbs Pvt Ltd and today's session moderator, Mr. Vivek Seigell, Assistant Secretary General, PHD Chamber.

While welcoming all the

eminent dignitaries, Mr. Pradeep Multani said that having no FDI limits, this sector has massive potential for exponential growth, especially in times of public health crisis. Mr. Multani emphasized that there is an increase in popularity, usage, and exports of AYUSH products amidst the pandemic. AYUSH products are mostly organic by-products of plants and have low manufacturing costs as compared to allopathic drugs. As a result, the treatments methods and medicines have been able to reach the masses. The growing global interest in traditional medicine and herbal products has been driving growth in trade in related products. With the surge in exports and growing international popularity of Ayurveda calls there is a need for industry players to improve their quality standards and cost competitiveness.

Mr. Arvind Varchaswi mentioned that the future of Ayurveda is looking fabulous as more and more players are entering the market with innovative products, quality packaging, and strategic marketing activities. He further added that the demand of AYUSH products and services has increased tremendously during covid-19 pandemic. The spurt in exports of AYUSH products in recent years is a direct reflection of its growing popularity in many countries and hence the trade and commerce in the AYUSH sector needed to upscale quickly in order to meet the growing demands from India and abroad. He further said that it is very much important to bring the matter of education also along with the drugs to promote the Ayush system internationally.Dr. Manoj Nesari appreciated the efforts of PHD Chamber for organizing various relevant programs with the industry. He said that it is very much important to bring the matter of education also along with the drugs & services to promote the Ayush system internationally.

Dr. Nesari mentioned about various problems where Industry can work on like developing the products with specific target disease condition second is TB as also one of the major problem where Ayush has a major potential and industry should really needs to work on that and third is Anti-microbial resistance where AYUSH industry has to work on products which can be given as standalone along with antibiotics. Dr. Nesari said that if we come out with such solutions there will be a huge scope of AYUSH system domestically and internationally both. Dr. Vikas Punetha talked about the challenges in the sectors like regulatory process,

the need to educate the mass-

es about the usage and cor-

need to standardize the quality checks of raw materials of ayurvedic products. Dr. Anurag Gupta mentioned that there's utmost need for spreading awareness about the various herbs available in the AYUSH sector domestically as well as globally which will help to increase its consumption at the same time help to bust some myths about

avurvedic medicines. Mr. Ashish Dixit shared a brief presentation on issues and challenge of domestic and international trade in AYUSH medicines. He said that pandemic has made world realize importance of health, immunity, wellbeing where people want it in a natural way. Ayuryeda can be mainstream medical system with upsurge in cred-

quality control, and advocacy assistance. He emphasized

ibility While mentioning the rect dosage of consumption of trade challenges, he said that each avurvedic drug and the Avurveda system of medicine is not in education system, lack of awareness of Avush medicine and availability of Ayush practitioners; infrastructure and credibility are the major points to consider. He further said that AYUSH export promotion council can play a key role and there is need to streamline the

registration process. Mr. Jitender Sodhi proposed a formal vote of thanks to all the dignitaries present for sparing their valuable time and knowledge with the industry. He further said that trends in exports of herbal medicines, classes of herbal products. etc. should be analysed to reorient Indian production to the requirements of International demand.

The webinar was spon-

sored by Ministry of AYUSH Govt. of India, Association of Manufacturers of Ayurvedic Medicine (AMAM) and AYUSH Herbs Private Limited. The webinar was also attended by more than 70 delegates from the Industry and academia.

PHDCCI's Webinar was supported by DLF India; Multani Pharmaceuticals: UFLEX; JK Tyre & Industries; Marble City; Paramount Cables; SMC Investments and Advisors: Blossom Kochhar Aroma Magic; Comtech Interio; DCM Shriram Industries: Radico Khaitan; R.E. Rogers India; Aiit Industries; Synergy Environics; Continental Carriers PVT LTD: Timberworkz; Easy Trip Planners Limited; Jindal Stainless; Modern Automobiles; P S Bedi & Co; IFFCO and Hindware.

### The Bold & Beautiful Lashaay Leon Miss India Australia to Act in Indian web Series

"When you want something, all the universe conspires in helping you to achieve it." by Paulo Coelho is her favourite quote. This certainly rings true for destiny's favourite child and our very own luscious Lashaay Leon.

The bold and beautiful Miss India Australia & Miss India Worldwide 2018 has made both India and Australia proud by having won several beauty titles internationally. The leggy beauty is also a well renowned philanthropist & fashion model having worked with high value brands internationally.

The blue-eyed beauty is a recipient of several accolades in the Entrepreneurial World Internationally crowing her as the female Trailblazer in male dominated industries namely - real estate investments and sales, chain of restaurants, wholesale groceries and vegetables, building-construction and developments, traffic control, cleaning, security

The 6 feet tall international level swimmer shows her athletic resilience in the word of Australian politics simultaneously being associated with several high-end charitable organisations. When asked where she finds the time and strength to do all these things, the hourglass beauty pays her tribute to yoga and healthy clean vegan diet for physical endurance and the B-Town buzzing for her.

says "if your REASON to succeed is strong enough you will manufacture time"

Maybe that is how the exotic beauty found time to leave her impression in a couple of Hollywood movies and bagged her title as "Best Debutant Actress"

The gorgeous damsel reminisces her dark days of struggle and says "Your Attitude determines your Altitude in life"

Lashaay Leon certainly has her eyes on Bollywood as she is a co-producer with Ashish Patel and Naresh Puri for the upcoming web series "Honeymoon Terror" to be released on OTT platform. She would also be seen as the Lead Actress in Season 2 alongside Bollywood actor Dillzan Wadia. The web series also have renowned artist in character roles

Lashay Leon has certainly set the standards high and has

### Indira IVF hits a first in India, inaugurates its 100th infertility treatment centre

**Udaipur:** With the inauguration of two new centres at Uttar Pradesh's Sultanpur and Bathinda in Punjab, Indira IVF, India's largest infertility speciality clinics chain, has notched a major milestone of establishing 100 centres across India. The organisation came out with the watershed announcement as it completes over a decade of seminally aiding couples with realising their dreams of growing their families. It is the first single-speciality infertility treatment chain in India to have 100 fertility centres under its banner.

As a purpose-driven pioneering organisation, Indira IVFhas always prided itself on accessibility by taking IVF treatment to even the remotest parts of the country. All of thisempowers patients in tier 2 and tier 3 cities, in particular, to secure medically proven solutions and also provides for a much-neededrespite financially to those needy lot as couples do not have to travel afar for their treatments.By way of this, Indira IVF has cradled more than 85,000 couples helping them conceive since 2011 and, in turn, cementing its position as a staunch market leader and the most trusted single- specialty fertility chain in India.

Reflecting on the journey, Dr Ajay Murdia -Founder & Chairman, Indira IVF Group said, "We started as a humble diagnostic clinic with sperm bank facilities in 1988 before foraying into IVF treatments a decade ago. Our growth and the number of couples we have been able to help over the years is an indication of the change in attitude towards IVF and infertility in the country. We are pleased to be a part of this journey as more people opt for medical solutions for their health conditions."

Speaking on the milestone. Dr Kshitiz Murdia - CEO & Co-Founder of Indira IVF said, "We are delighted to open our 100th centre and lend a helping hand to more couples who dream of parenthood. With this milestone, we aspire to strive to continually impact thousands of lives. As a part of our continued venture, we plan to increase our reach in the Eastern and Southern regions of the country. We are also keen to expand into the international marketin Southeast Asia to provide state-of-the-art IVF facilities at affordable prices."

Talking about the progressin IVF technology Nitiz Murdia, Director and Co-Founder of Indira IVF said, "The landscape of IVF has changed manifoldand we have a number of technologies today that minimise risk factors. and ensure better outcomes. New advancements in assisted reproductive technology such as artificial intelligence (AI) are taking place regularly and at Indira IVF, we always keep our doors open to adoption of any such technology which would prove beneficial for couples in their journey of bearing children."

Parallel with all the developments, Indira IVF also received a significant minority investment from TA associates, a leading Bostonbased global growth private equity firm in 2019. Following that Indira's network of IVF centres has further expanded in number to 40. As a technology-first organizationand as boasting of having the country's largest network of IVF centres, Indira is today a pillar of support for countless couples to navigate through the meandering and often tedious journey of starting a family,in the first place, altogether.
