## The third convocation of Govind Guru Tribal University organized

### New research on naturopathy methods is Need of the hour - Governor

**Banswara:** Governor, and Chancellor Shri Kalraj Mishra said that ancient medicinal knowledge of plants is still present in tribal life. He has called for new research and research on the naturopathy prac-

Guru Tribal University to preserve tribal art and culture as an important center for tribal traditions and languages research. He said that along with the tribal dialects, conventions, and festivals related to environmental protection, there is also a need to pay attention to preserving the fairs and festivals of the tribal society.

Shri Mishra said that this university should act as a bridge to narrow down the gap between tribal and non-tribal. For

younger generation to know and understand the life character of the tribe, art-culture, tradition, customs, and legends. He also to teach and spread the wisdom and knowledge of ancient India under the auspices of Ved Vidyapeeth in university. Governor, on the occasion, also read out the objectives and fundamental rights given in the Constitution.

The Governor inaugurated the Vice Chancellor's Secretariat-Mahi Bhawan and Tribal Museum online. He also launched the University magazine 'Pratidvini'. In the convocation ceremony in the year 2021, graduates, post-graduation, and Ph.D. degrees were awarded to the successful students in commerce, science, arts, and law, and gold medals were awarded to 21 students who secured the highest marks.

Governor Shri Mishra also made the attendees read about the objectives of the Indian Constitution and the fundamental duties mentioned in the Constitution.

Minister of State for Higher Education Shri Rajendra Singh Yadav said that the development of tribal areas is the top priority of the State Government. He said that the university should play a leading role in making the youth of this area self-reliant by developing innovative and job-oriented courses. The establishment of this university is an essential step for the government to nurture the talents of the tribal region.

tices prevalent in this area.

Governor Shri Mishra addressed the third convocation of Govind Guru Tribal University, Banswara, online from Raj Bhavan on Saturday. He said that scientific knowledge related to environmental protection is embedded in the daily traditions of the tribal society. Serious efforts should also be made to make this knowledge relevant in modern contexts.

The Chancellor called upon the Govind

this, more and more emphasis will have to be laid on skill programs to connect tribal youth with self-reliance.

The Governor said that this university had made a unique identity in the state in a short period. The university's plan to start tribal theater will give new dimensions to the talent here. Expressing happiness over the completion of the first phase of the Tribal Museum, he said that this would provide an opportunity for the

presented the progress report of the academic and non-teaching activities of the university. On this occasion, the Chief OSD of the Governor, Shri Govind Ram Jaiswal, members of the University Management Board and Academic Council, teachers, and students were present directly and online.

### Sangam University becomes training partner of BOSCH(India)Ltd

**Bhilwara:** In tune with the objective of NEP2020, Sangam University Bhilwara has been making strides in the field of Skill development. After having sign MoU with Logistics skill council, Chennai and SCM-, Delhi, University has now joined hands with BOSCH India Ltd (German multinational engineering and technology company) and has been appointed as a Training partner for providing skill training to both Faculty member and students of Sangam University.

Vice Chancellor of the University Prof. Karunesh Saxena expressed his gratitude that the university now connected with world's famous brand Bosch India Ltd for the faculty and Student training of Sangam University on the subject of nation building approach and behavior in skill development, which is a matter of great pride. In a first phase Faculty member of Sangam University got training and subsequently 38 Students of Sangam University of different Program took part in the training Program. The University coordinator of Program Dr Asif Parvee said that Bosch has implemented this bridge program under the CSR program to meet the growing need of skilled manpower in all the industry sectors of the country. In this nation building approach and behavioral training, Faculty Dr. Asif Parvee, student Naman Chaplot, Mahima Nenavati, Ronak Palod, Harsh Yaduka, Tanisha Surya, Simran Kaur, Paridhi Bhadada, Gunjan Jain, Nilofar Sheikh etc. 38 students took part in the training. Registrar Prof Rajeev Mehta congratulates all the trainees.

## The ongoing deadlock in Sukhadia University ended, and all the employees returned to work

**The only goal is the development of the University and the secure future of its students. We are determined and ready to solve all the problems and welfare of the employees - Vice-Chancellor Professor Amarika Singh**

**Udaipur:** The ongoing standoff in Mohanlal Sukhadia University has ended with the return of Professor Amarika Singh from leave. The employees sitting on dharna in the University's administrative office greeted the Vice-Chancellor, Professor Amarika Singh, by feeding him sweets and thanking him for the successful talks.

The non-teaching staff reiterated their resolve to always stand with the Vice-Chancellor in the development of the University.

Vice-Chancellor Prof. Amarika Singh met and interacted with the university employees and addressed all the employees.

A meeting was held with Amarika Singh in the administrative building, and he assured to settle all the problems and their demands and expressed his willingness to resolve them. The demands on which the university employees were discussed, mainly related to promotion, health education, increase in honorarium of self-sustaining employees, implementation of old pension and medical schemes for employees appointed after 2004, etc.

While addressing the University's employees, Professor Singh said that our only goal is to make Mohanlal Sukhadia University the best in the national education world. You and all of us together are making a Bhagirathi effort for this. We will never do or tolerate any such act which may harm the University and its reputation. Our sole goal is to develop and expand the

University, and we are determined to fulfill this goal. As a result of our determination, the University's academic ranking is continuously going up. Its borders are expanding in all directions. The University got free land from the government at Bilotta, and the North Campus is under construction.

Various new employable courses and faculties are being started. Our sole goal is the betterment of the University and its employees.

On his return from leave, Vice-Chancellor Professor Amarika Singh ended all the deadlock by talking to the employees of Sukhadia University.

The Vice-Chancellor assured that any indecent behavior would not be tolerated against the university employees in the future. In his address, he told the employees that the University is earning a reputation at the national level today, we are always ready to solve all the issues of the employees. Through dialogue, it is possible to solve all the problems. If anyone tries to obstruct the regular work of the University, then the strictest action will be taken against him, and a police FIR will be lodged.

In a cordial atmosphere, President of Employees Union Shri Pushpendra Purohit, Vice President of National Employees Union Shri Bharat Vyas, Assistant Staff President Govind

Joshi, Roshan Teli, Dinesh Kothari, Pushkar Nagda, etc. talked, and after that, all the employees expressed satisfaction and happiness!

The staff leaders assured the Vice-Chancellor to cooperate in every way by feeding them, sweets. During the talks on the issues of the employees, when the Registrar was called for talks, he refused to attend the meeting.

### Face and lips will get the desired shape without plastic surgery

**Dr. Arvinder Singh becomes life member of International Face Injector Society**

**Udaipur:** Dr. Arvinder Singh, CEO of arth Group, has recently got a Life Membership of the International Face Injector Society. With this technique, lips and face can be shaped as desired without any surgery with just filler. Through this training, removing wrinkles of the face, pits under the eyes, chin texture, lips etc. can be given an attractive shape in just a few hours. The specialty of this technique is that a person can see his change being filler and can choose the shape according to his mind. Dr. Singh said that as we all know that the face is delicate and also an important part of our body, therefore special training is necessary for injection on the face. Dr. Rajat Bhandari, Secretary, International Face Injector Society, while granting membership to Dr. Singh, said that Dr. Singh received special training for this qualification from the International Academy of Aesthetic Training, Sweden and has met their quality standards.
