

## Professor Amarika Singh is known for her contribution to higher and technical education

**Udaipur:** Professor Amarika Singh is known for his contribution to higher and technical education. When most of the students studying engineering from Uttar Pradesh and North India used to go to the southern states like Karnataka, Tamil Nadu, at that time Professor Amarika Singh, doing revolutionary work in the field of technical education in Uttar Pradesh, established several dozen engineering colleges, where at least Engineering and technical education is being made available to the students in money.

Today Sukhadia University is benefiting from the same knowledge and experience of Professor Amarika Singh, where architecture and engineering colleges have opened, as well as nursing and medical colleges and many other employable technical courses are running in the pipeline.

Earlier, where land was being sold in Sukhadia University, now the university is expanding.

Without spending a single penny, the state government has allotted 60 bighas of land at Bilota, just 20 km from the university on Nathdwara highway, where the North Campus is being built. Sitting on a chair with the

peons, waiting outside the officers' room at the Jaipur Secretariat, Amarika Singh,

Similarly, in Nimbahera, when the private Srikalaji Vedic University, established by the unionized brothers under the rule of BJP, came into financial trouble, seeing the loyalty and honesty of Prof Amarika Singh's religion and culture, he built a great campus in 50 bighas of land worth about 100 crores. Of the cost, decided to give free of cost to Mohanlal Sukhadia University. Efforts are also being made to take land from Devasthan Department for the university's South Campus, in which medical education faculty will be opened. Udaipur private college is selling medical seats by taking lakhs of crores of rupees there our state university is trying to open its own

with his efforts, has allotted this land free of cost for the North Campus of the university.

The market value of this land received by Sukhadia University for free is more than Rs.60 crores. Those who allege financial irregularities

should think that the children studying in colleges and courses opening here will be from Udaipur and Mewar or from Uttar Pradesh.

Similarly, in Nimbahera, when the private Srikalaji Vedic University, established by the unionized brothers under the rule of BJP, came into financial trouble, seeing the loyalty and honesty of Prof Amarika Singh's religion and culture, he built a great campus in 50 bighas of land worth about 100 crores. Of the cost, decided to give free of cost to Mohanlal Sukhadia University. Efforts are also being made to take land from Devasthan Department for the university's South Campus, in which medical education faculty will be opened. Udaipur private college is selling medical seats by taking lakhs of crores of rupees there our state university is trying to open its own

medical college, support it or condemn it.

All the campuses and courses are being opened as per the Act and Rules of the University. The motive of the university is the expansion and innovation of education. Instead of appreciating the opening of the new campus, faculty, and new departments in the university, it is being condemned in one voice everywhere. As soon as the service ends, the Vice-Chancellor will return after a few days. It is not surprising, however, to oppose Professor Amarika Singh; this is the practice of this university. An attempt was also made to stigmatize the International Personality and Greatest Professor GS Mahajani Sahab (1963-1972), who came to Udaipur at the request of Sukhadia Ji to build this university after which the main road in Poonia is named.

Prof. Amarika Singh his the radish of which field? Still, in the history of Mewar, future generations will be indebted to him for his efforts and historical work in the world of higher education.

In the era when passing was a challenge, in some times, Prof. Amarika Singh's entire academic career has been throughout First Division. Prof. Singh did high school in 1976 with first class in science stream, intermediate in first-class from science class in 1978, first-class BSc Honors in chemistry from Lucknow University in 1981, first-class MSc in organic chemistry from Lucknow University in 1986. Professor Amarika Singh received his Ph.D. from Lucknow University in 1986.

**The degree has been obtained**

At the Institute of Engineering and Technology

- Uttar Pradesh Technical University. He had been working on the post of Professor from 20th Oct 2007 till he retired in 2020.

During his tenure in the University, Professor Amarika Singh has served in many vital positions like Chairman, Department of Applied Science, Convenor - Board of Studies, Dean - Student Welfare, Chief Warden, Proctor, and Dean - Sponsored Research. Presently Professor Amarika Singh is not taking the total salary of the Vice-Chancellor as pay minus pension from the university. They are taking only half the salary of the post of the Vice-Chancellor. In contrast, people who have come to the position of Professor in the university are also taking pension as per the rules and are also taking a protected full salary. In such a situation, how far is

it justified to accuse the Vice-Chancellor of financial irregularities without knowing it?

The 108th Science Congress will be held in Udaipur next year, in which about 30-35 thousand scientists and dozens of Nobel Prize winners will come. No university and VC in Rajasthan could dare to invite Science Congress. There is a tough competition in prominent universities to organize Science Congress, and Professor Amarika Singh has the ability that Science Congress is going to be organized on the soil of Rajasthan and Mewar.

Considering this university to be only a den of politics, some unqualified teachers for whom desired things are not happening now are working to mislead Hon'ble Kataria Ji and others by giving misleading information.

- Dr. Munesh Arora

## If we all try together, the country will reach new heights: Kataria

**Udaipur:** Taking inspiration from the fighters who sacrificed everything for our country's freedom, if we all try together, then surely we can take the country to new heights. We have to make the organization of Amrit Mahotsav of Azadi. A success by paying tribute to the martyrs with our actions and efforts, not just words. The Leader of Opposition and MLA of Rajasthan Legislative Assembly, Shri Gulabchand Kataria, expressed the above views.

He was addressing the public after a five-day multimedia exhibition organized by the Regional Public Relations Bureau, Ministry of Information and Broadcasting, Government of India, Udaipur in the premises of Government Fateh Higher Secondary School. On this occasion, MLA of Udaipur Rural, Phoolsingh Meena, and Assistant Director of the Bureau, Rameshwar Lal Meena, were present on the stage.

Shri Kataria further said that in the last 75 years, everyone had worked together to take the country forward. But in these years, those who have been deprived of the benefits of government schemes until now are getting the benefits of these schemes only on the basis of eligibility without any recommendation. He said that today such leadership had been given to this country which has character, thinking and dedication for the country. We should also contribute to the development of this country according to their dreams.

Addressing the people on this occasion, MLA, Udaipur Rural, Phoolsingh Meena said that in the last five days people have learned about the schemes being run for the welfare of the people in the country through this multimedia exhibition. Now it is the responsibility of all of us that we should pass this information to those people who need these schemes or for whom these schemes are being run. It is the responsibility of all of us to bring this information to the ground.

Initially, while welcoming the guests, Assistant Director Rameshwar Lal Meena said that this exhibition was attended by students of more than 100 educational institutions of the city, workers of the Women and Child Development Department, and Asha Sahayogini and a large number of ordinary citizens observed various activities.

He said that in this exhibition, information about various public welfare schemes of the Central and State governments was displayed along with the Amrit Mahotsav of Azadi. Apart from this, the Department of Agriculture, Indian Postal Department, Department of Social Justice and Empowerment, Department of Women's Empowerment, Zilla Parishad's Swachh Bharat Mission and Mahatma Gandhi National Rural Employment Guarantee Scheme, Integrated Child Development Department, District Lead Bank, Tribal Regional Development Department at the exhibition site Stalls were set up by Apart from this, arrangements for Covid vaccination were made by the Medical and Health Department by setting up stalls.

On this occasion, on behalf of the department, the departments who put up various stalls in the exhibition and the officers and employees who helped organize the exhibition were honored by the guests.

During these five days, cultural programs and various types of competitions were also organized along with lectures by experts on various subjects. On occasion, a quiz competition was organized for the people present and they were also rewarded at the hands of the guests. The program was conducted by Regional Publicity Assistant Bharat Bhargava, while Regional Publicity Officer Parag Mandle expressed gratitude.

The exhibition was inaugurated by Shri Gulabchand Kataria, Leader of Opposition and MLA of Rajasthan Legislative Assembly, in the presence of Assistant Director Rameshwar Lal Meena and other officials.

### National Safety Week begins at Pacific University

**Udaipur:** National Safety Week was inaugurated at Pacific University. The chief guest of this program was Mr. Anup Singh Jhala (Fire Safety Officer Hotel The Oberoi Uda Vilas, Udaipur). The program was started by lighting the lamp in front of Maa Saraswati. Dr. Mukesh Shrimali welcomed the chief guest. Dr. Mukesh Shrimali said in Safety Week, organized need-based activities, self-compliance with legal requirements, and professional H.S. E (Health, Safety, and Environment) activities to be promoted among the employees at the workplace. Shri Anup Singh Jhala told about the importance of safety in daily life and rescuing the injured person in an accident.

Prof. Dave (President Pacific University) encouraged the students to develop a safety culture and made them aware of safety. Mr. Amos Mark designed the workshop on Safety Culture. The students participated with great enthusiasm and learned the nuances of security. On this occasion, Dr. Anurag Mehta, Dr. Subhash Sharma, Shri Neeraj Kumar Khatik, etc., were present. Shri Sunil Sharma gave a vote of thanks.

### Normal headache can also signify some disease: Dr. Manish Kulshrestha

**Udaipur:** Headache is a prevalent disease in life, and generally, every person suffers from a headache at some point in their lifetime. There are many different types of headaches, and they can be an early symptom of a severe illness. Dr. Manish Kulshrestha, Senior Neuro physician at Paras JK Hospital Udaipur, said that there are two types of headache, first primary headache and second secondary headache.

Primary can be caused by pain or prob-

lems with the sensitive nerves inside the head. These include blood vessels, muscles of the head, nerves of the head, and neck. These can also be caused by changes in the chemical activity of the scalp. Tension headaches are the most common form of primary headache. In 60-70 percent type of headache, a general feeling of strain felt in the whole head, and in this, the patient may also have complaints like tension or depression. In this type of headache, there are no incidents like nausea, vomiting, or increased discomfort with bright light and sound, as is common in migraine. For its treatment, along with some medicines, psychological and behavioral therapy is also done.

Dr. Kulshrestha said that migraine is the second most common form of primary headache. In this type of headache, the patients complain that they get headaches due to hunger, going in the sun, going to the noise, the smell of some perfume, and this headache is usually from one side or part of the head. Begins. This headache can last from 4 hours to 72 hours. Nausea and vomiting may also occur as the intensity of the headache increases. If the headache occurs less than eight times in a month, it is called episodic migraine. If it happens more than eight times, it is called chronic migraine. In this type of headache, if the frequency of headache is four times or less in a month, the patient is treated with trigger management and painkillers (headache only). Preventive regular medicine is also given along with the frequency of more than four times.

In Cluster headache, which occurs in one side of the head and mostly occurs in the back part of the eye, due to which one eye becomes smaller and due to this the eyes and nose start to water. This headache usually lasts from 15 minutes to 3 hours. The headache is very intense. In this type of headache, in addition to headache medicine, preventive medicine is also used for some time. Symptoms of secondary headache appear when the head's sensitive nerves are being disturbed for some other reason. Sinus, eye-related diseases, brain infection, any kind of injury, overdose of pain medicine and stroke in the head etc.

Dr. Manish Kulshrestha said that each type of headache is generally based on the patient's history. Special investigations are required only in certain circumstances, such as the sudden onset of headache after the age of 40, or if a patient is having trouble seeing along with the headache or someone has a problem of weight loss with fever. If it is occurring, the secondary headache should be investigated, including MRI, CFS, eye examination, etc. After this, the patient should be given treatment and medicines. So that their problem can be properly diagnosed.

### Fino, the digital bank, provides passbook facility to customers in Rajasthan

**Udaipur:** Fino Payments Bank, the digital bank for the masses, has introduced passbook for customers effective 1st March 2022. This makes Fino the first payments bank to provide the facility. The decision to issue passbooks by Fino, which facilitates paperless banking, is courtesy the bank's emphasis on listening to its customers through various platforms. The feedback thus received is the key behind some of the path breaking product and service innovations Fino has introduced since its launch in 2017. Anand Bhatia, Chief Marketing Officer, Fino Payments Bank said, "Majority of our customers are new to the digital set up and therefore prefer a physical validation of their accounts. A physical passbook gives them certain comfort and assurance that their money is safe. We are happy to listen to our customers and offer services that help enhance engagement experience. We believe the passbook service will further strengthen our bond with customers and encourages them to transact more at Fino points."

Interestingly, the passbook service comes more than a year after the launch of the country's first subscription based savings account Shubh, by Fino. Initially the passbook will be made available to subscribers of Shubh

account as well as Bhavishya minor accounts across Fino bank branches and merchants who have passbook printers.

Shubh and Bhavishya customers of Fino can visit the nearest branch or printer enabled merchant point to get updated passbook instantly. A Fino merchant point is the local kirana store, medical shop, dairy outlet or the mobile repair shop. These points are playing a critical role in the adoption and usage of digital banking services. Across the country, Fino has a network of over 8.6 lakh such small merchants as bankers. In Rajasthan, Fino has a network of over 26000 neighbourhood banking points that includes eMitra outlets and more than 900 Bharat Petroleum (BPCL) petrol pumps. At these points, customers can open new bank account, do deposits, withdrawal, money transfer and bill payments. One can avail third party offerings such as gold loan, health, general insurance and even pay loan EMIs. Bank in your neighbourhood, hamesha!

### 37th Divyang and poor mass marriage of Narayan Seva Sansthan

**Udaipur:** in the 37th free handicapped and poor youth-girl mass marriage ceremony of Narayan Seva Sansthan, 21 couples took the holy fire as a witness in the Seva Mahatirth of the Sansthan located at Lyon Ka Guda on Sunday. The chief guest was Lakshyaraj Singh Mewar, a former royal family member. Institute founder Padmashree Kailash 'Manav', Kamala Devi Agarwal, President Prashant Agarwal, Vandana Agarwal, and special guests Sanjay Bhai Daya-South Africa, Sohanlal-Ekta Chadha, and Bharat Solanki-USA.

The traditional rituals of marriage started with the worship of Ganpati. Chief guest Lakshyaraj Singh Mewar said that the work done with the spirit of service always gives happiness. It has also been a feature of Indian society from the beginning. Mewar has always been a role model in this direction. He said that Mewar has a worldwide identity because of history, culture, and tourism; Narayan Seva has given more breadth to this identity. Kailash 'Manav' said that the disabled brothers and sisters who would have never imagined settling down in their household considering their disability as a misfortune, today with the co-operation and grandeur of the society, this means being fulfilled.

Institute President Prashant Agarwal said he does not like to dream, and when an unimaginable dream comes true, it is not easy to describe his happiness. 21 Divyang couples have started a new life in this spacious courtyard covering such moments. These couples are from different states, including Rajasthan, Madhya Pradesh, Gujarat, Uttar Pradesh. He said that in the last 36 marriages, 2130 couples are happy to have their home and world. Some of these joints are disabled, and some are disabled. In a team, one is disabled; then the partner is disabled. There is also a couple who are blind.

During the Mehndi ceremony, women guests from different states gave stunning performances of traditional songs and dances of Mehndi on the beat of Dholak. When the team of Vandana Agarwal and Palak Agarwal applied mehndi with affection, this moment became unforgettable for the brides.

The bride and groom's bindoli were taken out from Agrasen Square to the institute premises at 9.15 am during the marriage ceremony. In which the guests from different provinces danced fiercely to the tune of Band Bajan. Later, all the grooms performed the ritual of toran in sequence. After this, the newlyweds garlanded each other amidst the shower of rose petals on the hydraulic stage. After this, the Acharyas present at the 21 altar-kinds got the rituals performed by the Vedic method. At the time of farewell, the bridegroom came out of the institute premises to go to Sajan's house in a doli where the bridegroom and his family and other guests were present. During this, everyone's eyes became moist. Newlyweds were happily sent off to their respective homes in the vehicles of the institute, along with the household items and gifts given by the guests. The ceremony was telecast live from the Sanskar channel. Mahim Jain conducted the stage.

**A couple like this too-Jyoti became the melody of music**

A couple of low-income families were also blind in the mass marriage that decorated the faces of the disabled. Mohan, a resident of Neemuch, went to Jodhpur two years ago with the urge to learn some work. There he participated in a blind music competition in the blind school. Listen to Pooja's melody before her performance. Got stunned by her melody. Pooja also liked Mohan's song. After the competition, both of them got attracted to each other in the first meeting and fell in love with each other. After returning to their respective homes, they started talking on mobile for hours. It was agreed between the two to be the companions of life and informed the family members about their decision.
