Rajasthan Information Center Mumbai office was established in 1989. It was established to keep the migrant people of Rajasthan connected with Rajasthan and to exchange and give information about the schemes being run by the Government of Rajasthan. At present, Rajasthan Information Centers are established in the metropolis of the country's capital Delhi, the country's financial capital Mumbai and Kolkata.

Rajasthan Information Center Mumbai also has a library where old books are kept. The work of coverage is also done by this office during the VIP visits of the Chief

Minister and Ministers from the Government of Rajasthan. The Public Relations Officer has been working here

continuously since 1989. This office remained closed for the last two years as the officer's post was vacant during the

by making pictures on the walls. This work has been done by the Public Relations Officer

Corona period. In December 2021, Public Relations Officer Smt. Ritu Sodhi was posted here by the state government.

Accepting the challenge of revamping the office here, Mrs Sodhi started working. First of all, an attempt has been made to clean the office and give it a new look. The walls of the office have been fixed and painted one by one. They have been made attractive

herself so that not only can the office be rejuvenated but it can also be saved from getting damaged. In Mumbai, there is more rain, in such a situation, the walls get spoiled due to dampness and there is a danger of termites in the books too.

Here the acrylic colour has been done firstly by applying cement on the walls, which will last for a long time and will also prevent dampness on the walls. At present 70 percent of the work has been completed. Mrs. Sodhi told that she has a special interest in painting. She is doing this work considering her responsibility. Earlier, she had also made wall paintings in the Sri Ganganagar office during the Corona period. She also presented Shri Ganganagar MLA Shri Rajkumar Gaur, then District Collector Shri Zakir Hussain and member of Mahatma

Gandhi Jeevan Darshan Samiti Shri Praveen Gaur by painting pictures of Mahatma Gandhi.

Rajasthan Information Center welcomes you to a painting made on the outside gate of the Mumbai office. Bright colors have been used according to the image of Rajasthan inside. Not only this, wooden pieces lying in old junk, old matki and tiles have also been painted and given a new look. Old and almost worn out plastic and wooden tables have also been decorated with the help of MDF board. Mrs Sodhi said that by Diwali this office would be completely revamped. This new initiative has been appreciated by the visitors visiting Rajasthan Information Center Mumbai. In the coming time, the publicity by this office will also be increased by using new technology.

Stop all the ways to return, If you want to move forward in life - Samkit Muni

Bhilwara: If all the ways to return are closed, a person cannot go astray. To move forward, you must close all the ways to go back. As long as you do not do this, there is no trust in those with whom you live and live. You will be betrayed. Seeing your life, all the ways to return are open. Earlier, after marriage, all the methods for the girl to return were closed, but now the divorce cases are increasing due to the parents giving up their education. These views were expressed by Shramanasangh Advisor Sumatiprakashiji M.S. Pragya Maharishi Dr. Samkitmuni, M.S. On Friday, the third day of the Asht-day Paryushan festival,

he expressed his views while addressing thousands of Shrivak-Shravaikas in the Modi Hall of Shanti Bhavan. While discussing the Atangarh Sutra in the Dharma Sabha, Puja Samkit Muni explained the importance of the Paryushan festival. He said every sentence of this agama is a source of inspiration. On the night of Amavasya, there will be light by lighting so many lamps, but the night will not end. Millions of stars in the sky give some light when they twinkle but cannot end the night. The night ends only when a ray of the sun scatters its light on the earth.

The power to end the night is in the sun. Munishree said there is a dark black night within us, and we try to finish it, but it is like lighting a lamp. There is light for a while, but then it becomes dark. Our efforts are like those stars which light up but cannot end the night. The power to end the night within us lies in the Tirthankaras and their voices. Like the light of the sun, it is beneficial to all and is beneficial to all and is capable of ending the night.

Puja Samkitmuni said that if this life is heard and worshiped during the festival days, it weakens our attachment and hurts it; as long as there is attachment, the possibility of a person getting stuck increases. This attachment stifles and confuses. If we get stuck in something, then understand that when the time comes, we will have to hang there. He said Paryushan is a packed day to break the attachment.

Hide the sin from the world, but it cannot be hidden from God. So criticize your vices. One who reaches the courtyard of God with reverence becomes a God. The dirty drain water also gets absorbed in the Ganges and becomes Gangajal. Munishree said that whenever he reached the court of God and Guru, he arrived with reverence and not with pride. When you come to the place where you want to end your satisfaction and start living in dignity, then it will become strong. Learn from the life of a tortoise and keep faith in yourself

While narrating the story of tortoise and hare, Puja Samkit Muni said that one could learn how to manage life from the life of a tortoise. This story tells that one should keep trying in difficult moments, not drowning in despair. Think that the question is not about winning or losing; once I have joined the race, I will not separate in the middle.

He said that this is also the principle of God that once you have joined the race, even though the path may seem very difficult and the destination is far away, victory will not come on your part, but still, you keep walking like a turtle and keep moving forward. If the tortoise did not give up his confidence, he would win. One would have as much confidence as a rabbit that this would happen; I would win. Nothing should be taken lightly. When we take something lightly, the situation becomes like a rabbit, those who could have won the bet lose the game.

All ashes sparking anger, forgiveness is like nectar - Mahasadhvi Madhu Kanwar Masa

Bhilwara: The forgiving person, neither affects nor is affected by anyone. The water of any river, canal, or ably mixes quickly; in the same way, people should also love each other. The water mixes in, but why can't animals and animals meet?

In the absence of forgiveness, how many houses have been broken and the affection between the society has ended? The spark of anger consumes everyone. Every year you hear in the Kalpa Sutra the life character of Lord Mahavira, how the cowherd hammered nails into his ears. It is described in Shrimad Ankrit Dasha Sutra that embers were placed on the head of Gajasukumal Mahamuni, but even then she did not bring any hatred to his mind, far from saying anything to anyone. But we cannot bear it if someone speaks bitter words to us. These thoughts were expressed by Maha Sadhvi Madhu Kanwar Masa Adi Thana while addressing the gathering at Ahimsa Bhawan organized in the Dharma Sabha. Sadhvi Pratibha Kanwar Masa said everyone knows it is harmful to be angry. Yet 90 out of 100 people do get angry. But whenever you get mad, the work is worse than it gets done. Due to anger, there is only loss of body, mind, and soul. An angry person neither feels hungry properly nor sleeps appropriately. When anger comes, it blinds you, and when it goes, it makes you ashamed. In anger, a man does not know what to do or not. Regrets later - I shouldn't have said that. Sometimes it takes ten years to build a relationship, but 10 minutes of anger breaks that relationship. Sadhvi Dr. Chintan Shri Masa, while giving a pledge not to get angry with the family on the topic of fasting or boiling, said that milk comes to a boil after heating, milk starts coming out, then we try to stop it by splashing cold water in it. Similarly, whenever there is a boil of anger in our life, we should wear the time of serenity because equality and stability get destroyed where there is anger. While narrating a story, Sadhvi Chintan Shri Masa said how a whole family got damaged due to irritation. If a person cannot control his anger, he should also make an angry room like a drawing room or guest room in his house so that there is no conflict between the family members.
