## The rules of God flying in front of the factory of greed - Samkit Muni

**Bhilwara:** Friday is a symbol of love, happiness, and prosperity. Many seekers reach such a place with the help of sacrifice and penance, which is as radiant as Maha Shukra. Maha Shukra is the praise of the Supreme Soul, Lord Mahavir. Venus star is a symbol of auspiciousness and love. Only when there is love is there non-violence and kindness. You have to understand the difference between love and infatuation. There is a condition within the attachment and in a circle. Infatuation is limitless, and love is eternal. Infatuation is narrow, and love is vast. Infatuation is with a few persons, whereas love is with all living beings. These views were expressed by Shramanasangh Advisor Sumatiprakashji M.S. Disciple of knowledge, Pragyamaharishi Dr. Samakimuniji M.S. In Shanti Bhavan on Friday,

on the third day of the seven-day special discourse series "Aapka War Aapse Kya Kehta Hai," the people born on Friday were told about the importance of that war in their lives. He said that when love is born, cooperation starts; otherwise, there is competition. Only when there is love within the soul's goal will be cooperation.

There can be no cooperation when there is hatred. The competition continues until cooperation towards all living beings does not arise. Munishree said that it is the voice of the Supreme Soul that you should love even the most subtle creatures. Lord Mahavir said that hates sin, not the sinner. Do not hate the sinner because no one knows when every person or creature will change.

Pujya Samkit Muniji said that according to historians, about 326 people of Vishnoi society, under the leadership of Amrita Vishnoi, chose to lay down their lives by clinging to the trees in Khejadli village for the protection of them but did not allow them to be cut. Referring to the Vishnoi society's love for trees, he said that love has no limit; it is limitless. The 29 rules given by the gurus of the Vishnoi organization are very close to Jainism.

The Government of India celebrates Environment Day every year in his memory. This work of Vishnoi society is a unique example of love. The yearning he had for nature is inspirational. He said that God has also told Jains not to allow trees to be cut at any cost, but the rules of God are being flouted in front of the factory of greed.

Munishree said that a person born on Friday should do the sadhana of Namoh Ariantham and, as far as possible, should avoid worshipping the creatures of Tevukaya. By doing this, the Friday associated with white color becomes encouraging for us. Friday symbolizes that in those moments when you are moving forward to talk with anger, in those moments, speak with love, then you can free the person in front from worry and trouble.

At the beginning of the religious assembly, the vocalist Jaywant Muniji M.S. Presented the song "Japiye Mahamantra Navkar Isi Se Hove Beda Paar." Inspirational Bhavantmuniji M.S. Also received. Rajendra Surana, Minister of Srisangh, conducted the Dharma Sabha.
