

All India Agricultural Women Research Project @agricultural development

A five-year review team meeting of the All India Agricultural Women Research Project was organized at the Research Directorate of Maharana Pratap University of Agriculture and Technology, Udaipur. The chief guest of the program Dr. Ajit Kumar, Vice Chancellor, Maharana Pratap University of

Agriculture and Technology, Dr. RK Samanta, Review Team Chairman, Dr. Mahalakshmi Reddy, and Rashmi Singh, Review Team members, and Dr. AK Panda, Member Secretary of the project reviewed.

Dr. Ajit Kumar, Karnataka Vice Chancellor, in his address, explained the importance of

women's empowerment and talked about the critical role of women in different fields. Welcoming the guests, Dr. SK Sharma, Director of Research, spoke about the work done by the project in 5 years and said that it is essential for innovations to reach the villages. In his introductory remarks, the chairman of the meeting, Dr.

RK Samanta, stated the need for the day to market innovations for women and motivated them to make research results readily available. During the technical session, Dr. Vishakha Bansal, Dr. Sudha Babel, Dr. Gayatri Tiwari, and Dr. Vishakha Singh presented the results of the research work done over five years. Dr.

Vishakha Bansal, a Unit Coordinator, talked about the objective and action plan of the project and outlined the work to be done further. Dr. Meenu Srivastava, Dean CCAS, said that the technology had been disseminated in various villages through the task of development of rural women by the college. Dr. Sumitra Meena,

Dr. Kusum Sharma, Dr. Seema Dangi, Dr. Sneha Jain, and Charu Nagar exhibited their works in the program. Dr. AK Panda, Member Secretary, presented the research summary in the concluding remarks. Ultimately, Dr. Vishakha Bansal, the Unit Coordinator, proposed a vote of thanks.

Allen honored the country's talent

Kota: The prize distribution ceremony and success power session of Talents, one of the country's most significant talent search examinations organized by ALLEN Career Institute Private Limited, took place on Sunday. Meritorious students and their parents from all over the country reached Kota to participate in this program held at Samaras Auditorium of Allen Samunat Campus, Jawahar Nagar.

In this function, ALLEN Career Institute, keeping its tradition, honored the toppers of both Talentex-2022 and Talentex-2023, organized this year. On this occasion, the top 20 students of Talentex class 5 to 10 of both years were awarded cash prizes, gold and silver medals, and certificates. Last year could not be held due to Covid.

Director of Allen Career Institute Private Limited Rajesh Maheshwari, Naveen Maheshwari, and Dr. Brijesh Maheshwari were in the program. Director Rajesh Maheshwari started the program by lighting a lamp. Indian football player Arjun Arwadee Padma Shri Baichang Bhutia was the special guest at the function.

All India Rank-1 in NEET-2016, a student of ALLEN in the program, and Dr. Het Sanjayshah, currently studying neurosurgery at AIIMS Delhi, motivated the students. The Talent-2023 examination was conducted this year in 403 cities of 25 states and union territories, in which about 1 lakh

48 thousand students appeared. This examination for classes 5 to 10 was held on 9 and 16 October. For this, the whole country was divided into seven zones.

Stay fit and play to win.

Footballer Baichang Bhutia gave the mantra of success in the program and said that Kota offers the best coaching to the country's students. Making his career and coaching like Allen

is fulfilling the dreams of the country's students. Along with sound studies, students should also focus on staying fit. We are all playing and have to play to win. There is a lot to be learned from sports. Talking about football especially, the biggest lesson is to walk together. You must watch FIFA these days; a single player cannot win any team match. Everyone's contribution is necessary for this.

Similarly, your success also requires a team effort. Your parents are doing their duty. Your faculties are giving you the best. You are getting a good atmosphere here in Career City Kota. Now you have to put the ball in the goalpost. Try to give your best, then success

is sure. Batching Bhutia also interacted with the coaching students in the afternoon. During this, the students also asked questions about Baichang Bhutia. In response to a question, he said that whether it is studies or sports, it is necessary to have smartness. The wiser we play or study, the better the dimensions we establish. During this, while giving his motivational talk, he

said to take a life goal and work hard for it with all his heart. No matter what the obstacle, we have to stick to our plan. Success comes after hard practice and penance.

Here are the national toppers

In Talentex-2022, Ayushman Padhey in class 5, Rohan Mohanty in class 6, Pradyuman Agarwal in class 7, Chirjeeb Kar in class 8, Arnab Singh in class 9, and Anvesh Shubham in class 10 were the toppers. Chirantan Sethupathi in Class 5, Pradipta Hazra in Class 6, Arya Majhi in Class 7, Praneeet Mathur in Class 8, Masoor Ahmad Khan in Class 9, and Rajit Gupta in Class 10 stood Rank-1 in Talentex-2023. Fifty thousand

cash, a gold medal, and a certificate were given to the toppers of classes 5 to 7. The toppers of classes 8 to 10 were given Rs 1 lakh, gold medals, and certifications. Similarly, Rs 35,000, a gold medal, and a certificate were given to the toppers of classes 5 to 7 on rank 2. Rs 40,000, trophy and certificate were given to the second topper of class 8, Rs 50,000 to the second topper of class 9, and Rs 75,000, gold medal and certification to the second topper of class 10. Thirty-five thousand rupees, a gold medal and certificate to the third topper of class 5 to 7, 40 thousand rupees to the third topper of class 8, 50 thousand rupees to the third topper of class 9, and a gold medal with 75 thousand rupees to the third topper of class 10 and certificates were given. Cash prizes were given to 9500 students at the rate of 4750 per year in both years out of the students who participated in Talentex across the country.

Success power session organized.

Gave information about which fields in science and in which institutes better studies can be done. The program began with a successful power session addressed by Pankaj Birla, Senior Vice President of ALLEN, CR Chaudhary, and Tushar Parekh, Vice President of ALLEN. During this, the students were told about the importance of the examination conducted by ALLEN and what the possibilities are in the future in which field.

Successful operation of ball-shaped cancerous tumor between heart and lungs

Udaipur: At Pacific Medical College and Hospital, an 11-year-old boy from Bhilwara was given a new life by successfully operating a ball-shaped cancerous tumor in the middle of the heart and lungs.

Child and infant surgeon Dr. Praveen Jhanwar, Cancer surgeon Dr. Saurabh Sharma, Department of Anesthesia Dr. Swati Sharma, Dr. Puneet Jain, Dr. Sunny Malviya, Nursing staff Suresh, Jaiprakash, Manish and Kalpesh's team remained part of in this successful operation.

In fact, due to sudden chest pain and shortness of breath, the family took this 11-year-old child to the local doctor, and after doing a CT scan, it was found that there was a ball-shaped lump in the middle of the child's heart and lungs. So the doctor advised the relatives to go to PMCH and consult the child and infant surgeon Dr. Praveen Jhanwar.

The relatives brought him to Pacific Hospital, where Dr. Jhanwar examined him and found out that the child had a mediastinal tumor, which could be treated only by operation.

Dr. Praveen Jhanwar said it was hazardous to operate on this child with cerebral palsy, Epilepsy, and low vision problem. Still, this successful operation could be carried out due to the team of specialist doctors and high-level facilities.

Dr. Jhanwar clarified that a mediastinal tumor is a cluster of cells. Sometimes it can be pretty fatal (cancerous). Mediastinal tumors form in the area of the chest that separates the lungs. This area, called the mediastinum, is surrounded by the sternum in front, the spine in the back, and the lungs on each side. The mediastinum contains the heart, aorta, esophagus, thymus, trachea, lymph nodes, and nerves. In general, mediastinal tumors are rare. The child is lovely now. The relatives thanked the chairman Rahul Agarwal, the doctors, and all the staff.

to do a bit to society. On this occasion, Chitah Yajneshty Shetty, Shravan Shetty, Amarjit Kaur Shetty and others were present and made the program successful. On this occasion,

Chitah Yajneshty Shetty thanked everyone and Yajneshty said, "Martial arts give discipline, dedication, respect for others, etc. Through this people can be successful in keeping their body & mind healthy. It is not the art of fighting, but for self-defense. For this, we all should thank Bruce Lee, due to whom martial arts spread and get inspired by everyone in the country and abroad."

Yajneshty organizes programs every year on topics related to society, environment, health, women empowerment, save forest, covid safety etc. and creates a sense of public interest among people. Chitah Yajneshty thanks to Sanjeev Agarwal, Chitah CJKD's Delhi Chairman Sangeer Hydroshe, Vice Chairman Seema Aneja, Zeshaan Gazi Khan, supported by Kuberan House, Ninjoor Pictures, Kuausmedia, Pickupbiz Software Pvt. Ltd. etc. Also thanked the media which supported them for the last 14 years to spread awareness on the well being of the man kind.

Completion of divisional level Amrita Haat

Udaipur: The divisional level Amrita Haat fair organized at Fateh School in Udaipur concluded with a ceremony on Wednesday.

The chief guest of the closing ceremony, Girva Pradhan, Mrs. Sajjan Katara encouraged the women from different fields and asked them to participate actively in such events. She said that this event boosts women's morale and makes them self-reliant.

She inspected the Amrita Haat and got information about the material manufactured by the self-help groups. Social worker Jagdish Chandra also gave his views on this occasion. In the end, Deputy Director of Women's Empowerment Sanjay Joshi thanked those who actively participated in making the event a success.

He informed that the self-help groups in Haat recorded sales of more than 29.23 lakhs. On the last day, the participants enjoyed puppetry and cultural events.

No one can bind the unique identity of India's vibrant art culture within the borders: Lakshyaraj Singh Mewar

Udaipur: Inaugurated the supernatural Udaipur exhibition in paintings at The National Museum of Asian Art located in Washington DC, the capital of America: Now, in America also, you will be able to get acquainted with the vibrant art culture of Mewar.

The Smithsonian's National Museum of Asian Art, Washington DC, USA, inaugurated the exhibition titled 'Aloki Udaipur in Paintings' in the unique presence of TS Sandhu, India's Ambassador to the United States and Lakshyaraj Singh Mewar, a member of the former royal family of Mewar. Lakshyaraj Singh Mewar said he is proud to see the unwavering attachment and enthusiasm towards Indian art and culture in America. Academics from many countries, including America, have been doing new research on the bravery, bravery, sacrifice, a sacrifice of Mewar, and now the display of Mewar's art culture in a strong country like America is proof that India's vibrant art culture is. No one can bind the unique identity within the boundaries of the borders. Intensive research is being done on Indian art and culture in many foreign countries. Separate departments of Indian culture and art have been established in universities of many countries, where researchers are doing new research on various subjects. Mewar expressed gratitude to historians, curators, conservators, administrative teams, etc., for this unique exhibition organized by the joint efforts of the National Museum of Asian Art, Washington DC, and Maharana Mewar Charitable Foundation, Udaipur. Mewar thanked Dr. Chase F. Robinson, Director, Arthur M. Sackler Gallery & Freer Gallery of Art, Curators Dr. Debra Diamond and Dr. Deepti Khara, sponsors, distinguished members, educationists, researchers, etc. for their vital role in making the exhibition a success. Also thanked for Padmaja Kumari Mewar and Dr. Kush Singh Parmar, founder and president of Friends of Mewar and member of the former royal family of Mewar, were present.

The Smithsonian's National Museum of Asian Art is located on the National Mall in Washington, DC. The National Museum houses an extraordinary collection of Asian art, with a remarkable collection of over 45,000 objects. This museum is open to the public 364 days a year.

Dr. Deepak K. Srivastava honored with "FHSLA: Librarian of the Year" Award at National Level

India's Top Ten named Next- Gen Librarian Dr. Deepak K. Shrinivas, ADG(ME), Government of India & Director, National Medical Library and Ms. Ramya Haridasan, Scientist, Office of the Principal Scientific Advisor etc.

Dr. P.R. Meena Country Head FHSLA said that Youth Sensation Dr. Srivastava is honored to demonstrated extraordinary Public Library leadership and service within the library community over the past 12 - 18 months. I hope this award will be inspired to others public library leaders, librarian's and activist too. During the early months of the pandemic, Dr. Deepak - a longtime digital expert whose buoyant creativity is matched by his strong technical skills - launched into action to help remote readers across from more than 15 Countries i.e. Afghanistan, Bangladesh, Bhutan, India, Iran, Maldives, Nepal, Pakistan, and Sri Lanka, Nigeria, Uganda and UK. Through the use of WhatsApp Initiative Knowledge@your-doorstep/doorsteps, educational apps, websites, gaming, ambassadorships, badging, and other tools he was able to take her library 100 percent digital very quickly, to benefit her readers as they learned at home. It's worth mentioning that Future ready librarian Dr. Deepak Srivastava recently named in IFLA WALL OF FAME, Top 75 Library Professionals of The Nation, Top Ten Next-Generation Librarian of the India.

world's most miniature FIFA world cup football made by Sakka

On the occasion of the FIFA World Cup 2022 being hosted by Qatar, goldsmith Iqbal Sakka of Udaipur, Rajasthan, India, made the world's smallest gold FIFA World Cup trophy of only 1 millimeter in size, an imitation of holding the hemisphere by the figure of two persons.

It is shown in a miniature FIFA World Cup trophy, which looks exactly like the natural toffee. Along with the toffee, Sakka has also

made a 0.01 mm football, which can be seen only through a microscopic lens.

This is the number 12 needle in India. Iqbal wants the world's smallest FIFA football-winning team to be presented to the nation by the Government of India. He has written a letter to the President and Prime Minister Narendra Modi and the Sports Minister informing them about this. Sadly, we could not make 11 players from our country, with a population of more than 1.25 billion, who could play the FIFA World Cup for India.

Distribution of sweaters and food to 100 children

Udaipur: Sweaters and food were distributed to 100 children by Innerwheel Club Udaipur. President of Innerwheel Club Rashmi Pagaria said that the program of sweater distribution to prevent cold was organized by Kusum Rathi and Asha Talesara at Government Higher Secondary School Purohito ki Maddi Girwa. The children inspired patriotism through informative stories.

Manav appeals to donate old warm clothes

Udaipur: Manav called upon ordinary people to find the needy and poor people living around them and come forward to give them warm clothes.

In the weekly meeting by Beeg Manav at Ashoka Green, Hundred Feet Road, founder and social worker Mukesh Madhwani said that since the beginning of December, the severe cold has started in Udaipur. In such a situation, people living in the surrounding areas of the city and on the streets of the town face problems.

Due to economic disparities, impoverished, mentally ill, etc., such people cannot buy warm clothes and understand them. Keeping this in mind, Being Manav's campaign has been collecting warm clothes every winter for the last three years and distributing them among people who need them the most. In such a situation, if the common people of Udaipur join this campaign or take the initiative to distribute warm clothes, shoes, etc., lying at home among the poor, then no one will be cold this winter. This small initiative of the city's residents will prove to be very effective for the poor. Madhwani appealed to the people that common people should come forward to distribute old warm clothes lying in their homes among the poor.

Prevention cervical from cancer is possible - Dr. Mahajan

Udaipur: A rescue and treatment awareness campaign is being run by the Pacific Medical College and Hospital Bhilo ka, Bedla was organized regarding the prevalence of cervical and breast cancer among women.

Hospital oncologist Dr. Manoj Mahajan gave essential tips to the girl students and staff for awareness in the Residency School, Udaipur. Dr. Mahajan expressed concern over the rising cancer cases and lack of understanding and appealed to the people to come forward for treatment instead of being fearful.

Here he also asked questions and answers to the girl students regarding cancer-related tests and treatment. Principal of the school Ranjana Mishra, Director of Teachers Education of Pacific University Khel Shankar Vyas were also present during the seminar and gave vital information while talking to the girl students.

Dr. Manoj Mahajan made the girl students

aware of the symptoms, tests, and treatment options according to the stage of cervical, lung, and breast cancer.

Appealing to the girl students and staff, he said that cancer could be prevented by timely diagnosis and treatment. The vaccine for cervical cancer is also available in the market, and this cancer does not occur after getting vaccinated. Even after cervical cancer, it can be eradicated from the root. Teaching girl students to fight cancer, he said that by staying away from modernity, simple lifestyle, healthy food, yoga, exercise, tobacco, and drugs should be avoided, and instead of panicking, if you feel any symptoms, consult a doctor. Dr. Mahajan is making continuous efforts for prevention, prevention, and treatment of cancer

Bruce Lee's 82nd birthday celebrated in Mumbai by Chitah Yajneshty Shetty

Mumbai: The birthday of the world's famous Bruce Lee i.e. 27th November is celebrated with great fanfare by people all over the country and abroad. Chitah Yajneshty Shetty, the chairman of "Chitah Jeet Kune Do Global Sports Federation" (CJKD) and well-known martial arts expert of films also celebrated Bruce Lee's 82nd birthday with great fanfare for the 14th consecutive year with the underprivileged children at 'Sawan Dance Academy Hall', Andheri (West), Mumbai. On this occasion, the cake was cut by children. Notebooks, snacks and school related materials were distributed to all the children.

After that, 'Bruce Lee' birthday placards were made by children and released in the sky with balloons.

It's great to see the happiness on children's faces said Cheeta Yajneshty by doing a bit, Cheeta urged every youth and martial artist
