Know more ! About cancer, its Ayurvedic treatment and Hansraj choudhry

Affordable treatment of diseases like cancer with Ayurvedic medicines at Shri Navagraha Ashram

Vaidya planted medicinal forest in 30 bighas of land, brought 487 types of medicinal plants from country and abroad

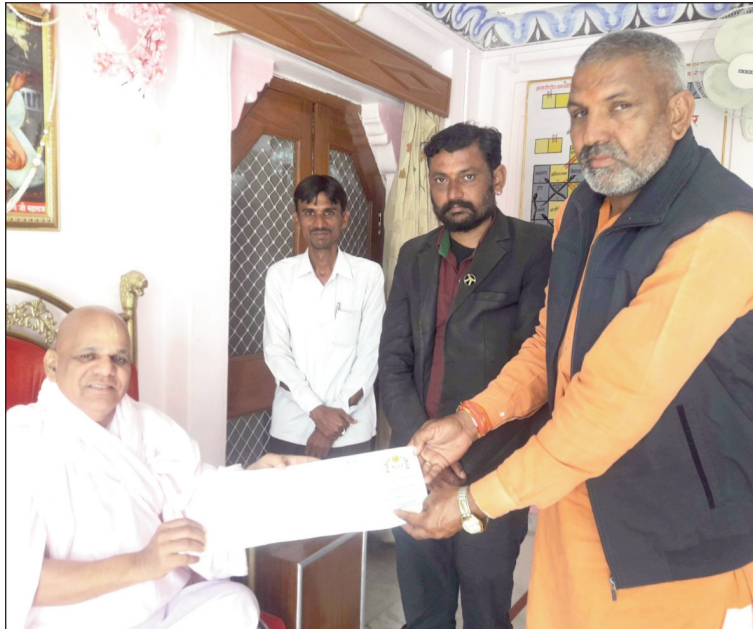

Bhilwara. Usually those who have cancer are afraid of the prospect of death.

Whereas cancer and death can be defeated by fighting cancer and death.

Hundreds of cancer victims who have come to Shri Navagraha Ashram have won their lives by fighting cancer and now they are encouraging cancer victims by becoming cancer soldiers. Vaidya Hansraj Chowdhary, director of Shri Navagraha Ashram, located in Motibor ka Kheda near Rayala town of Bhilwara district, says that cancer is not a matter of treatment but of management. That is, cancer can be eliminated from the body at a low cost by changing your daily routine and your food habits and by taking minor medicines.

Ayurvedic treatment of 29 diseases, medicines are free for the poor

In Shri Navagraha Ashram, 29 diseases including cancer, kidney, diabetes, paralysis,

insanity, hysteria, skin diseases, obesity, sciatica and stomach related diseases and migraine are treated with Ayurvedic medicines.

Ayurvedic cancer kits and cancer chemo are given free of cost to martyrs and poor families and child cancer patients up to 5 years of age, as well as medicines to cure epilepsy, paralysis, insanity and hysteria are also given free of cost. Neither registration fee is charged nor doctor consultation fee is charged here.

Cancer and kidney class-

es are organized every Friday and Saturday at Shri Navagraha Ashram, in which Vaidya Hansraj Chowdhary explains the methods of eating and living to get rid of cancer and encourages them to fight cancer.

Choudhary travels for 10 days every year to collect rare plants.

Vaidya Hansraj Chowdhary's intention is that Ayurvedic medicine related to every disease should be available at Shri Navagraha Ashram. For this, he developed

a medicinal forest on his 30 bighas of ancestral land located around the ashram, in which 487 types of medicinal trees, plants and vines etc. are planted. Arjuna, Putra Jeevak, Sudarshan, Vidhara, Google, Chandan, Sadasuhagin, Cowpea Joint, Sweet Cowpea including rare medicinal plants like Hing, Yashtimadhu

(Mulethi), Mopen, Brahmi, Dama Bell, Garlic Bell, Gudmar, Sita Ashok, Sindoor and Gambhari Rare plants of 8 types of Tulsi including 25 types of cacti, 2 types of Khair, 3 types of Palash, 3 types of Peepal, 4 types of Dhatura (Kanak), 30 types of Gulab and Long Tulsi, Kapoor Tulsi have been grown. Vaidya Hansraj Choudhary collected all these plants from different states of the country and neighboring countries including Sri Lanka, Nepal, Bhutan, Pakistan, Afghanistan and Australia. He says that he wants to grow every rare medicine in the forest of Navagraha Ashram and for this he travels to the country and abroad for at least 10 days every year to collect medicinal plants. Today Hansraj Chowdhary is trying to know the traditional medical practices of different countries. Recently, he visited the Ayurvedic hospital and college run by the exiled government of Tibet near Bhutan, Nepal and Dharamshala in Mcleodganj and understood the medical methods. He says that Ayurveda medicine is very old and has different forms in different countries.

Choudhary started a new life in 2013

Hansraj Chowdhary was

the agriculture supervisor of the farming family of Motibor Ka

books, learned medicinal properties of plants and did Diploma

Kheda. Later he left the job and took up farming. Along with this, he also contracted the work of laying network lines.

He Went to Kedarnath with 4 friends in 2013, got caught in the tragedy there and saw death closely. During the struggle to save himself from death, I met a saint from the south, that saint said that if you stay alive, go back and grow Dama vine in your area. As soon as he returned from there, Hansraj Choudhary started planting dama vine on his ancestral land. While searching for Dama Bel, he came to know about other Ayurvedic medicinal plants and decided to plant a medicinal forest. To make his land fertile, he dug a 100 x 100 feet well and brought rare plants from India and abroad and planted them in the field. Later he Read Ayurveda

in Ayurveda. When the medicinal forest developed, they started treating diseases with their leaves and bark etc. In the beginning, most of the patients of sugar and blood pressure started coming, to whom leaves and bark of plants were given as medicine. When people started recovering, the number started increasing here. Later, medicines were given here in the form of powder.

Thousands of cancer patients have been cured by Ayurvedic treatment in 10 years

Hansraj Chowdhary, the founder of Shri Navagraha Ashram, says that thousands of cancer victims have been cured by the use of Ayurvedic medicines here. People with the first and second stage of cancer have every possibility

of being cured by this treatment, cancer which has reached the third and fourth stage can also be cured by Ayurvedic treatment if the patient follows strict diet and drug intake. If you follow it, it will be fine. Chowdhary told that cancer patients who have been cured by the medicines given by Shri Navagraha Ashram are called cancer soldiers. The victory stories of hundreds of such cancer soldiers are visible on his YouTube channel (Shri Navagraha Ashram).

Every year free medicinal plants are distributed

Hansraj Chowdhary told that he has to wander in the country and abroad for the collection of medicinal plants, but he wants that the medicinal plants grown in Shri Navagraha Ashram should not become extinct from this area, so that every year between 15 July to 15 August and Many medicinal plants including Gudmar, Dama Bel, Vidhara, Google, Gular, Gudhal, Arjuna, Gwarpatha, Sadasuhagin, Tulsi, Peepal, Banyan Tree, Khair, Palash are distributed free of cost in the blood donation camp organized by the ashram twice a year. He told that anyone coming to the ashram can take a plant.

International Excellence Award for Short Movie CYCLE

Udaipur. The short movie cycle depicting the fabric of father-son and family relationships has won 11 awards. Its producer Abhishek Joshi has been awarded the International Excellence Award. National Jury Member of the International Excellence Award Dilip Patel arrived in Udaipur to felicitate the film producer in a press meet.

The poster of the film Cycle was also released on occasion. Producer Abhishek Joshi said that this film depicts the internal relations of the family. It stars Udaipur actors along with Crime Patrol fame Gulshan Pandey.

The film depicts how a mid-

dle-class family fulfills the wishes of their son and father despite going through a financial crunch. Producer of the film Abhishek Joshi said that this award is a matter of pride not

only for him but for the whole of Udaipur as Abhishek is the second award winner after famous singer Mame Khan in entire Rajasthan.

During the press confer-

ence held at Lakecity Press Club, film director Gaurav Prabhakar Mali said that the film would soon appear on other platforms along with the OTT platform. Mukul Jain, playing the role of Gulshan Pandey's son in the film, said that he had done many projects before, but Cycle film has proved to be the biggest project of his life. Being a theater artist, he feels proud when the film gets international awards.

Priya Mishra, who is playing the role of Gulshan Pandey's daughter-in-law in this film, said that even in a small town like Udaipur, when a movie based on social issues wins at the international level,

the whole city is proud of her.

She said that working in Cycle Movie would prove to be a milestone in his life in acting. Let us tell you that in this film, Crime Patrol fame Gulshan Pandey will be seen as an elderly father. The cast of the city includes Mukul Jain and Priya Mishra playing the roles of his son and daughter-in-law, while Ramesh Nagda will be seen playing the role of an uncle at a cycle store. Two young actors, Kavya Harkawat and Hiren Jotwani, also acted in this film. Himanshu Bhatt writes the story, and the music is given by Sony TV's X Factor fame Shah Nawaz Khan.

TAC member Pandya reviewed the construction works

Laxminarayan Pandya, a member of the Rajasthan Scheduled Tribes Consultative Council and the State Level Bisuka Implementation Committee, conducted a surprise inspection of the shed construction work being built for the establishment of the Mawa, Peda, and Kulfi production unit approved by the Tribal Regional Development Department in the premises of the District Milk Production Cooperative Union Limited.

He instructed me to complete the work under construction with quality in the stipulated time. Pandya said that with the establishment of Mawa, Peda, and Kulfi production units, the residents of the Udaipur division would be able to get quality milk made Mawa, Peda, Kulfi, and other products, as well as get rid of spurious Mawa and other spurious milk products coming in the market.

If there is a good sale of milk products in the Dairy Union, the milk-producing cattle herders will also be able to get a reasonable price for their milk. Pandya informed that the department had approved Rs 1.51 crore to Udaipur Dairy Union for this unit, which shed construction, Mawa, Peda, and Kulfi making machine, refrigerator, cold storage, etc. facilities will be provided.

129 Indian and 4 foreign physicians honored by the Indian College of Medicine

Ahmedabad- 78th All India Association of Physicians honored 129 Indian and 4 foreign physicians of the Indian College of Medicine by conferring fellowships.

You all deserve congratulations from the government. On this occasion, Dr. Bhandari said that during Covid-19, doctors, nursing staff, technicians, sweepers, ward boys, and public, voluntary organizations of the entire medical department of Rajasthan fought the worldly disaster by doing every possible work. Highlighting the long-term complications of Covid-19, he said that the nervous system, clotting in blood vessels, loss of memory, insomnia, and weakness are the main ones that last for 3-6 months.

As the chief guest Dr. Sudhir Bhandari honored 129 doctors of the country, and more than 10 doctors of the state were honored with the honorary title "Fellow of the Indian College of Physicians" for their significant contribution to teaching, patient service, research in their respective areas.

Dr. JK Chhparwal, Professor of Medicine, PIMS Umrada was awarded this honor, considering his remarkable public service, teaching, and sensitive behavior. In this episode, hard-working senior physicians Dr. Rajendra Prasad Sharma of Nathdwara and Dr. Anish Jain of Chittorgarh were honored for their work. Dr. BS Bomb, the country's top-class medical teacher, received the Best Teacher Award from Dr. J. K. Chhparwal in his absence. Dr. Girish Mathur, President Association of Physicians India, propounded the need for clarity in the doctor-patient relationship.

The patient and close relatives should be advised about the possible diagnosis of the disease after the first test, investigation, initial treatment, complications, estimated expenses, and alternative treatment if a second opinion is needed should be suggested.

GMCH: Stones successfully removed from both kidneys

Dr. Vishwas Baheti serving Geetanjali Hospital's Urology Department, and Dr. Pankaj Trivedi, anesthesiologist Dr. Anil Bhiwal in the team, successfully treated a 30-year-old patient resident of Bhilwara suffering from a stone in both kidneys joined in one side.

Detailed information:

The patient who came for treatment from Bhilwara said that he had a stone problem since 2019, the patient also got the sonography test in Bhilwara, in which it was told that the patient has only one kidney, and the stone was confirmed. After this, the patient also took medicines but did not get any health benefits.

Dr. Vishwas said that the patient suffered from a rare and unusual congenital malformation called crossed-fused ectopic kidney. Usually, we all have both kidneys, one on the right and one on the left side, but this patient's kidneys have

been on the right side since birth. The patient had stones in both kidneys.

There were 2 stones in the left kidney, which were larger than 2 cm, and one in the right kidney, which was about 1 cm. PCNL was planned to keep the patient's condition in view, and stones were successfully removed from both kidneys in the same stage of a patient with tubeless PCNL. The risk of bleeding is usually high in this type of operation. The patient was successfully operated on without any complications. The

patient is still in good health and was discharged on the second day after the procedure.

Geetanjali Hospital's urology department is equipped with all advanced techniques and resources, due to which complex problems are being resolved continuously.

Geetanjali Medical College and Hospital has been providing all world-class services under one roof for the last 16 years and has been setting records in the medical field, says Ceo prateem Tamboli.

Vice Chancellor Dr. Ajeet Kumar Karnataka hoisted the tricolor at MPUAT, Udaipur

Udaipur. Celebrating the country's 74th Republic Day on Thursday, Maharana Pratap University of Agriculture and Technology, Udaipur Vice Chancellor Dr. Ajeet Kumar Karnataka hoisted the national flag and inspected the parade. On this occasion, he extended Republic Day greetings to all the employees of MPUAT and the student community.

He said that the Indian Republic Day is a symbol of the achievement of the goal of Sampoorna Swaraj. The Indian Constitution officially came into force on January 26, 1950. Republic Day is celebrated every year on January 26 to mark the glorious event of India becoming a sovereign republic. Dr. Karnataka said Republic Day is truly a festival of giving fullness to our freedom; on this occasion, let us pay tribute to the immortal fighters and constitution-makers whose sacrifice, austerity, and sacrifice freed us from subordination and made us a sovereign nation.

He highlighted the achievements made in research, extension, and agricultural educa-

tion at the University last year. He called upon all the employees and students to fulfill the name and deeds of Veer Shri Maharana Pratap by working with devotion and dedication. The organizer of the program, Student Welfare Officer Dr. Murtaza Ali Saloda, said that on this occasion, students of engineering, agriculture, and community science colleges presented colorful cultural programs and group dances on patriotic songs. Finance Controller Shri Vinay Bhati, all senior officers of the University, faculty members, co-academic staff, and students participated in the program. Registrar Mr. Sudhandhu Singh said that on this occasion, Vice-Chancellor encouraged the scientists, students, and non-teaching staff of the University by giving them citations and symbols for their remarkable work in the past year. Public Relations Officer Dr. Subodh Sharma said a friendly volleyball match was also played on this occasion. The parade was led by NCC Officer Flight Lieutenant Dr. Vishakha Singh and Parade Commander Under Officer Hemant Singh Chauhan, Troop Commander Lance Corporal Vijay Sharma, Sneha Jhala, Blacy Michael, Ranger Ajay Kumar, Rohit Sharma, Anamika, Mamta Rani, and Pankaj Bajad. Dr. Vishakha Bansal beautifully conducted the program.
