

## The two-day conference of legalists started at Sukhadia University

### Virtual court and legal process will become paperless under the e-court phase three scheme-Kiren Rijju

**Udaipur (Dr. Munesh Arora):** Union Law Minister Kiren Rijju said that the era of virtual courts has come in the new technological age. We don't need to travel from one city to another by spending expensive fuel for hearing in the High Court. All this will be possible in e-court phase three. He said that we would make the Indian judicial system paperless and virtual. Rijju was addressing the inaugural session on the first day of the two-day conference at Vivekananda Auditorium of

Mohanlal Sukhadia University here on Saturday.

In this conference on "Sustainable Development in India: Evolution and Legal Perspective" under the joint aegis of the Law Commission of the Government of India and the College of Law, Mohanlal Sukhadia University, Rijju said that under e Court Phase 2, the Covid-19 lockdown would be held on virtual mode. Courts were going on. It was a matter of surprise all over the world. We are moving forward in e-court phase three, under which we will make the judicial process more efficient.

Minister said there is a long list of pending cases in the courts in India. Case pending and delay in justice do not suit the country and the society. The government wants the judicial process to be fast. The work pressure on the judges is immense. We want to reduce that too. That's why the central government wants to develop a dynamic legal system. He

said that in the last 8 years, the government removed 1486 such laws which had no relevance, and the process is to remove 67 such laws which are not helpful in any context. For this, a bill has been brought to the Parliament. The campaign to remove the law, which will not be of use, will be intensified.

He said that many problems of Udaipur Court have come before me. The building here is also small, and there are fundamental problems too. My attention has been drawn to the issues of intelligent rooms, toilets, and proper seating arrangements for other people. I will do something for the Udaipur court if a proposal is sent to me.

He said that the world is moving towards becoming Vishwa Guru under Modi ji. If India is successful, then the world will be prosperous. Now the world is looking towards India, full of hope on the global stage. Prime Minister

Narendra Modi has given the word climate justice on international forums to make it effective; everyone is thinking together. It is the collective responsibility of all of us to understand our responsibility towards the environment and wildlife. Like western countries, we also have the right to live comfortably, but we do not understand our commitment. We have to realize that only then will we be able to move forward better. Describing the city of Udaipur as full of positive energy, he said that this earth is our mother, and we all

have to understand our responsibility to save it. We have to know why we are cutting trees and why we are hunting. I see the forests have dried up. have become empty.

If we consider the earth as a mother, then it is also our responsibility to protect and care for it. He said that the beauty of my village had changed. Wild animals are no longer visible there. This is a matter of concern for all of us. He said that under the leadership of Modi ji, the Government of India is moving towards a green economy,

and soon we will achieve our goal. On this occasion, Union Minister of State for Law, Prof. SP Singh Baghel, said that the Government of India has constructed ten crore toilets and built Izzat Ghar under Swasth Bharat Abhiyan. This is a considerable achievement. In the carbon emissions field, we have also developed an engine with 20% ethanol.

It also has set an example by banning single-use plastic. Baghel said that due to a lack of information, many government schemes do not reach the last man. For this, he urged the University students to help take such schemes to the underprivileged.

At the same time, he asked law students to come forward to advocate for the needy and the poor so that justice is accessible to all. He said that India has an ecosystem where we all worship the creatures on which the gods and goddesses ride.

This is mentioned in the

Vedas also. We all have to work together to save the environment. On this occasion, Acting Chief Justice of Rajasthan High Court MM Srivastava said that pollution has increased in every area worldwide. Still, the pace of development has to be accelerated, and pollution has to be stopped. We have to think and not worry. While promoting social and economic development, it is necessary to ensure that the environment is also protected. Nature is worshipped here, and there is a provision of laws for its protection, but if we include these laws in our duties, then the work of nature conservation will become easier. Responsible behavior is also necessary to run the right to life and development activities together.

In the inaugural session, Law Commission Chairman Justice Rituraj Awasthi said that sustainable development in developing countries is possible only through environmen-

tal protection. Citing the examples of Upanishads, Vedas, and Kautilya Arthashastra, he said that animals are worshipped here, and we worship trees as deities. Citing the example of Bishnoi Samaj of Rajasthan, he said that people sacrificed their lives to save the trees.

Similarly, the Chipko movement was a model of this. We must also go beyond our selfishness and greed to save the environment.

On this occasion, the Vice-Chancellor of the University, Professor IV Trivedi, welcomed everyone and said that it is a matter of good fortune that such an important event is being organized at the University.

He said that it is a matter of pride to organize such an event on the university premises after Professor Anand Paliwal became a member of the Law Commission of our University. It will not only help in research but also create a rich academic environment.

## MPUAT gets new wings - two agricultural drones found

**Udaipur:** Maharana Pratap University of Agriculture and Technology, Udaipur, was given two agricultural drones by the Indian Council of Agricultural Research, New Delhi, to promote agricultural education and extension, which Vice-Chancellor of the University, Dr. Ajeet Kumar Karnataka, duly inaugurated. On this occasion, Dr. Karnataka said one drone would be used at Udaipur and the other at

Krishna Vigyan Kendra, Bhilwara.

This will give a new impe-

tus to agricultural education, research, and extension. Being a leading agricultural country, India also needs to adopt drones that can be used for multiple purposes in agriculture.

Drones help farmers reduce costs and boost crop yields by performing multiple surveillance functions. With advanced sensors and digital imaging capabilities, using drones is beneficial for farm-

ers to increase crop production and monitor crop growth.

Drones are also used in soil analysis as they can capture high quality 3-D images of the soil. Also, after checking the infection in the crops, it tells the solution.

On this occasion, Director of Extension Education Dr. R.A. Kaushik, Udaipur, pointed out that the uses of drones are endless; they can also be used in irrigation as they can

track fields and find out which parts of a lot are dry and need water. This bird's-eye view can reveal many issues and help farmers assess crop growth and production most effectively.

On this occasion, drone experts Dr. Vikramaditya Dave, Dr. Sunil Joshi, Dr. PC Chaplot, Dr. Rajeev Bairathi, and Dr. Latika Vyas, along with all the SOAC of the University. Members were also present.

## Lakes are getting polluted by vehicle tyres

**Udaipur:** The increasing vehicle traffic around the lakes and in their water catchment area is fatal for the water quality. Control of vehicles in the lake area has become necessary for the protection of lakes and the protection of human health.

These views were expressed in the Jheel Samvad organized on Sunday.

Referring to global studies, expert Dr. Anil Mehta said that many microscopic chemical particles are released when tires are worn. The pollution caused by these micro particles is many times more highly toxic than the pollution caused by the smoke of vehicles. These micro particles mix in water and become lethal for aquatic organisms. They also have a fatal effect on human health. Mehta said it is necessary to immediately control human activities by declaring lakes very sensitive.

Tej Shankar Paliwal said that the tourism pressure on the lakes had exceeded the tolerable limit. Tourism-generated waste is becoming a significant threat to the lakes. Trees, mountains, and water sources are being destroyed; the increasing number of vehicles is becoming a problem for the local residents.

Nand Kishore Sharma said that the noise of vehicles is a danger to aquatic life, birds, and humans. According to environmental thinking, the time has come to make a new policy and action plan for tourism.

Kushal Rawal said that there are harmful gases and particles in the smoke of vehicles, which are harming the lake environment, and respiratory system diseases are also increasing in humans.

Drupad Singh said that the lakes from where drinking water is available are loaded with dirt and impurities.

Complete cleanliness shramdaan was done through dialogue.

## State level prize distribution ceremony organized

**Udaipur:** State-level prize distribution ceremony was organized under the joint aegis of the Red Ribbon Club of Mohanlal Sukhadia University and the Rajasthan State AIDS Control Society.

The office bearers of the State AIDS Control Society of the Rajasthan Government, the Red Ribbon Club officers, and all the awardee teachers were present at the function.

Red Ribbon Club's coordinator Dr. PS Rajput welcomed all the guests to the program. The Chief Guest, a Member of the Law Commission of India, and University Professor Anand Paliwal congratulated all the participants and encouraged them to continue working towards AIDS control even further. Professor SK Kataria talked about the importance of blood donation and health in life. Dr. Pradeep Chowdhary of the Rajasthan Government spoke about the programs being run toward AIDS control in the state. Professor CR Suthar, Dean of Arts College, shared information about the role of teachers in the programs conducted to control AIDS.

Dr. PS Rajput, the coordinator of the Red Ribbon Club, said that throughout the year, the dedicated teachers and officers associated with the program were felicitated at the state level for taking various social concerns, national interest, and medical public welfare schemes to the

masses.

Mr. Pawan Ghosaliya from Rajsamand, Mohit Kumar from Sirohi, Pankaj Yadav from Alwar, Pradeep Kumar from Dungarpur, Gopal Vaishnav from Udaipur, etc. were honored in the program by joining Nehru Yuva Kendra Sangathan.

Kaveri Joshi, Vikas Sharma, and other students from Mohanlal Sukhadia University were honored in the student category. Dr. Ritu Sharma from Mewar Girls Ayurveda Nursing Center Chittorgarh, Dr. Natwar Sharma from Shri Krishna Mahavidyalaya Govindgarh, Dr. Rajendra Prasad from SN College of Science Dhaulpur, etc. were honored. At the end of the program, the Deputy Director of AIDS Control Society, Mrs. Garima Bhati, thanked all the guests present.

## Assam Governor Gulab Chand Kataria pays a courtesy call on PM - Gopendra Nath Bhatt

**New Delhi:** The new Governor of Assam, Gulab Chand Kataria, paid a courtesy call to Prime Minister Narendra Modi in New Delhi on Sunday.

This was the first formal meeting with the Prime Minister after Kataria became the Governor of Assam.

Many topics related to the country and the state were discussed in this meeting.

## Poster release by Dr. Devendra Sareen

**Udaipur:** In the inauguration ceremony of the 30th International Pediatric Conference held in Gandhinagar, Gujarat, a poster with the theme "Child Labor a Curse on Humanity" composed by Dr. Devendra Sareen, Head, Department of Paediatrics, Geetanjali Medical College and Hospital, released.

The Chief Minister of Gujarat was present as the chief guest of the ceremony, and the special guests were Dr. Bakul Pareek, Dr. Kenjekar, Dr. Basav Raja, and Dr. Dinesh Kumar. In this poster, Dr. Sareen has shown that child labor eradication prevalent in India can be destroyed.

It is essential to have Awareness in society at different levels. Dr. Lakhna Poswal, Dr. Sushil Gupta, Dr. Bakul Pareek, Dr. Vivasan Pareek, and Dr. Shelly Sharma helped prepare this poster.

At this international conference, more than 10,00 delegates came from different countries, and representatives from every corner of India came here. Eminent speakers gave lectures on various topics under this function. Dr. Sareen also represented the seminar on eradicating and treating asthma, highlighting that environmental pollution has a significant place in increasing asthma disease in children, so efforts should be made to stop environmental pollution. The general public Awareness should be increased, and simultaneously urged mothers and fathers to treat children equally.

Dr. Harsh, a Resident in the Department of Paediatrics, also gave a poster presentation at this conference.

## District Collector felicitated

**Udaipur:** District collector Tarachand Meena was recently honored with a badge of thanks by the Governor

The players and coaches of the sports department felicitated the Collector by covering him with a wreath and presenting him with bouquets.

During this, the Collector also talked to the players about the sports facilities in the district.

District Sports Officer Shakeel Hussain said that the players expressed their gratitude to the Collector for the unusual sports expansion activities in the district.

He added that no collector had done sports development work in the district as done by Meena jee. The Collector also told the players to keep practicing continuously, bringing laurels to their city, state, and country by winning medals.

On this occasion, Lakshyaraj Singh Chauhan and National Khelo India Women League won bronze in the \$78 kg category and West Zone Khelo India Women League for winning bronze in Sub Junior National Judo Championship in the 30 kg category, and Sub Junior School State Judo Championship in 30 kg category. Garima Chauhan was felicitated with a medal and encouraged to win gold in the \$78 kg category.

The players also looked elated after getting the medals from the hands of the Collector.

## TAC member Pandya inspected Kotra's model school and teacher's residence

**Udaipur:** Lakshminarayan Pandya, the TAC and State Level Twenty Point Program Implementation Committee member, reviewed the Swami Vivekananda Government Model School, Girls Hostel, and Teacher's Residence at Kotda Headquarters. The girl students of Model School urged Pandya to get the boundary wall constructed in front of the sports ground and hostel building, which Pandya assured to fulfill both demands by talking to the officer of the Samagra Shiksha Parishad.

Taking information from girls regarding arrangements for teaching work, accommodation, food, etc., in educational institutions encouraged them to study diligently and become child officers. He listened to the working teachers of the Kotra area by going to the Teacher's Housing Planet, instructing the concerned department to complete the construction work of 7 unfinished rooms in the Teacher's Housing Complex and to develop the garden in the Teacher's Housing Complex. Social workers Dinesh Kumar Odich and Dinesh Kumar Paneri were also with them.

## Nana Lal Vaya is new President

**Udaipur:** In the executive meeting of the District Kabaddi Association, Udaipur, Nana Lal Vaya was unanimously elected as the President of the District Kabaddi Association. In the forum, Secretary Jalmchand Jain, District Fencing Association Secretary Balveer Singh Dignall, Rajasthan State Power Lifting Association Secretary Vinod Sahu, Coach Kapil Jain, Treasurer Shyamsundar Sharma, Co-Secretary Dipesh Chandra Damar, Vice President Mushi Mohammad and other executive members were present.

## Baden Powell Day celebrated

**Udaipur:** Maharana Mewar Vidya Mandir celebrated the birthday of Lord Baden Powell, the founder of Scout Guide, on 22nd February.

This day is celebrated as a day of reflection in Scouting. It gave the message of unity in human society. A Sarv Dharma Sabha was organized in the Vidyalaya, in which prayers of all religions were held.

Kab Master told about the life character of the founder of the Scout Guide. The school's principal started the program by lighting the lamp, under which many programs were also presented, and Kab Bulbul students took an oath to serve the country.
