

An initiative of DM Udaipur: Medical facilities are being expanded in the tribal area

Udaipur. Due to the efforts of District Collector Tarachand Meena, state-of-the-art facilities are being made available under CSR by various industrial organizations and institutions in the field of education and medicine in remote tribal areas of the district. In this series, District Collector Tarachand Meena inaugurated a state-of-the-art sonography machine and two hydraulic beds provided by Hindustan Petroleum Corporation Limited at Community Health Center

Jhadol in the district on Wednesday.

In the inauguration ceremony, the Collector expressed gratitude to Hindustan Petroleum Corporation for strengthening the medical services in the tribal area and for the accessibility and convenience of the people here and instructed the medical officers here to provide full benefits of these facilities to the villagers.

The District Collector asked the local public representatives and medical officers present

on occasion to give wide publicity to the various general welfare schemes of the government and to benefit the villagers of the tribal areas from these schemes. Local Pradhan Radha Devi Parmar, CMHO Dr. Kantilal Palat, Block Chief Medical Officer Dr. Dharmendra Garasia, Chief Regional Manager of Hindustan Petroleum Corporation Limited Shubhra Chakraborty and Regional Manager Ankur Sharma, etc. were present on this occasion.

Inspection of CHC: After the inauguration, District Collector Meena and other guests also inspected the Community Health Center premises and got information about the facilities provided to the patients. Jhadol's Block Chief Medical Officer, Dr. Dharmendra Garasia, apprised the Collector about the repair works there, on which the Collector instructed to prepare a proposal and send it immediately. The Collector instructed the medical

officers of the area to put up publicity materials of all health-related schemes of the government along with the Chief Minister Chiranjeevi Swasthya Bima Yojana at their health centers and provide benefits to the villagers and motivate them to do service work by providing quality health services. CHC in-charge Dr. Mukesh Garasia informed about the activities of CHC and the services being provided.

Sonography machines are also given in Kotda. Here, on behalf of Hindustan Petroleum Corporation Limited, a sonography machine was presented to the Community Health Center Kotda in the remote tribal area Kotda of the district. CMHO Kantilal Palat, Kotra Medical Officer Shankar Lal, Chief Regional Manager of Hindustan Petroleum Corporation Limited Shubhra Chakraborty, Regional Manager Ankur Sharma, etc., inaugurated the machine by cutting the ribbon.

Sushma Arora reached the Udaipur tour

Udaipur. Sushma Arora, MD, Rajasthan Cooperative Dairy Federation, is on a tour of the Udaipur division. After visiting Banswara-Dungarpur on Wednesday, she reached Udaipur on Thursday and met top officials regarding dairy activities here. Dairy Federation MD Sushma Arora held a meeting with TAD Commissioner Rajendra Bhatt and Collector Tarachand Meena at Divisional Commissionerate and discussed in detail the daily activities in the district, its development, milk production, and its collection, etc. She said that the current situation of 1.10 lakh liters of milk collection in the district is much less in terms of milk production in the region and that there is a need to increase the milk collection in the district. She said the target of collecting 2 lakh liters in the district in the next two months would be given to the concerned officers and employees.

During this, she also discussed with the officials increasing the milk collection plant's capacity and registering new milk producer cooperatives. During the meeting, Arora had an in-depth discussion with the officials on the efforts to be made for dairy development and promotion of milk producers and talked about submitting maximum proposals for new activities for the development of dairy activities in the Udaipur division and told them that this zone Whatever recommendations will come for dairy development would be approved on priority. Arora also assured to open 10 percent new DSS and start the old closed DSS.

Udaipur administration is committed to dairy development:- During the meeting, TAD Commissioner Rajendra Bhatt said that considering the conditions of animal husbandry and milk production in the Udaipur division, the administration is committed to dairy development, and every possible effort will be made. He assured us to provide a 2.50 crore budget for dairy development activities through TAD. During this, District Collector Tarachand Meena told the need to set up a milk collection center at the gram panchayat level and said that through this, support could be provided to the cattle herders of the tribal areas.

so that employment avenues can be opened for them.

Inner wheels donate life-saving equipment

Udaipur. Under the leadership of Club President Rashmi Pagaria, life-saving equipment worth Rs 40,000 was presented by Innerwheel Club Udaipur at Government Dispensary Pratap Nagar. Speedy action is necessary under Case Officer Scheme- Dr. Pandya

Udaipur. The incident of rape and murder of a small girl is condemnable. The culprit should be linked to the victim's family with the victim's compensation and the harshest punishment as soon as possible. It should be taken under Case Officer Scheme or Special Officer Scheme for quick investigation and challan. At the same time, we will have to work on a personal approach to prevent the recurrence of such incidents; for this child pornography, a crime under the POCSO Act, all such photos and videos on the Internet should be banned for propagating obscene material. The website should be shut down immediately. It came to light that the culprit used to visit such websites regularly. Today, apart from giving on-the-spot assistance to the victim's family, efforts will be made to get the victim's compensation and other help from the Rajasthan government as soon as possible.

Child rights expert and former member of Rajasthan Child Commission, Government of Rajasthan, Dr. Shailendra Pandya, taking the case of rape and murder of an eight-year-old innocent girl under Mavli Panchayat Samiti of the district seriously, reached the spot after meeting the victim's family. Expressed. On this occasion, the President of the Child Welfare Committee, Udaipur, Dhruv Kumar Kavia, and newly appointed member Akunr Tank discussed with other children of the family. They encouraged them to know their mood and encouraged them by counseling. While giving other social organizations of the district are also with them in this sad time.

President of Nari Niketan Udaipur Division Renu Chaubisa discussed with the mother of the deceased girl and other women of the family. Gayatri Seva Sansthan gave the family twenty-one hundred rupees in cash along with one month's ration material. It was also said to provide all possible cooperation, including free legal aid.

Child Welfare Committee Udaipur, Mavli police station in-charge, local sarpanch Logar Gameti and deputy sarpanch, development officer, district in-charge of Gayatri Seva Sansthan Nitin Paliwal, child protection network Udaipur coordinator B.K. Gupta was present.

After visiting the village, the delegation met District Collector Udaipur Tarachandra Meena and apprised him of various issues.

A 65-year-old patient got relief from subarachnoid bleeding

Udaipur: Paras Hospital saved the life of a 65-year-old patient from Kumbhalgarh with a new and safe method. In this, the patient was treated with the help of a new type of flow diverter technique. With new technology, Dr. Tarun Mathur of Paras Hospital has successfully eradicated this severe disease and saved the patient's life.

Dr. Tarun Mathur, Senior Consultant, Neurology & Interventional Neurology, Paras Hospital Udaipur, said that he suffered from severe headaches when the patient was brought to the hospital. His initial investigation revealed a subarachnoid hemorrhage. The bursting of a bulging vein in the brain usually causes an emergency. If it is not treated in time, it can cause severe brain damage and death of the patient. However, as soon as subarachnoid bleeding was detected, he referred us for further treatment. Then he underwent cerebral angiography, which showed a small size aneurysm in the anterior communicating artery. It was impossible to cure it by a simple coiling procedure, so treatment with a new type of treatment was decided to do a flow diversion procedure. Nowadays, small size or mini flow diverters are available which can be implanted to treat this type of aneurysm. "A flow diverter is an endovascular prosthesis used to treat intracranial aneurysms. It is placed in the root artery of the aneurysm, which covers the neck, to prevent blood flow and progressive sac thrombosis. Flow-diverting stents consist of a structural cobalt-chrome or nitinol alloy wire and often a set of radiopaque wires woven into a flexible braid.

They also provide Campus Recruitment Training (CRT) to help students to bridge between academics and industry requirements for better placements and soft skills training for their career growth.

Substantial employment opportunities - Mukesh Madhwani

Udaipur: Well-known social worker and industrialist of Udaipur city, Mukesh Madhwani, said that in today's era, there are strong possibilities of employment in every field, and there is a lack of skills among the youth. Employment possibilities emerge if the child focuses on enhancing their skills along with traditional studies.

He spoke at the weekly meeting organized by Being Manav at Ashoka Green today. Madhwani said it is good that the youth is making continuous efforts and hard work for the government job, but they must pay special attention to their skills. Skill is such a thing that youth can quickly move towards self-employment and create possibilities of giving employment to others through a startup.

Mukesh Madhwani said that skill in any profession opens doors of employment for a person. One who has skills does not have to wander for the job. Mukesh Madhwani appealed to the youth to focus on enhancing their skills in a particular field and take at least 1 hour daily for their abilities. They must learn something from YouTube, social media, or any other platforms
