President Graces 25th Convocation of Chaudhary Charan Singh Haryana Agricultural University

The President of India, Smt Droupadi Murmu graced and addressed the 25th convocation of Chaudhary Charan Singh Haryana Agricultural University at Hisar, Haryana today (April 24, 2023).

Speaking on the occasion, the President said that Chaudhary Charan Singh Haryana Agricultural University has been making significant contributions in the education, research and extension of agriculture since its inception. If today Haryana is the second largest contributor to the food grain stocks under Central Pool, the credit goes to the

farmer-friendly policies of the Central and State Governments, technological initiatives of HAU, and willingness of the farmers of this state to adopt the latest agricultural techniques.

The President said that today India has become a food grain exporting country from a food stressed country despite the huge population. But today there are many concerns in front of agriculture like increasing population, shrinking agricultural land, falling groundwater level, decreasing soil fertility, and climate change for which agricultural professionals have to find solutions. They

have to find ways to provide nutritious food to our huge population while causing minimum damage to the environment and biodiversity. It is a challenge as well as an opportunity before agricultural professionals.

The President said that technology has an important role in reducing the cost of farming, increasing productivity, making agriculture environment friendly and more profitable.

She said that water is an important component of agriculture but it is available in limited quantities. Therefore, judicious use of water in agricul-

ture is very important. There should be maximum use of technology in irrigation so that

exploitation of water resources can be minimized. She said that the role of institutions like

HAU is important in the development and dissemination of such technology.

The President said that universities should act as laboratories from where knowledge spreads and benefits the entire society. She was happy to note that HAU is making concerted efforts for dissemination of crop production techniques among the farmers. She urged to intensify these efforts for the maximum benefit of people of the country, especially the residents of Haryana.

The President said that agriculture is a huge sector. Apart from grain, fruit and milk production, animal husbandry and fisheries, there are many other industries which are directly linked to agriculture.

India has emerged as a start-up hub.

The world's third largest start-up ecosystem is in India. The agriculture sector supplies raw materials to many industries. Therefore, this sector provides immense possibilities for start-ups. She was happy to note that HAU has established an Incubation Centre to promote entrepreneurship through innovation, technology upgradation and skill development.

She expressed confidence that students would take advantage of this positive environment and contribute to the development of the country.

Meesho empowers 81,000 small businesses from Rajasthan

Meesho, India's only true e-commerce marketplace, announced that more than 81,000 small businesses from the state of Rajasthan are now registered on the platform. An increasing number of MSMEs from Rajasthan have joined Meesho in the last couple of years as a result of the company's industry-first initiatives such as zero commission and zero penalty. In 2022, the platform recorded a 65% increase in suppliers onboarded from the state, of which ~76% started their e-commerce journey with Meesho. Additionally, 1000 sellers became crorepatris while ~24,000 sellers have become lakhpatris from Rajasthan so far. The top categories preferred by suppliers in the region include home & kitchen, personal care & wellness, consumer electronics and fashion. Since its inception, Meesho has played a vital role in supporting and enabling Small & Medium Businesses (SMBs) across the country, especially those from tier 2 and tier 3 cities. In fact, nearly 50% of all Meesho sellers hail from tier 2+ cities such as Amritsar, Rajkot, Hubli, Kozhikode, Jamshedpur and Tiruppur. Meesho also recently became the fastest e-commerce company in India to cross the 1 million seller milestone, amassing this formidable seller base within just eight years of inception. Out of

the total 1.1 million sellers on the platform, more than 80% of them are new-to-ecommerce and selling online for the first time.

Commenting on this growth, Sagarika Ayyannam, Senior Director - Business at Meesho, said, "To support the flourishing entrepreneurial spirit of our country, Meesho is building a robust platform to help small businesses grow and succeed online. With our industry-first initiatives such as zero commission, an increasing number of MSMEs have chosen to partner with us. We have observed a significant rise in the number of sellers on-boarded on our platform from Rajasthan in the past year. Today, we are the only platform that does

not differentiate sellers on the basis of tiers, nor do we have a private label or wholesale play."

Udaipur-based Mohit Shah, who sells apparel, home and kitchenware on Meesho, says, "I must admit that listing our business on Meesho has brought a positive change in our lives. The company's policies, reach and expert guidance have helped us comprehend the market and expand our product range significantly. From doing 4-5 orders on our second day of business to ~2,000 every month currently, it has been an unbelievable last 12 months. We have come a long way from where we began and are now planning to add many more products to our catalogue."

In 2022, Meesho recorded 140 million annual transacting users on its platform – a sizable portion of India's internet population. Access to Meesho's large and diverse user base, state-of-the-art tech and low-cost pan-India shipping through third-party logistics providers has helped sellers log 3X growth in average revenue. With 1.1 million sellers and ~100 million active product listings across 30 categories, Meesho is fueling discoverability of a wide assortment of products at the lowest prices for customers across the country.

"Beneficiary Selfie Program" inaugurated by BJP state co-in charge from Bhilwara

Bhilwara started Bhilwara Beneficiary With Selfie Program. This program will be organized in 200 assembly constituencies of Rajasthan under the top leadership of BJP Mahila Morcha, the Beneficiary Selfie Program is being managed today in Bapu Nagar Ward No. 11, Bhilwara, Beneficiary with Selfie. Fellowship in European Society of Surgical Oncology to Dr. Ashish Jakhethia

Udaipur. Surgeon Dr. Ashish Jakhethia working at the Cancer Center of Geetanjali Medical College

and Hospital, has got fellowship from the European Society of Surgical Oncology, Charite Hospital Berlin, under the guidance of Prof. Dr. Biate Rao, for one month of Management of Peritoneum Cancer, Advanced Technique Surgeries Highpec and Pipac (HIPEC, PIPAC).

After completing the Fellowship, Dr. Ashish informed me that peritoneum cancer is often aggressive, and its options are limited in the state. The patient's quality of life can be improved by operating on the patient with Hi-Peak and P-Peak techniques.

Mit may recall the Number of Doctors who submitted applications for this fellowship, of which eight doctors are selected and awarded fellowship annually.

Pratap Gaurav Kendra, not just a tourist destination but pilgrimage for building national character

Assam Governor Gulabchand Kataria inaugurated Pratap Gaurav Kendra.

Udaipur (Dr Munesh Arora): Pratap Gaurav Kendra is not just a tourist place but a pilgrimage to build the nation's character. That is why it has been prepared with the "National Pilgrimage" concept. This was stated by Assam Governor Gulabchand Kataria as the chief guest at the inauguration ceremony of 'Mewar Ki Shaurya Gatha' water laser show at Pratap Gaurav Kendra "Rashtriya Teerth" on Wednesday. He said that this place is not a center to earn money but to shake a person's mind and awaken self-respect by giving darshan of heroic history.

Recalling Rashtriya Swayamsevak Sangh campaigner Sohan Singh for the central concept, Kataria said he was a worker here before the governor. He said that the matter of the soil of Mewar is unique. People respect the bravery here, and if you tell someone you are from Mewar, they become eager to touch your feet. Expressing his gratitude for the cooperation from Bhamashahs so far in establishing this center, he said that even Bhamashahs stand up only when there is a personality like Maharana Pratap in front of them. He called upon to make this pilgrimage ideal.

Need for research on the peace period of Maharana Pratap.

Rashtriya Swayamsevak Sangh's field campaigner Nimba Ram, the ceremony's principal speaker, described the material of Chavand's period as less in the research work done so far on Maharana Pratap and expressed the need for research on it. He said there had been great men in the country's history whose colorful characters could not be included in the textbooks. During Pratap's peace period, there was still a need for research on subjects like administration, art, business, and city organization. He questioned why the colorful character of great men like Swami Vivekananda, Chhatrapati Shivaji, and Maharana Pratap could not be taught. Today the new generation needs to idealize the essence of such great men. He said that after resolving to make the concept of Pratap Gaurav Kendra a reality, the medium of its achievement had been public cooperation. The life story of Maharana Pratap is a symbol of social harmony which is relevant in the present circumstances. He called upon that from the Amrit Mahotsav of independence till 2025, the centenary year of Rashtriya Swayamsevak Sangh, there should be an extensive campaign of a nation awakening through various projects and activities.

The saga of the unsung hero is echoing in Amritkal.

At the function, Union Minister of State for Culture Arjun Ram Meghwal said that Amrit Kaal is going on in the country under the leadership of PM Modi. In this period, the stories of those unsung heroes of the government resonated, about whom, till now, neither was written nor told. Referring to Govind Guru of Mangarh Dham, Durga Bhabhi of Kaushambi, and Gangu Mehtar of Kanpur, he said that when attempts are being made to write about such heroes in textbooks, questions are being raised, but the unsung heroes of the country. It is our resolve to give due respect.

Municipal Corporation Mayor Govind Singh Tank informed about the development journey of Pratap Gaurav Kendra at the function. Initially, Dr. Parmendra Dashora, General Secretary of Veer Shiromani Maharana Pratap Samiti, gave the welcome address. Treasurer Ashok Purohit welcomed the guests with a bouquet and memento. In the end, President Dr. BL Chowdhary, while expressing his gratitude to the Bhamashahs in his presidential address, said that setting up a research center has started here. Vice President of the committee, MM Tank, proposed a vote of thanks. Bhavesh performed solo on the song 'Mayad Thaarao Wo Poot Kathai' at the function.

inaugurated by worshipping

Center director Anurag Saxena said that the guests inaugurated the water laser show after the ceremony by worshipping it with Vedic chants and placing shreefal. The guests watched with rapt attention the 25-minute water laser show. The intellectuals of the city, who came to watch the water laser show at the inauguration, were overwhelmed and kept chanting Bharat Mata and Maharana Pratap during the heroic scenes. Saxena said that in this project worth Rs 7.5 crore, a high-end projector had been imported from Canada, and 2-D and 3-D musical fountains and laser technology equipment had been imported from Germany. It is Rajasthan's first water laser show. Its work has been done by Modern State Services New Delhi, which has also done the job of Red Fort, Victoria Memorial, and Aji-Vivek Museum in Khethi.
