

Role of Education for Developed India 2047: National Seminar Organised

Udaipur: A one-day national seminar on the theme "Role of Education – Developed India 2047" was organised on Saturday at the IT Auditorium, Pratapnagar, by the Faculty of Education under Janardan Rai Nagar Rajasthan Vidyapeeth's Shramjeevi College.

The seminar brought together distinguished educationists and scholars from across seven Indian states, attracting the participation of 225 delegates in both offline and online formats.

Chancellor Bhanwar Lal Gurjar, presiding over the seminar, stressed that in order to realise the vision of a developed India by 2047, it is crucial to provide proper direction to today's youth. "Education forms the foundation of any nation's comprehensive development," he said, "but it must go beyond institutions and reach society through public awareness."

The Chancellor further highlighted that education must not be confined to degrees; it should foster character-building, social consciousness, and intellectual engagement. "Only when education reaches the masses in a meaningful and inclusive way,"

he stated, "can we envision a balanced, empowered, and developed India."

Prof. Ajit Kumar Karnataka, Vice-Chancellor of Maharana Pratap University of Agriculture and Technology, graced the seminar as the chief guest. He stated that education is not

merely about acquiring knowledge but is a vital bridge between culture and technology. "Skill-based knowledge, smart agriculture, and cultural integration are essential for building a developed India," he remarked.

Prof. Karnataka paid tribute to Vidyapeeth's visionary founder Janubhai, stating, "True development is not possible until education reaches the last individual." He also announced an upcoming MoU between MPUAT and Rajasthan Vidyapeeth in November, aiming to enhance educational collaboration for youth empowerment.

Vice Chancellor Prof. Shiv Singh Sarangdevot underlined that the vision of Developed India 2047 must include not just economic prosperity, but a clean, healthy, well-governed, and contented nation. Emphasizing the preservation of the five natural elements—earth, water, fire, air, and sky—he stated that holistic development rests on environmental harmony and cultural values.

He also reiterated the need to revive India's ancient knowledge traditions and reduce the urban-rural divide. "The con-

cept of a secure nation is central to building a developed nation. This is not a political agenda but a responsibility of every citizen," Prof. Sarangdevot said.

In the inaugural address, he invoked the teachings of Swami Vivekananda, Sri Aurobindo, Dattopant Thengadi, and Pandit Deendayal Upadhyay, stating that their human-centric philosophies provide global guidance in today's turbulent times.

The event also saw the launch of the book Fisheries Administrative Q&A, authored by Manohar Lal Arora and Dr. Darshna Dave. Seminar Coordinator Dr. Sunita Murdia informed that four technical sessions were held with insights from Prof. M.P. Sharma, Prof. P.C. Doshi, Dr. Anil Kothari, Dr. Ami Rathore, and Dr. Rachna Rathore on the vision of India 2047.

The programme was conducted by Dr. Harish Chaubisa, with a vote of thanks delivered by Principal Prof. Saroj Garg.

Present on the occasion were Examination Controller Dr. Paras Jain, Prof. Jeevan Singh Kharkwal, Dr. Yagya Ameta, Dr. Pradeep Shaktawat, K.K. Kumawat, students, scholars, and directors from Rajasthan Vidyapeeth.

Pacific Medical Journal Enters Its Tenth Year

Udaipur: The Pacific Journal of Medical and Health Sciences, published by Pacific Medical College and Pacific Medical University, has successfully completed nine years and is now entering its tenth year of publication. On this occasion, the Editor-in-Chief Dr. S.K. Verma and Editor Ravindra Bangar formally presented the first issue of the tenth year to the Institution's Chairman, Mr. Rahul Agrawal, and CEO Mr. Sharad Kothari for its official release.

On this occasion, Mr. Rahul Agrawal stated that this quarterly research journal has been continuously published over the past nine years and is now entering its tenth year. It is sent free of cost to the libraries of all reputed medical colleges across India. Efforts are ongoing to further elevate the stature of the journal in the future.

Editor-in-Chief Prof. S.K. Verma shared that the journal has published special thematic issues over the years — including a COVID-19 Special in December 2022, a Platelet Special in December 2023, and a Chrono-Nutrition and Trace

Elements Special in December 2024 — all of which were highly significant from a contemporary perspective.

Editor Ravindra Bangar noted that the journal has received research articles for publication not only from various departments of Pacific Medical University but also from the United States, Nepal, Nigeria, Mumbai, Gujarat, Madhya Pradesh, etc. This is a result of the tireless efforts of the editorial board. It is a matter of pride that with this issue, the journal has now been indexed in the I.G.I. Factor.

A New Voice of Life Through Cochlear Implant

Udaipur: Twelve-year-old Mohammad Ali, a resident of Hathipole, Udaipur, who was born with hearing and speech impairment, can now hear and speak like any other child. This transformation became possible through a free cochlear implant surgery performed in 2017 by the ENT department of Pacific Hospital, Bhilo Ka Bedla.

The cochlear implant brought a significant change to Mohammad Ali's life. However, in May 2025, an unfortunate incident occurred when the external processor of his hearing device was accidentally damaged. Due to financial constraints, his family was unable to afford a new processor.

Responding with humanitarian sensitivity, Rahul Agrawal, Chairman of PMCH (Pacific Medical College & Hospital), made arrangements to replace the processor free of cost. This noble gesture restored not just Mohammad Ali's ability to hear and speak again, but also brought immense relief and joy to his family. The ENT department's Head Dr. Richa Gupta and Dr. S.S. Kaushik played a vital role in the process. Their technical expertise ensured the new processor functioned properly, helping the child resume a normal life.

On this occasion, Chairman Rahul Agrawal stated, "No child should remain deaf-mute simply because of hearing loss. We are ready to extend every possible support. Cochlear implants are a ray of hope for such children, whose lives can become normal with the help of this life-changing device."

It is worth noting that the ENT department at Pacific Hospital, Udaipur, has successfully performed over 75 cochlear implant surgeries, enabling children to regain their hearing and speech. This achievement stands as a remarkable milestone in the field of medical care.

From Theory to Practice – Enriching Workshop for Nursing Students

Udaipur: A two-day workshop titled "Application of Nursing Theories" was successfully organized on July 1–2, 2025, by Geetanjali College and School of Nursing, Udaipur. The objective of the workshop was to deepen the understanding of various nursing theories among students and educators and to highlight their effective application in nursing care.

The event commenced with a traditional lamp-lighting ceremony. On the first day, nursing faculty members delivered insightful sessions explaining different nursing theories and their real-world relevance in healthcare settings.

Eminent dignitaries including Dr. Vijaya Ajmera, Dean – GCSN; Prof. Dr. Yogeshwar Puri Goswami, Principal – GCN; Prof. Kamlesh Joshi, Administrative Officer; and Prof. Jayesh Patidar, Academic Officer, graced the occasion with their presence.

The second day witnessed an interactive session where MSc Nursing (Previous Year) and Post Basic BSc Nursing students presented various case scenarios demonstrating the practical application of nursing theories.

The workshop concluded with the distribution of certificates to the resource persons and participants, marking a successful step from theory to hands-on practice in nursing education.

Lakecity Champions Excel at Dausa

Udaipur: The Dausa Mega Gold Cup Open Chess Tournament 2025 concluded with resounding success, with Udaipur's young talents from CIL International School of Chess and Castle Mind Chess Academy showcasing remarkable performances across multiple age groups.

Tournament Patron Mr. Tushar Mehta informed that Udaipur's players displayed extraordinary skill and determination throughout the state-level championship. Veteran player Rajendra Teli was honoured as the Best Veteran Player (Above 55) and awarded a cash prize of ₹2500. In the Under-9 category, Sujyot Kale secured the second position, winning ₹1500. In the Under-11 category, Purnanjay Chaudhary won third place (₹700 and certificate), while Priyanshu Nayak bagged fourth (₹500). Manny Chaudhary emerged as the Best Player in Under-7 Girls, adding further pride to Lakecity's achievements.

The tournament brought immense joy to the city, celebrated by Chess in Lakecity (Buddhibal Seva Sansthan). Congratulations poured in from Patron Tushar Mehta, President Rajeev Bhardwaj, Dr. Om Sahu, Manish Mogra, coaches Nilesh Kumawat, Kushal Patel, Divyanshu Babel, and others.

The players' dedication and training were widely praised, and hopes were expressed for their national and international success.

data, and proposals for classrooms and labs. The program concluded with a vote of thanks by Secretary Kacharul Charpota.

Zinc Vital for Crops, Human Health: Dr. Karnataka

Udaipur: A one-day workshop on the importance of zinc in agriculture and nutrition was organized at the Directorate of Research, Maharana Pratap University of Agriculture and Technology (MPUAT), Udaipur, in collaboration with the International Zinc Association and Hindustan Zinc.

Dr. Arvind Verma, Director of Research, welcomed participants and emphasized that zinc is crucial for enzyme and hormone production in crops and essential for immune function, cell division, and wound healing in humans.

Chief Guest Dr. Ajit Kumar Karnataka, Vice Chancellor of MPUAT, highlighted that zinc plays a key role in tackling malnutrition, especially in children. He revealed that nearly 48% of Indian soil is zinc-deficient and 30% of children globally suffer from zinc deficiency, making its use in agriculture a national priority. He praised MPUAT scientists for their ongoing research to address this issue. Dr. Soumitra Das from the International Zinc Association stressed zinc's global relevance in ensuring food and nutritional security. Dr. S.K. Sharma of ICAR and Dr. Devendra Jain of Rajasthan College of Agriculture also contributed expert insights.

The program concluded with the distribution of bio-fertilizers to farmers from Dabok and Madar. Over 100 scientists, officials, farmers, and students participated.

Dr. Medha Mathur Awarded Ph.D. by Geetanjali University

Udaipur: Professor Dr. Medha Mathur from the Department of Community Medicine at Geetanjali Medical College & Hospital has been conferred the degree of Doctor of Philosophy (Ph.D.) by Geetanjali University, Udaipur. She conducted her research under the able guidance of Dr. Mukul Dixit, Professor and Head, Department of Community Medicine, Geetanjali Medical College & Hospital. Her dissertation was titled "Assessment of the Spiritual Dimension in Health among Health Workforce at a Tertiary Care Hospital of Southern Rajasthan."

Indian Powerlifter Hunardeep Singh Wins Gold in Thailand

On June, the World Power Sports Federation organized an international bodybuilding and powerlifting competition in Bangkok, Thailand. The event aimed to bring together top athletes from across India and inspire excellence. Sub-junior powerlifter Hunardeep Singh clinched the gold medal in the powerlifting category, showcasing exceptional strength. His selection for this prestigious global event brought immense pride to his family and coach, who congratulated him and encouraged further dedication. Friends and relatives celebrated his achievement with a grand welcome, marking a proud moment in Hunardeep's sporting journey.

Doctors' Day Celebrated at PMCH with Cake-Cutting Ceremony

Udaipur: On the occasion of National Doctors' Day, a heartfelt celebration was organized at Pacific Medical College & Hospital (PMCH). Doctors, hospital administrators, nursing staff, and medical students gathered enthusiastically, marking the day by cutting a cake and extending warm wishes to each other.

Addressing the gathering, Dr. Prakash Audichya, Head of the Department of Anesthesiology, highlighted this year's theme: "Who heals the healer: The masked doctor?" He explained that while doctors often appear cheerful, they too carry emotional burdens and face personal challenges. Despite their tireless service to others, they often neglect their own mental and physical health.

Dr. Hanumant Singh Rathore, Urologist, added that doctors not only treat physical ailments but also play a crucial role in strengthening patients emotionally. He commended the selfless dedication with which doctors served during the global COVID-19 pandemic.

During the event, the PMCH administration expressed gratitude to all doctors, affirming their trust in the continued commitment and integrity of the medical community in serving society.

Nasir Ali Ansari Felicitated Grandly

Banswara: Nasir Ali Ansari, Chemistry Lecturer at Government Higher Secondary School, Amarthoon, was honoured for delivering outstanding exam results and securing merit-based selection for Mahatma Gandhi English Medium School, Tok. The ceremony, led by Principal Arun Vyas, included felicitations with a turban, shawl, and garland. Several dignitaries and faculty members were present. Key issues like infrastructure, vacant posts, and student welfare schemes were discussed. Emphasis was placed on boosting enrolment, updating Shala Darpan

Udbhavan 2025 Ignites Entrepreneurial Spirit

Flagship Event Showcases Innovation and Startups at Sangam University

Bhilwara: 'Udbhavan 2025', Sangam University's flagship event dedicated to innovation and entrepreneurship, was successfully organized under the joint aegis of the Centre for Entrepreneurship and Skill Development and Sangam i-TBI. The two-day event offered a vibrant platform for young innovators, investors, and industry leaders to collaborate and exchange ideas.

The opening day, themed 'Ignitia', featured new product launches, an entrepreneurship exhibition, exclusive training sessions, and a networking night titled 'Jan Milan'. A highlight was 'Pitch Board 2025', where startups presented their ideas before a jury, judged on innovation, viability, and presentation.

Prof. Dr. Karunesh Saxena, Vice Chancellor, emphasized that innovation, technology, and entrepreneurship are the pillars of future growth. Pro VC Prof. Dr. Manas Ranjan Panigrahi encouraged students to become job creators. Dr. Manoj Kumawat, the event coordinator, highlighted the event's role in putting Bhilwara on the innovation map.

Dr. C.S. Yadav, chief guest from the Department of Science and Technology, Gol, underscored the need for collaborative innovation. A virtual keynote by Mr. Mahendra Gupta (ABES Engineering College) shed light on the relevance of incubation centers.

Organized seamlessly by student leaders Ananya Babel, Nikita Rathore, and Nishant Pareek, Udbhavan 2025 concluded with recognitions and a renewed commitment to entrepreneurial excellence.

Sangam University–Hidden Talent MoU Signed

Collaboration Aims to Enhance Student Employability

Bhilwara: Sangam University, Bhilwara, has signed a strategic Memorandum of Understanding (MoU) with leading IT services company Hidden Talent, Bhilwara, aimed at enriching student learning through industrial exposure, skill-based training, and improved placement prospects.

The MoU was officially signed by Prof. Dr. Karunesh Saxena, Vice Chancellor of Sangam University, and Mr. Mohit Jagetia, CEO of Hidden Talent. The signing ceremony was coordinated by Mr. Atul Parashar from the university's Training and Placement Department.

Dr. Anurag Sharma, Deputy Director (Training and Placement), shared that this collaboration will offer students industry-relevant internships, expert sessions, and career-focused technical training aligned with current market trends.

Vice Chancellor Dr. Saxena highlighted the MoU as a robust bridge connecting academia and industry. He stated that the partnership would empower students with both theoretical knowledge and hands-on experience, thus enhancing their employability and contributing to regional development. Pro Vice Chancellor Prof. Dr. Manas Ranjan Panigrahi appreciated the initiative and stressed its importance for students' academic and professional growth.

Hidden Talent CEO Mr. Mohit Jagetia described the collaboration as a platform to nurture young talent through exposure to advanced technologies. The event was attended by faculty members and industry representatives, marking a pivotal step toward academic-industrial synergy.
