

Alumni Meet 2025 Organised for Management Students at Sangam University

Bhilwara: Sangam University hosted a grand "Alumni Meet 2025" for former students of the Faculty of Management Studies at its campus. The event was aimed at fostering interaction between alumni and current students, encouraging experience sharing, and building a strong professional network.

Dr. Anurag Sharma, Deputy Director of the Training and Placement Cell and Secretary of the Alumni Association, shared that the meet served as a vital platform to connect past and present students and strengthen industry-academia ties.

The meet witnessed the participation of 80 alumni currently working in various managerial roles. They expressed how the education and practical training received at Sangam University laid a strong foundation for their professional journey.

Vice Chancellor Prof. Dr. Karunesh Saxena said that the Management Studies Alumni Meet 2025 reflects the university's commitment to offering a common platform for

alumni to share experiences that benefit the current student community. He emphasized that such events enrich both academic and professional dimensions of the institution.

Pro Vice Chancellor Prof. Dr. Manas Ranjan Panigrahi noted that the enthusiastic participation and inspiring stories of alumni demonstrate that the university's management department not only maintains academic excellence but also equips students with industry-relevant skills. Events like this, he added, help guide students toward a brighter future.

Registrar Dr. Alok Kumar mentioned that the ongoing connection of alumni with the university is a testament to its academic legacy. Their success stories are a matter of pride for the institution.

Dean of the Management Department Dr. Mukesh Sharma explained that the event was more than just a social gathering—it served as a platform where current students had the opportunity to directly interact with successful alumni, gaining insights into industry trends, skills, and real-world experiences.

The program was coordinated by Atul Parashar from the Training and Placement Cell. The efforts of Sakshi Patwari and Meenal Sharma from the placement team, along with Dr. Surbhi Birla, Dr. Neha Sabharwal, and the entire management faculty team, were especially appreciated for making the event a success.

Farmers' Innovations Must Be Refined and Shared Nationwide: Dr. Rajbir Singh

Udaipur (Dr. Latika Vyas): Significant transformation in the agricultural sector can be achieved when farmers, scientists, and extension professionals collaborate, said Dr. Rajbir Singh, Deputy Director General (Extension), ICAR, New Delhi. Addressing the 23rd Extension Education Council Meeting at MPUAT, Udaipur, Dr. Singh emphasized that farmers are true innovators, consistently solving field-level issues through experimentation. Their innovations should be scientifically refined and disseminated nationwide through Krishi Vigyan Kendras (KVKs).

The meeting, held at the Directorate of Extension Education, was attended by heads of eight KVKs, IFCCO representatives, and farmers. Dr. Singh praised the Viksit Krishi Sankalp Abhiyan, which reached 1.35 crore farmers across India, including over 8 lakh in Rajasthan. He urged all 731 KVKs to become dynamic "Mini Universities" and central hubs for modern agriculture.

Dr. Ajeet Kumar Karnataka, Vice Chancellor of MPUAT, who presided over the session, highlighted India's achievements—354 million tonnes of food grains, 362 million tonnes of horticulture produce, and record milk and egg production. He called for greater focus on pulses, oilseeds, and natural farming.

MPUAT's excellence was also noted: it received the Chancellor's Award in 2022 and has signed 81 MoUs, including international partnerships. The university currently runs 97 research and industry-funded projects and has generated 280 actionable recommendations for farmers.

Dr. Chandeshwar Tiwari suggested launching agricultural diploma courses to attract youth, while Dr. J.P. Mishra and Dr. R.L. Soni stressed the importance of low-chemical farming, water conservation, and climate-resilient technologies aligned with "Viksit Bharat 2047".

PhysicsWallah Announces PWN SAT 2025: Scholarship Opportunity for NEET & JEE Aspirants in Udaipur

Udaipur: India's leading edtech company PhysicsWallah (PW) has officially announced the fourth edition of PWN SAT 2025—the PhysicsWallah National Scholarship cum Admission Test. This initiative aims to support NEET-UG and IIT-JEE aspirants by providing them with quality education and mentorship, irrespective of their financial circumstances.

The announcement was made during a special event held in Udaipur, in the presence of PW's Rajasthan Regional Head, PW Vidyapeeth Udaipur's Center Head, and the Business Head. Several principals from reputed schools across the city also attended the program.

Alakh Pandey, Founder, CEO, and Educator at PhysicsWallah, stated, "Many students are forced to give up on their dreams due to financial constraints. Through PWN SAT 2025, we aim to change that. Every child deserves an equal opportunity to chase their dreams, and we're here to support them."

PWN SAT 2025 will be conducted in both online and offline modes to ensure accessibility for students from all corners of the country:

- Online Exam: Between 1st to 15th October 2025
- Offline Exam: On 5th and 12th October 2025, at all PW Vidyapeeth and Pathshalas centers

Registration is completely free, and Results will be announced on 25th October 2025

This initiative serves as a golden opportunity for deserving students, especially those from underprivileged backgrounds, to pursue careers in medicine and engineering with strong academic support.

Made-in-India SSI Mantra Enables World's First Cardiac Intercontinental Robotic Surgery

Udaipur: In a landmark achievement for surgical innovation and global healthcare collaboration, SS Innovations International, Inc. successfully conducted the world's first intercontinental cardiac robotic surgery using the indigenously developed SSI Mantra Surgical Robotic System. The groundbreaking procedures were performed during the Annual Conference of the Society of Robotic Surgery (SRS) in Strasbourg, France.

Bridging nearly 10,000 kilometers, the surgeries connected the IRCAD headquarters in Strasbourg with the Sri Aurobindo Institute of Medical Sciences (SAIMS) and the IRCAD National Centre in Indore, India. The SSI Mantra system demonstrated its exceptional precision and latency-free performance in two live telesurgeries. The first, a gastric bypass, was flawlessly performed in 44 minutes by Dr. Mohit Bhandari, President of IRCAD India. The second, a robotic atrial septal defect (ASD) closure, was conducted by Dr. Sudhir Srivastava, Founder, Chairman, and CEO of SS Innovations.

Moderated by global robotic surgery expert Dr. Husam H. Balkhy, the procedures showcased the future of safe and remote surgical intervention. Dr. Srivastava emphasized the significance of this milestone, stating that the SSI Mantra system will democratize complex cardiac care in underserved regions. Dr. Bhandari highlighted the transformative potential of such technology in bridging global healthcare disparities.

SS Innovations International is the only surgical robotics company to receive regulatory approval from India's CDSCO for both telesurgery and tele-proctoring, further positioning India at the forefront of medical technology.

CPS Celebrates Hariyali Amavasya with Joyful Sawan Utsav Fair

Udaipur: Central Public Sr. Sec. School, New Bhupalpura, Udaipur, celebrated the Sawan Utsav with great enthusiasm through a vibrant Hariyali Amavasya Mela on its campus.

The event was graced by distinguished guests including Dr. Rekha Soni (President, Rotary Club Udaipur Meera), Mrs. Kavita Baldwa (Secretary), and club members Mrs. Madhu Sareen, Mrs. Riya Soni, Mrs. Sangeeta Mundra, Mrs. Jyoti Tank, Mrs. Archana Vyas, and Mrs. Tarika Bhanu Pratap (Rotary Panna), who added elegance and meaning to the celebration.

Organized specially for students and parents, the fair aimed to foster values of teamwork and environmental awareness among children. As part of Rotary Club Udaipur Meera's Sukun Mela Series - 2, a special eco-awareness stall was set up with the theme "Har Ghar Ek Doctor – Plant a Medicinal Tree." Another key message promoted during the event was: "Take only what you need, don't let it go to waste."

Under the guidance of teachers, students from all four houses – Blue, Green, Saffron, and Yellow – put up food and game stalls that delighted the attendees. The color green, symbolizing prosperity and nature, dominated the decor and attire. Everyone, from students to the Chairperson, Directors, Principal, and Chief Guests, donned green outfits in harmony with the theme.

The event featured a lively cultural program, fun-filled swings, and vibrant stalls that created a festive atmosphere. Children and parents enjoyed the various rides and games. Awards were given to students dressed in the best green attire.

The celebration concluded with a heartfelt vote of thanks by Chairperson Mrs. Alka Sharma, Administrative Director Mr. Anil Sharma, Director Dr. Deepak Sharma, Principal Mrs. Poonam Rathore, Joint Director Mr. Vikramjeet Singh Shekhawat, Administrator Mr. Sunil Babel, and Headmistress Mrs. Krishna Shaktawat.

Awareness Program on Rights of Persons with Disabilities Held in Udaipur

Udaipur: The Department of Psychiatry at Pacific Institute of Medical Sciences (PIMS), Umarda, organized a community outreach program to raise awareness about the Rights of Persons with Disabilities Act (RPwD Act 2016). The event took place at the Anganwadi Centre and Government Primary School (Fateh Senior Secondary branch) in Kumawatpura, Shakha Chowk.

Led by Dr. Praveen Khairkar, Professor and Head of the Psychiatry Department, the session saw active participation from Dr. Priyanka (Psychiatrist), Dr. Divya (Junior Resident), and psychologists Indrapal Salvi and Tejendra Nath. The program aimed to educate the local community on legal rights, inclusive practices, and the importance of social support for persons with disabilities.

Books Donated by Consumer Protection Organisation to MLSU Management Faculty Library

Udaipur: Members of the Consumer Protection Organisation donated books to the Faculty of Management Studies Library at Mohanlal Sukhadia University. The donation was made by M.S. Verma (Retired Assistant General Manager, Bank of Baroda) and Dr. Rajshree Gandhi (Verma), National President of the Consumer Protection Organisation.

Verma shared that he had completed his Evening Management Program from the Faculty of Management Studies in the year 2000 while serving in the banking sector.

Dr. Gandhi mentioned that this donation is a way for their family to express gratitude towards the university, and they hope the books will assist students in their academic pursuits and knowledge building. Present on the occasion were Prof. Meera Mathur, Director of the Faculty of Management Studies; Prof. Hanuman Prasad, Director of the Tourism Department and Engineering College; Dr. Raja Ram Bhat, Deputy Librarian of the Central Library; along with management students. All attendees were urged to uphold the Indian tradition of philanthropy, especially in the field of education. It was emphasized that donations made towards education can bring transformative change in individual lives, and hence, everyone should encourage and engage in educational giving.

Herbal Unani medicine capable of normalising the level of calcium in the blood: Dr. Liyaqat Ali Mansury

hypocalcaemia. And if the calcium level in the blood is higher than 10.2 mg/dL, it is called hypercalcaemia.

Functions of calcium in the body-

1. Calcium is the main component of the structure of bones and teeth, which helps keep them strong and healthy.
2. Calcium is essential for muscle contraction and relaxation, which is important for body mobility.
3. Calcium is also essential for the proper functioning of the nervous system, which helps in communication between different organs and systems of the body.

The normal level of calcium in the body's blood is between 8.5 and 10.2 mg/dL. If the calcium level in the blood is less than 8.5 mg/dL, it is called

4. Calcium is also involved in the clotting process of blood, which helps stop bleeding when injured. Symptoms of calcium deficiency-

1. Muscle cramps and pain.
2. Fatigue and weakness.
3. Changes in mental health including forgetfulness, confusion, depression and anxiety.
4. Dry skin and brittle nails.
5. Dental problems.
6. Weakness of bones.
7. Thick hair.
8. Abnormal heartbeat.
9. Seizure.
10. Tingling and numbness, especially around the mouth, lips, tongue, fingers, and feet.
11. Lack of stimulation in the nerves and muscles.

What tests can be done-

1. Calcium level in the blood.
2. A significant portion of calcium in the blood is bound to albumin. Therefore, albumin levels are also measured.
3. Blood tests for magnesium, phosphorus, pth, vitamin D levels.

4. Electrocardiogram (ECG) test for cardiac rhythm abnormalities.

unani treatment-

1. To increase the calcium level, Kushta Conch, Kushta Godanti, Yeast Marwarid, Extract Celery, Habbe Asgard, Habbe Shilajit, Jawarish Awa, Majun Jograj Gugal.
- Extract Maul Lehah etc. are used.
2. In the form of home recipes - giloy, basil leaves, sesame seeds, soaked chona or its water, milk and cinnamon etc. are given.
3. Eat calcium-rich foods such as dairy products such as yoghurt, cheese, milk, green leafy vegetables, ragi, oats, oranges, tomatoes, soybeans, sesame and calcium-fortified foods.
4. Take vitamin D too—Vitamin D helps in the absorption of calcium, so it is also important to get enough vitamin D
5. Take supplements—If you are not getting enough calcium in your diet, you can take calcium supplements like dates, bananas, almonds, gram and makhana etc.
